

evaluated based on the reasonable likelihood that the project will generate enough transmission service revenue to repay the principal investment, all operating costs and the accrued interest.

C. Policies and Practices:

1. Western will use generally accepted accounting principles and practices in recording and tracking all expenses and revenue transactions for each Project selected.

2. Western will isolate these financial accounting transactions in its existing financial management system.

IV. Project Evaluation

A. Applicability: All Projects to be considered for funding under this authority would be evaluated against the criteria outlined below.

B. Criteria: Project evaluation includes feasibility of developing a project that meets the following minimum criteria:

1. Facilitates the delivery of energy from renewable resources to market,

2. Is in the public interest,

3. Will not adversely impact system reliability or operations, or other statutory obligations,

4. Is reasonable to expect that the proceeds from such project shall be adequate to meet Western's financial repayment obligations, and

5. At least one terminus must be located within Western's service territory.

C. Policies and Practices:

1. Western will establish additional evaluation factors to evaluate proposed Projects as necessary.

2. Western may, at its discretion, use outside expertise to assist in evaluating proposed Projects seeking funding under this authority.

3. Western will treat data submitted by Project participants related to this authority, including project descriptions, participation and financing arrangements by other parties, as available to the public through the FOIA. However, participants may request confidential treatment of all or part of a submitted document under FOIA's exemption for "Confidential Business Information." Materials so designated and which meet the criteria stipulated in the FOIA will be treated as exempt from FOIA inquiries.

V. Project Development and Operations and Maintenance

A. Applicability: All Projects to be considered for funding under this authority.

B. Policies and Practices:

1. For study, facility development, construction and any other related purposes, where applicable, Western

will consider projects that may be constructed pursuant to its authority under section 402 of the Recovery Act separately from procedures and requirements for arranging for transmission service or interconnection under its OATT, or related interconnection agreements. To the extent projects considered under this authority might satisfy OATT or related requests, Western will attempt to develop the project to satisfy those requests, however project development under section 402 of the Recovery Act will take priority. Western will use the appropriate project management methods to initiate, plan, execute, monitor, control and close all transmission projects approved for funding under this authority.

2. Available transfer capability surplus to Western's need will be made available in a nondiscriminatory manner consistent with FERC open access transmission rules, Federal statute, and Western policies.

3. Western will comply with all other applicable Federal laws, regulations and policies.

VI. Project Rates and Repayment

A. Applicability: All Projects funded under this authority.

B. Criteria: The repayment requirements and applicable transmission rates will be designed so that proceeds from the project can reasonably be expected to be adequate to meet the repayment obligation.

C. Policies and Practices:

1. Before project development, Western will confirm the reasonable likelihood that the project will generate enough transmission service revenue to meet Western's financial repayment obligations including principal investment, operating costs, accrued interest, and other appropriate costs.

2. Transmission rates for transmission capacity Western owns or controls will be developed in a public process following the applicable requirements outlined in 10 CFR 903 and set by the Administrator as specified in relevant DOE orders.

Environmental Compliance

In compliance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321, *et seq.*), the Council on Environmental Quality Regulations for implementing NEPA (40 CFR parts 1500–1508) and the DOE NEPA Implementing Procedures and Guidelines (10 CFR part 1021), Western has determined that this action is categorically excluded from further NEPA analysis. Future actions under

this authority will undergo appropriate NEPA analysis.

producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at

your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

3. **Environmental justice.** EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

EPA is announcing receipt of a pesticide petition filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the establishment or modification of regulations in 40 CFR part 174 or part 180 for residues of pesticide chemicals in or on various food commodities. EPA has determined that the pesticide petition described in this notice contains data or information prescribed in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the pesticide petition. Additional data may be needed before EPA can make a final determination on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition that is the subject of this notice, prepared by the petitioner, is included in a docket EPA has created for this rulemaking. The docket for this petition is available online at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), (21 U.S.C. 346a(d)(3)), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

Amended Tolerance Exemption

PP 8E7446. Organic Works/BioNet International Corp. c/o Interregional Research Project Number 4, 500 College Road East, Princeton, NJ 08540, proposes to amend an exemption from the requirement of a tolerance in 40 CFR 180.1258 for residues of the biochemical pesticide, acetic acid, in or on all food commodities. The petitioner believes no analytical method is needed because there are no known analytical studies which have determined residue magnitudes on plant tissues following the herbicidal application of acetic acid. At the upper application rate of 55 pounds of active ingredient per acre the resulting concentrations should be well below the 1 to 1.5% levels predicted when acetic acid is applied to hay or grain, a use for which acetic acid has gained an exemption from the requirements of a tolerance in 40 CFR 180.1258. Since this product is a non-selective herbicide the product will be applied either when the crop is not present or the application will be directed away from the crop. The product is not intended for any direct application to the crop therefore only a minor amount of inadvertent residues could occur. Acetic acid is a naturally occurring substance found in all plants therefore inadvertent residues would be indistinguishable from acetic acid already in the crop.
