Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The Educational Facilities Clearinghouse (Clearinghouse) will provide technical assistance and training on the planning, design, financing, construction, operation, and maintenance of public nursery and pre-kindergarten, kindergarten-through-grade-12, and higher education facilities. The Clearinghouse will also develop resources and assemble best practices on issues related to ensuring safe, healthy, and high-performance public education facilities, including on procedures for identifying hazards and conducting vulnerability assessments.

Priority: We are establishing this priority for the FY 2010 grant competition and any subsequent year in

which we make awards from the list of unfunded applicants from this competition, in accordance with section 437(d)(1) of the General Education Provisions Act (GEPA), 20 U.S.C. 1232(d)(1).

Absolute Priority: We are establishing this priority to provide a Clearinghouse for public nursery, pre-kindergarten, and kindergarten-through-grade-12 schools, and higher education facilities, to support decision-making related to educational facility planning, design, financing, construction, improvement, operation, and maintenance. This priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Establishment of the Clearinghouse.

This priority supports the establishment of a Clearinghouse to collect and disseminate information on effective educational practices and the latest research regarding the planning, design, financing, construction, improvement, operations, and maintenance of safe, healthy, high-performance public facilities for nursery and pre-kindergarten, kindergarten-through-grade 12, and higher education.

Invitational Priority: For FY 2010 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an invitational priority. Under 34 CFR 75.105(c)(1) we do not give an application that meets this invitational priority a competitive or absolute preference over other applications. Under this competition we are particularly interested in applications that address the following priority.

This priority is:

Development and Dissemination of Information on Green Building Practices.

Under this priority, applicants may propose to develop and disseminate resources and research regarding best practices in constructing and maintaining environmentally sound educational facilities using green building practices. For the purposes of this competition the term "green building," as defined by the U.S. Environmental Protection Agency, is the practice of creating structures and using processes that are environmentally responsible and resource-efficient throughout a building's life-cycle from siting through design, construction, operation, maintenance, renovation, and deconstruction. This practice expands and complements the classical building design concerns of economy, utility, durability, and comfort.

Requirements: Applicants for grants under this competition must meet the following requirements:

1. Establish and maintain a Web site.

To be considered for an award, applicants must include in their application a plan to establish and maintain a dedicated Web site that will include electronic resources, such as links to published articles and research, related to the planning, design, financing, construction, improvement, operation, and maintenance of safe, healthy, high-performance public facilities for nursery and pre-kindergarten, kindergarten-through-grade-12, and higher education. The Web site should be established within 90 days of the award and must be maintained for the duration of the project.

2. Develop Resource Materials. The project funded under this competition must develop resources that support the planning, design, financing, construction, improvement, operation, and maintenance of safe, healthy, high-performance public facilities for nursery and pre-kindergarten, kindergarten-through-grade-12 schools, and higher education. Applicants must plan to develop at least three publications each year. All publication topics must be reviewed and approved by the Department. In general, the three publications will consist of two short (3-4 pages) resource documents that provide a general overview of a particular topic and one longer (8-10 pages) resource document that provides detailed research or analysis on a particular topic.

3. Distance-Learning Events.

Applicants must plan to convene up to three distance-learning events each year on topics related to the absolute priority in this notice. The events must be at least one hour in duration and must be aired and archived on the Clearinghouse's Web site. All proposed topics, materials, and presenters must be reviewed and approved by the Department.

4. Training. Applicants must plan to develop and conduct at least two training programs per year for public nursery, pre-kindergarten, and kindergarten-through-grade-12 schools; local educational agencies (LEAs); or public higher education facilities. Training topics must include information on the planning, design, financing, construction, improvement, operation, or maintenance of public educational facilities. Specific training topics could include training on the vulnerability assessment process, including on selecting a vulnerability assessment tool, evaluating educational

facility risks and hazards, setting priorities and reporting on identified vulnerabilities, developing written plans to address hazards, and identifying best practices in constructing and maintaining environmentally sound educational facilities using green building practices. Training will be conducted upon request or based on input from the Department or from public nursery, pre-kindergarten, and kindergarten-through-grade-12 schools; LEAs; or public higher education facilities using appropriate Clearinghouse staff or subcontractors. All training topics, materials, and requests for training must be approved in advance by the Department. Applicants must include funds in their budget request for travel, lodging, and per diem costs to administer the training programs at the host site.

