

5, 2009; distribution of the document for public comment is the final step for the ANSTF to adopt the Protocol.

This Protocol supplements, but does not replace, other existing Federal guidelines established to control activities with specific major classes of organisms. This document does not eliminate or in any way affect other applicable legal requirements, including the National Environmental Policy Act [NEPA, 1970 (42 U.S.C. 4321 *et seq.*)].

The Protocol encourages the incorporation of a Hazard Analysis and Critical Control Point (HACCP) approach for prevention planning within research activities. Information about the use of HACCP is available at <http://www.seagrant.umn.edu/ais/haccp>. A web site detailing the application of HACCP to natural resource pathways, plus a link to download a HACCP wizard that helps create HACCP plans, can be found at <http://www.haccp-nrm.org>.

### International Trade Administration

#### Initiation of Antidumping and Countervailing Duty Administrative Reviews and Deferral of Initiation of Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (“the Department”) has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with July anniversary dates. In accordance with the Department’s regulations, we are initiating those administrative reviews. The Department also received a request to defer the initiation of administrative review for one antidumping duty order.

**DATES:** *Effective Date:* August 31, 2010  
**FOR FURTHER INFORMATION CONTACT:** Sheila E. Forbes, Office of AD/CVD Operations, Customs Unit, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, *telephone:* (202) 482-4697.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Department has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various antidumping and countervailing duty orders and findings with July anniversary dates. The Department also received a request to defer for one year the initiation of the July 1, 2009 through June 30, 2010 administrative review of the antidumping duty order on Certain Pasta from Italy with respect to one exporter in accordance with 19 CFR 351.213(c). The Department received no objections to this request from any party cited in 19 CFR 351.213(c)(1)(ii).

##### Notice of No Sales

Under 19 CFR 351.213(d)(3), the Department may rescind a review where there are no exports, sales, or entries of subject merchandise during the respective period of review (“POR”) listed below. If a producer or exporter named in this initiation notice had no exports, sales, or entries during the POR, it should notify the Department

within 60 days of publication of this notice in the **Federal Register**. The Department will consider rescinding the review only if the producer or exporter, as appropriate, submits a properly filed and timely statement certifying that it had no exports, sales, or entries of subject merchandise during the POR. All submissions must be made in accordance with 19 CFR 351.303 and are subject to verification in accordance with section 782(i) of the Tariff Act of 1930, as amended (“the Act”). Six copies of the submission should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room 1870, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230. Further, in accordance with 19 CFR 351.303(f)(1)(i), a copy of each request must be served on every party on the Department’s service list.

#### Respondent Selection

In the event the Department limits the number of respondents for individual examination for administrative reviews, the Department intends to select respondents based on U.S. Customs and Border Protection (“CBP”) data for U.S. imports during the POR. We intend to release the CBP data under Administrative Protective Order (“APO”) to all parties having an APO within five days of publication of this initiation notice and to make our decision regarding respondent selection within 20 days of publication of this **Federal Register** notice. The Department invites comments regarding the CBP data and respondent selection within 10 calendar days of publication of this **Federal Register** notice.

#### Separate Rates

In proceedings involving non-market economy (“NME”) countries, the Department begins with a rebuttable presumption that all companies within the country are subject to government control and, thus, should be assigned a single antidumping duty deposit rate. It is the Department’s policy to assign all exporters of merchandise subject to an administrative review in an NME country this single rate unless an exporter can demonstrate that it is sufficiently independent so as to be entitled to a separate rate.

To establish whether a firm is sufficiently independent from government control of its export activities to be entitled to a separate rate, the Department analyzes each entity exporting the subject merchandise under a test arising from the *Final Determination of Sales at Less*

*Than Fair Value: Sparklers from the People's Republic of China*, 56 FR 20588 (May 6, 1991), as amplified by *Final Determination of Sales at Less Than Fair Value: Silicon Carbide from the People's Republic of China*, 59 FR 22585 (May 2, 1994). In accordance with the separate-rates criteria, the Department assigns separate rates to companies in NME cases only if respondents can demonstrate the absence of both *de jure* and *de facto* government control over export activities.

