

NRC and USACE staff will host informal discussions from 6 p.m. to 7 p.m. before the start of the meeting at Restoration Church International. No formal comments will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed below.

Persons may register to attend or present oral comments at the meeting on the scope of the NEPA review by contacting Ms. Sarah Lopas at 1-800-368-5642, extension 1147, or via e-mail to the NRC at [Lee.COLAEIS@nrc.gov](mailto:Lee.COLAEIS@nrc.gov), no later than June 14, 2010.

Members of the public may also register to speak at the open house prior to the start of the meeting. Individual oral comments may be limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments on the supplement to the ER will be considered in the supplemental scoping process for the EIS. Ms. Sarah Lopas will need to be contacted no later than June 4, 2010, if special equipment or accommodations are needed to attend or present information at the public meeting, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the supplement to the ER to the Chief, Rules, Announcements, and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. To ensure that comments are considered in the supplemental scoping process, written comments must be post-marked or delivered by the end of the supplemental scoping comment period, which is July 2, 2010. Electronic comments may be sent via the Internet to the NRC at [Lee.COLAEIS@nrc.gov](mailto:Lee.COLAEIS@nrc.gov). Electronic submissions must be sent no later than July 2, 2010, to ensure that they will be considered in the supplemental scoping process. Comments will be available electronically and accessible through the NRC's ERR link at <http://www.nrc.gov/readingrm/adams.html>. The NRC staff may consider comments submitted after the end of the comment period, as time and resources permit. Participation in the supplemental scoping process does not entitle participants to become parties to the proceeding to which the EIS relates.

Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

At the conclusion of the supplemental scoping process, the NRC staff will prepare a concise summary of the determination and conclusions reached on the scope of the environmental review for the supplemental information on Make-Up Pond C, including the significant issues identified, and will send a copy of the summary to each participant in the supplemental scoping process for whom the staff has an address. The summary will also be available for inspection through the NRC's ERR link. The staff will then prepare and issue for comment the draft EIS, which will be the subject of separate **Federal Register** notices and a separate public meeting. Copies of the draft EIS will be available for public inspection at the above-mentioned address, and one copy per request will be provided free of charge. After receipt and consideration of the comments on the draft EIS, the NRC staff will prepare a final EIS, which will also be available for public inspection.

Information about the proposed EIS and the scoping process may be obtained from Ms. Sarah Lopas at 1-800-368-5642, extension 1147.

Dated at Rockville, Maryland, this 18th day of May 2010.

For the Nuclear Regulatory Commission.
