# Initial Paperwork Reduction Act of 1995 Analysis

This Notice of Proposed Rulemaking (NPRM) was analyzed with respect to the Paperwork Reduction Act of 1995, Public Law 104–13 (PRA) and contains modified information collection requirements. Specifically, this NPRM proposes to modify existing DTV transition-related information collection requirements to (1) expand viewer notification and other public interest obligations for early terminators of analog service; and (2) amend consumer education requirements to provide more detailed and accurate information to television viewers. The Commission is seeking OMB approval for these changes under OMB's emergency processing rules.

The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and the Office of Management and Budget (OMB) to comment on the information collection requirements contained in this document, as required by the PRA. Public and agency comments are due March 4, 2009. Comments should address: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. In addition, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), we seek specific comment on how we might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

Summary of the Notice of Proposed Rulemaking:

# I. Notice of Proposed Rulemaking

1. In this Notice of Proposed Rulemaking (NPRM), we seek comment on possible additional amendments to our rules that may be necessary or appropriate to carry out the purposes of the DTV Delay Act. In particular, we seek comment on revisions to the early analog termination procedures for stations that prefer to complete their transition before the new deadline of June 12, 2009. We also seek comment on whether to revise our consumer education rules, particularly by requiring broadcasters to provide service loss notices to viewers. We ask whether broadcasters should provide information on rescanning with digital equipment, and, where applicable, information regarding the need for different equipment due to changes from UHF to VHF service, or vice versa.
