I. Introduction

On August 13, 2010, the Postal Service filed a request pursuant to 39 U.S.C. 3642 and 39 CFR 3020.30 *et seq.*, to add Inbound Competitive Multi-Service Agreements with Foreign Postal Operators (Multi-Service Agreements) to the competitive product list.¹ The Postal Service asserts that Multi-Service Agreements are a competitive product "not of general applicability" within the meaning of 39 U.S.C. 3632(b)(3). This Request has been assigned Docket No. MC2010-34.

The Postal Service contemporaneously gave notice, pursuant to 39 U.S.C. 3632(b)(3) and 39 CFR 3015.5, that the Governors have established prices and classifications not of general applicability for Inbound Competitive Multi-Service Agreements with Foreign Postal Operators in Governors' Decision No. 10-3.² *Id.* at 1-2. Additionally, the Postal Service filed the first agreement (TNT Agreement) with Koninklijke TNT Post BV and TNT Post Pakketservice Benelux BV, collectively "TNT Post". The TNT Agreement governs rates for Inbound Air Parcel Post (Air CP), Surface Parcel Post (Surface CP) and Express Mail Service (EMS), along with ancillary

services. *Id.* at 4. The TNT Agreement has been assigned Docket No. CP2010-95.

In support of its Request, the Postal Service filed five attachments as follows:

1. Attachment 1—Statement of Supporting Justification required by 39 CFR 3020.32;
2. Attachment 2—a redacted copy of Governors' Decision No. 10-3, which establishes prices and classifications for Inbound Competitive Multi-Service Agreements with Foreign Postal Operators, proposed descriptive Mail Classification Change (MCS) language, pricing formulas and certification of prices, and certification of the Governors' vote;
3. Attachment 3—a redacted copy of the TNT Agreement;
4. Attachment 4—a certified statement required by 39 CFR 3015.5(c)(2); and
5. Attachment 5—an application for non-public treatment of materials to maintain redacted portions of the agreement and supporting documents under seal.

The Postal Service states that the Multi-Service Agreements create rates for competitive inbound International Mail exchanged between postal operators. This would include traditional mail services such as Air CP and EMS, as well as ancillary services. *Id.* at 3.

The Postal Service asserts that this product will permit the Postal Service to create pricing for any combination of products in an equivalent agreement that meets the pricing criteria of the Governors' Decision. *Id.* at 3.

The Postal Service states that the classification language also covers nontraditional services exchanged among postal operators, *e.g.*, inbound direct entry, and other services offered by a foreign postal operation to customers under terms other than those not commonly used, but which are processed and delivered similar to an existing service within the Postal Services network. *Id.* at 3-4. The Postal Service indicates that the proposed classification language would permit the establishment of unique operating terms and conditions that modify the default arrangements of the UPU. *Id.* at 4.

Related agreement. The Postal Service asserts that the terms of the TNT Agreement conform to the proposed MCS language. *Id.* The agreement, which is scheduled to commence October 1, 2010, covers two one-year periods with different rates for the second period. *Id.* The Postal Service also identifies various terms included on the TNT Agreement, *e.g.*, performance metrics and electronic

settlement and payment processes and incentives for optional activities. *Id.* at 4-5.

In the Statement of Supporting Justification, Lea Emerson, Executive Director, International Postal Affairs, asserts that the service to be provided under the contract will cover its attributable costs, make a positive contribution to institutional costs, and increase contribution toward the requisite 5.5 percent of the Postal Service's total institutional costs. *Id.*, Attachment 1. Additionally, the Postal Service contends that its filings demonstrate compliance with 39 U.S.C. 3642(b). Ms. Emerson also states that Multi-Service Agreements are consistent with the Commission's finding in Order No. 43 that Surface CP at Non-UPU Rates, EMS and Air CP be considered competitive products. *Id.*

The Statement of Supporting Justification addresses the requirements of 39 U.S.C. 3642 and 39 CFR 3020.30 *et seq.*, *e.g.*, that the product is properly classified as competitive and is not subject to the Private Express Statutes. *Id.* at 5-6, Attachment 1. The Postal Service asserts that all requisite requirements have been satisfied. *Id.* at 7.

Joseph Moeller, Manager, Regulatory Reporting and Cost Analysis, Finance Department, certifies that the TNT Agreement complies with 39 U.S.C. 3633(a). *Id.*, Attachment 2. He asserts that the prices for the TNT Agreement "should cover its attributable costs and preclude the subsidization of competitive products by market dominant products." *Id.* The Postal Service contends that the proposed classification would enhance its pricing flexibility and ease administrative burdens by enabling it to negotiate multiple inbound competitive services at once rather than filing separate agreements for regulatory review. *Id.* at 7.

The Postal Service requests that Inbound Competitive Multi-Service Agreements with Foreign Postal Operators be added as a new product to the competitive product list. *Id.* at 8. It proposes that additional functionally equivalent contracts be added to the competitive product list as price categories under the Inbound Competitive Multi-Service Agreements with Foreign Postal Operators listing. *Id.* at 6.

II. Notice of Filings
