

them to the issues and concerns. Highlights follow.

#### *Alternative A (Current Management)*

This alternative is the “No Action” alternative required by NEPA. Alternative A (current management) satisfies the NEPA requirement of a “No Action” alternative, which we define as “continuing current management.” It describes our existing management priorities and activities, and serves as a baseline for comparing and contrasting Alternatives B and C. It would maintain our present levels of approved refuge staffing and the biological and visitor programs now in place. We would continue to focus efforts on providing native tidal marsh habitat for Federal trust resources, in particular, for migrating and nesting wading birds, wintering habitats for marshbirds, waterfowl, shorebirds, and other wildlife. We would continue to actively manage tidal marsh and grassland habitats and would maintain dikes and water levels on impoundments that have water control structures.

#### *Alternative B (Focus on Species of Conservation Concern)*

This alternative is the Service-preferred alternative. It combines the actions we believe would most effectively achieve refuge purposes, vision, and goals, and respond to public issues. This alternative emphasizes management of specific refuge habitats to support Federal trust resources and species of conservation concern in the area. In particular, the priority would be to protect and restore the refuge’s native tidal marsh habitat to benefit Pea Patch Island colonial-breeding wading birds, as well as secretive marshbirds, migratory waterfowl, shorebirds, and other birds of conservation concern. A secondary consideration would be to manage a diversity of other refuge wetland and upland habitats to benefit breeding and migrating songbirds, waterfowl, and raptors, as well as amphibians, reptiles, and mammals of conservation concern. Our Visitor Services program would be enhanced to provide more opportunities for a wide variety of compatible wildlife-dependent activities. In 2005, the Northeast Regional Visitor Services Review Team identified visitor programs of emphasis for each refuge. The programs identified for this refuge are interpretation and wildlife observation and photography. The determination of programs for Supawna Meadows NWR was based on careful consideration of our natural resources, existing staff, operational funds, existing and potential facilities, and which

programs we would be most effective in providing “quality” opportunities for visitors.

#### *Alternative C (Cease Management and Close Refuge to Public Uses)*

Under this alternative, we would close Supawna Meadows NWR to all public uses and cease all habitat management activities. There would be no funding allocated for any projects at the refuge. This alternative would only partially achieve the refuge purposes, vision, and goals, and respond to public issues, however, budgetary constraints make it a reasonable alternative to consider. Under this alternative, the public would be notified of the closure, and appropriate signage would be placed on all buildings and along the refuge boundary. Cape May NWR staff would conduct semiannual site inspections requiring about 40 staff hours per year. We would continue to meet our trust obligations under the Endangered Species Act, which requires us to take measures to benefit the recovery of any federally listed species that might be found on the refuge in the future. We would also continue to comply with the National Historic Preservation Act by maintaining Finns Point Rear Range Light.

#### **Public Meetings**

We will give the public opportunities to provide input at public meetings in Pennsville, New Jersey, near the refuge. You can obtain the schedule from the refuge manager or natural resource planner, or visit the planning Web site (*see ADDRESSES or FOR FURTHER INFORMATION CONTACT*, above). You may also submit comments at any time during the public comment period, by any means shown in the **ADDRESSES** section.

#### **Public Availability of Comments**

Before including your address, phone number, electronic mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: August 20, 2010.
