For complete "Application and Submission Information," please refer to Section IV.

SUMMARY: The Employment and Training Administration announces the availability of approximately \$20 million for two grants to serve young adult (ages 18 to 24) offenders and high school dropouts in high-poverty, highcrime communities. The purpose of these grants is to prepare these individuals for employment. These grants will be awarded through a competitive process open to national and regional intermediaries with experience conducting multi-site projects and experience serving young adult offenders. The Department expects to award two grants of \$10 million each covering a six-month planning period and two full years of operation. Grantees will be required to competitively select local sub-grantees to operate the program in a minimum of five highpoverty, high-crime communities across at least two States.

This solicitation provides background information and describes the application submission requirements, outlines the process that eligible entities must use to apply for funds covered by this solicitation, and outlines the evaluation criteria used as a basis for selecting the grantees.

SUPPLEMENTARY INFORMATION: This solicitation consists of eight parts:

Part I provides a description of this funding opportunity.

Part II describes the size and nature of the anticipated awards.

Part III describes eligibility information.

Part IV provides information on the application and submission process.

Part V describes the criteria against which applications will be reviewed and explains the proposal review process.

Part VI provides award administration information.

Part VIII other information.

I. Funding Opportunity Description

Each year approximately 650,000 persons are released from State and Federal prisons. These prisoners do not return to communities evenly distributed across the United States, but rather return disproportionately to highpoverty communities characterized by high rates of joblessness, crime, and drug abuse. Released prisoners face high probabilities of returning to crime, with Department of Justice data showing that three out of five released prisoners are arrested for new crimes within three years, and two out of five return to prison within threes years. Returning offenders face a myriad of problems that contribute to their high rates of re-arrest and re-imprisonment, including joblessness, low educational levels, and drug addiction. The unemployment rate among ex-prisoners has been estimated between 25 and 40 percent. An estimated 19 percent of adult State prisoners are completely illiterate and 40 percent are functionally illiterate; over half of State parole entrants are not high school graduates; and as many as eleven percent have only an eighth grade education or less.

To help address these problems the DOL will award grants under this announcement to improve the employment prospects of young adult (ages 18 to 24) released prisoners and high school dropouts living in high-poverty, high-crime communities. The purpose of these grants is to prepare

these individuals for employment, by increasing the employment rate of participants, decreasing the recidivism rate of young offenders served, increasing the rate at which participants receive high school diplomas and industry-recognized credentials, and increasing the rate at which participants enter post-secondary education and training. These grants will be awarded through a competitive process open to national and regional intermediaries with experience conducting multi-site projects and experience serving young adult offenders. The DOL expects to award two grants of \$10 million each covering a six-month planning period and two full years of operation. Program Requirements are as follows:

A. Selection of Sub-Grantees

Grantees will be required to competitively select local sub-grantees to operate the program in a minimum of five high-poverty, high-crime communities across at least two States. This competition should be held after grant award. The Department is not encouraging applicants to hold competitions or select local sub-grantees and sites prior to submitting their proposals and applicants will not receive any additional points for identifying local sub-grantees and sites in their proposals.

Grantees must follow their own procurement requirements in conducting this competition, provided that they meet the federal standards at 29 CFR Parts 95 and 97. These federal standards require that procurement transactions be conducted in a manner providing to the maximum extent practical, open and free competition. The Department recognizes that national and regional intermediary organizations vary as to whether or not they have local offices, affiliates, or members. National and regional intermediaries without local offices, affiliates, or members must conduct an open and free competition to select sub-grantees and sites. National and regional intermediaries with local offices, affiliates, or member organizations must also conduct an open and free competition to select subgrantees and sites but may restrict the competition to its local offices, affiliates, or members to select sub-grantees and sites. If a proposal identifies a specific entry to provide services, the DOL/ ETA's award does not provide the justification or basis to sole source the procurement, i.e., avoid competition, unless the activity is regarded as the primary work of an official partner to the application.