All firms listed below that wish to qualify for separate-rate status in the administrative reviews involving NME countries must complete, as appropriate, either a separate-rate application or certification, as described below. For these administrative reviews, in order to demonstrate separate-rate eligibility, the Department requires entities for whom a review was requested, that were assigned a separate rate in the most recent segment of this proceeding in which they participated, to certify that they continue to meet the criteria for obtaining a separate rate. The Separate Rate Certification form will be available on the Department's Web site at <http://www.trade.gov/ia> on the date of publication of this **Federal Register**. In responding to the certification, please

follow the "Instructions for Filing the Certification" in the Separate Rate Certification. Separate Rate Certifications are due to the Department no later than 60 calendar days of publication of this **Federal Register** notice. The deadline and requirement for submitting a Certification applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers who purchase and export subject merchandise to the United States.

Entities that currently do not have a separate rate from a completed segment of the proceeding<sup>1</sup> should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. In addition, companies that received a separate rate in a completed segment of the proceeding that have subsequently made changes, including, but not limited to, changes to corporate structure, acquisitions of new companies or facilities, or changes to their official company name,<sup>2</sup> should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. The Separate Rate Application will be available on the Department's Web site at <http://www.trade.gov/ia> on the date of publication of this **Federal Register**

notice. In responding to the Separate Rate Status Application, refer to the instructions contained in the application. Separate Rate Status Applications are due to the Department no later than 60 calendar days of publication of this **Federal Register** notice. The deadline and requirement for submitting a Separate Rate Status Application applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers that purchase and export subject merchandise to the United States.

For exporters and producers who submit a separate-rate status application or certification and subsequently are selected as mandatory respondents, these exporters and producers will no longer be eligible for separate-rate status unless they respond to all parts of the questionnaire as mandatory respondents.

#### Initiation of Reviews

In accordance with 19 CFR 351.221(c)(1)(i), we are initiating administrative reviews of the following antidumping and countervailing duty orders and findings. We intend to issue the final results of these reviews not later than July 31, 2011.

During any administrative review covering all or part of a period falling

<sup>5</sup> In the initiation notice that published on July 28, 2010 (75 FR 44224), we initiated a review of Tapered Roller Bearings ("TRB's") from the PRC (A-570-601) for the company Tianshui Hailin Import and Export Corporation. On November 14, 2002 (67 FR 68990), we published a revocation of the order with respect to TRB's exported by Tianshui Hailin Import and Export Corporation and produced by Hailin Bearing Factory. This is to clarify that this administrative review covers TRB's exported by Tianshui Hailin Import and Export Corporation that were produced by any manufacturer other than Hailin Bearing Factory.

between the first and second or third and fourth anniversary of the publication of an antidumping order under 19 CFR 351.211 or a determination under 19 CFR 351.218(f)(4) to continue an order or suspended investigation (after sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine, consistent with *FAG Italia v. United States*, 291 F.3d 806 (Fed. Cir.

2002), as appropriate, whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

For the first administrative review of any order, there will be no assessment of antidumping or countervailing duties on entries of subject merchandise entered, or withdrawn from warehouse, for consumption during the relevant provisional-measures "gap" period, of the order, if such a gap period is applicable to the POR.

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305. On January 22, 2008, the Department published *Antidumping and Countervailing Duty Proceedings: Documents Submission Procedures; APO Procedures*, 73 FR 3634 (January 22, 2008). Those procedures apply to administrative reviews included in this notice of initiation. Parties wishing to participate in any of these administrative reviews should ensure that they meet the requirements of these procedures (e.g., the filing of separate letters of appearance as discussed at 19 CFR 351.103(d)).

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: August 25, 2010.