5. *Technical Assistance.* The project funded under this competition must provide technical assistance to public nursery, pre-kindergarten, and kindergarten-through-grade-12 schools; LEAs; or public higher education facilities regarding issues related to the planning, design, financing, construction, improvement, operation, and maintenance of public educational facilities. The technical assistance may be provided in the form of electronic or telephone assistance when requested from these parties or by the Department.

Applicants must plan to provide specialized, on-site technical assistance to up to six public nursery, pre-kindergarten, and kindergarten-through-grade-12 schools; LEAs; or public higher education facilities. The technical assistance must consist of consultation regarding the planning, design, financing, construction, improvement, operation, or maintenance of public educational facilities. Specific technical assistance topics might include information related to assessing facilities and conducting vulnerability assessments; developing written plans to address identified hazards; and other safe school facility-related topics. On-site technical assistance visits will be conducted upon request or based on input from the Department or by public nursery, pre-kindergarten, and kindergarten-through-grade-12 schools; LEAs; or public higher education facilities using appropriate Clearinghouse staff or subcontractors. The Department must be informed in advance of all technical assistance visits. The Clearinghouse must include in its budget funding for travel, lodging, and per diem costs of its staff or subcontractors to conduct the on-site technical assistance visits.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities and other requirements. Section 437(d)(1) of GEPA, however, allows the Secretary to exempt from rulemaking requirements, regulations governing the first grant competition under a new or substantially revised program authority. This is the first competition for an educational facilities clearinghouse under section 5411 of the Elementary and Secondary Education Act of 1965, as amended and, therefore, qualifies for this exemption. In order to ensure timely grant awards, the Secretary has decided to forgo public comment on the absolute priority and requirements under section 437(d)(1) of GEPA. This absolute priority and requirements will apply to the FY 2010 grant competition and any subsequent year in which we make awards from the list of unfunded applicants from this competition.

Program Authority: 20 U.S.C. 7243–7243b, the Consolidated Appropriations Act of 2010, Public Law 111–117.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under *Exception to Electronic Submission Requirement*.

While completing your electronic application, you will be entering data online that will be saved into a database. You may not e-mail an electronic copy of a grant application to us.

Please note the following:

- You must complete the electronic submission of your grant application by 4:30 p.m., Washington, DC time, on the application deadline date. The e-Application system will not accept an application for this program after 4:30 p.m., Washington, DC time, on the application deadline date. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the application process.

unavailable between 8:00 p.m. on Sundays and 6:00 a.m. on Mondays, and between 7:00 p.m. on Wednesdays and 6:00 a.m. on Thursdays, Washington, DC time. Any modifications to these hours are posted on the e-Grants Web site.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

- You must submit all documents electronically, including all information you typically provide on the following forms: The Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications. application electronically, by mail, or by hand delivery. We will grant this extension if—

(1) You are a registered user of e-Application and you have initiated an electronic application for this competition; and

(b) E-Application is unavailable for any period of time between 3:30 p.m. and 4:30 p.m., Washington, DC time, on the application deadline date.

We must acknowledge and confirm these periods of unavailability before granting you an extension. Extensions referred to in this section apply only to the unavailability of e-Application.

Exception to Electronic Submission Requirement: You qualify for an exception to the electronic submission requirement, and may submit your application in paper format, if you are unable to submit an application through e-Application because—

- You do not have access to the Internet; or

and

- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevents you from using the Internet to submit your application. If your application is postmarked after the application deadline date, we will not consider your application.
