SUPPLEMENTARY INFORMATION: USAID is establishing a new system of records pursuant to the Privacy Act (5 U.S.C. 552a), entitled the Deployment Tracking System (DTS). This system is being established to support USAID's responsibilities as identified in National Security Presidential Directive 44 (NSPD-44), issued on December 7, 2005.

The objective of NSPD-44 is to promote the security of the United States through improved coordination, planning and implementation for reconstruction and stabilization assistance for foreign states and regions at risk of, in, or in transition from conflict or civil strife. NSPD-44 mandates the Department of State to coordinate, plan and implement an interagency effort, with the capacity to quickly and effectively respond to a crisis overseas. To accomplish this, the Department of State established the Civilian Response Corps (CRC). Led by the Department of State, CRC is comprised of eight agency partners, including USAID, whose programs and personnel may have relevant capabilities to prepare, plan for, and conduct stabilization and reconstruction activities.

USAID's Bureau for Democracy, Conflict and Humanitarian Assistance, Office of Civilian Response (DCHA/OCR) has been assigned to implement these mandates. In order to participate as a partner agency, USAID must have mechanisms in place to assign or employ skilled personnel and have the ability to mobilize resources rapidly in response to stabilization crisis. The DTS is being established to provide DCHA/OCR personnel with internal capabilities to plan and mobilize the appropriate personnel in response to a crisis. The system will be used to identify potential, current and former civilian employees and contractors skilled in crisis response, to ensure a coordinated U.S. response to international reconstruction and stabilization efforts.

Dated: February 23, 2009.

W. Philip Gordon, Jr.,
Acting Chief Privacy Officer.

SUPPLEMENTARY INFORMATION:**Background and Purpose**

The purpose of the Center is to increase access to healthy affordable foods to underserved communities. The Center will also collect, develop, and provide technical assistance and information to small and medium-sized agricultural producers, food wholesalers and retailers, schools, and other individuals and entities regarding best practices and the availability of assistance for aggregating, storing, processing, and marketing locally produced agricultural products and increasing the availability of such products in underserved communities.

Through a grant to a non-profit entity, sub-grants will be used to carry out feasibility studies to establish businesses to increase access to healthy affordable foods, including locally produced agricultural products, to underserved communities and establish and otherwise assist enterprises that process, distribute, aggregate, store, and market healthy affordable foods.

Sub-grants will be awarded to nonprofit organizations; cooperatives, commercial entities, agricultural producers, academic institutions, individuals and other entities as the Secretary of Agriculture may designate. In FY 2009, it is anticipated that one million dollars in funding will be available and priority will be given to applications that:

1. Benefit underserved communities (as defined by 7 U.S.C. § 2034); and
2. Develop market opportunities for small and mid-sized farm and ranch operations.