### National Institute of Standards and Technology

[Docket Number 100325170-0222-01]

#### Notice of Intent To Terminate Selected National Voluntary Laboratory Accreditation Program (NVLAP) Services

**AGENCY:** National Institute of Standards and Technology (NIST), Commerce.

**ACTION:** Notice.

**SUMMARY:** The National Institute of Standards and Technology announces its intention to terminate the Commercial Products Testing

Laboratory Accreditation Program offered by NVLAP. The Commercial Products Testing Laboratory Accreditation Program includes the following areas of testing: paints and related coatings, paper and related products, building seals and sealants, plastics, plumbing, roofing, and mattresses.

**DATES:** The Commercial Products Testing Laboratory Accreditation Program will be terminated effective September 30, 2010.

**ADDRESSES:** Chief, National Voluntary Laboratory Accreditation Program, National Institute of Standards and Technology, 100 Bureau Drive, Stop 2140, Gaithersburg, MD 20899-2140; *e-mail to:* [nvlap@nist.gov](mailto:nvlap@nist.gov).

**FOR FURTHER INFORMATION CONTACT:** Sally Bruce, Chief, National Voluntary Laboratory Accreditation Program, (301) 975-4016; *e-mail:* [nvlap@nist.gov](mailto:nvlap@nist.gov).

**SUPPLEMENTARY INFORMATION:** The National Institute of Standards and Technology administers the National Voluntary Laboratory Accreditation Program (NVLAP) under regulations found in Part 285 of Title 15 of the Code of Federal Regulations. NVLAP provides an unbiased third-party evaluation and recognition of laboratory performance, as well as expert technical assistance to upgrade that performance, by accrediting calibration and testing laboratories found competent to perform specific calibrations or tests.

NVLAP is comprised of a set of Laboratory Accreditation Programs (LAPs) that are established on the basis of requests and demonstrated need. Each LAP includes specific test and/or calibration standards and related methods and protocols assembled to satisfy the unique needs for accreditation in the field of testing or calibration.

Under the NVLAP Procedures found at 15 CFR part 285, the Chief of NVLAP may terminate a specific Laboratory Accreditation Program (LAP) when he/she determines that a need no longer exists to accredit laboratories for the services covered under the scope of the LAP. Pursuant to 15 CFR part 285, the Chief of NVLAP has determined that a need no longer exists to accredit laboratories for the services covered under the Commercial Products Testing LAP and that the Commercial Products Testing LAP will be terminated.

The Commercial Products Testing LAP includes the following areas of testing: paints and related coatings, paper and related products, building seals and sealants, plastics, plumbing, roofing, and mattresses. The purpose of this program is to supply unbiased

third-party evaluation and attestation of testing competence of manufacturer and independent testing laboratories in the given fields.

A review of the Commercial Products Testing LAP revealed that there are four (4) laboratories enrolled in the plumbing area. Two of the plumbing laboratories are also accredited for plastic and paint testing in support of plumbing testing. Three of the four plumbing laboratories carry redundant accreditation by the International Accreditation Service (IAS), an accreditation body recognized by the International Laboratory Accreditation Cooperation (ILAC), for plumbing testing, and for plastic and paint testing for the two laboratories also accredited in those fields. Terminating the Commercial Products Testing LAP will allow those three laboratories to eliminate the duplicate accreditations, saving each between \$4,000 and \$8,000 per year in fees. All other areas of testing within the Commercial Products Testing LAP are covered by nongovernmental ILAC-recognized accrediting bodies within the United States.

As a result of this review, the Chief of NVLAP has decided to terminate this LAP because there is no longer a need to accredit laboratories for the services covered under the scope of this LAP.

Effective on September 30, 2010, NVLAP will no longer grant or renew accreditations under the terminated program. A laboratory currently accredited under the LAP will remain accredited until the expiration of its current accreditation unless earlier termination is requested by the laboratory.

*E.O. 12866:* This action has been determined to be not significant under Executive Order 12866.

Dated: August 25, 2010.
