SUPPLEMENTARY INFORMATION:

Background: The Clean Air Scientific Advisory Committee (CASAC) was established under section 109(d)(2) of the Clean Air Act (CAA or Act) (42 U.S.C. 7409) as an independent scientific advisory committee. CASAC provides advice, information and recommendations on the scientific and technical aspects of air quality criteria and national ambient air quality standards (NAAQS) under sections 108 and 109 of the Act. The CASAC is a Federal advisory committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App 2. The Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Section 109(d)(1) of the CAA requires that the Agency periodically review and revise, as appropriate, the air quality criteria and the National Ambient Air Quality Standard (NAAQS) for the six "criteria" air pollutants, including particulate matter (PM). EPA conducts scientific and policy assessments related to both primary (health-based) and secondary (welfare-based) standards for each of these pollutants. As part of that process, the CASAC Particulate Matter Review Panel reviews a series of EPA's assessments that provide the basis for EPA rulemaking.

The purpose of the March 10–11, 2010 meeting is to review second drafts of the *Particulate Matter Urban-Focused Visibility Assessment* (January 2010) and *Quantitative Health Risk Assessment for Particulate Matter* (February 2010). In addition the March 10–11, 2010 meeting will also include a presentation on a first draft of EPA's *Policy Assessment for the Review of the Particulate Matter National Ambient Air Quality Standards (Policy Assessment, February 2010)*. The *Policy Assessment* will serve to "bridge the gap" between the scientific information and the judgments required of the Administrator in determining whether it is appropriate to retain or revise the standards. The first draft *Policy Assessment* builds upon the key scientific and technical information contained in the Agency's *Integrated Science Assessment for Particulate Matter* (Final Report) (ISA, December 2009) as well as the two draft assessment documents titled *Particulate Matter Urban-Focused Visibility Assessment: Second External Review Draft* (January 2010) and *Quantitative Health Risk Assessment for Particulate*

Matter: Second External Review Draft (February 2010). CASAC's deliberations on the first draft *Policy Assessment* will take place during the teleconference scheduled for April 8, 2010 and if more time is needed, on April 9, 2010.

Background information about the formation of the CASAC Particulate Matter Review Panel was published in the **Federal Register** on March 8, 2007 (72 FR 10527–10528). The Panel previously held a public teleconference on November 30, 2007 (announced in 72 FR 63177–63178) to provide consultative advice on EPA's draft *Integrated Review Plan for the National Ambient Air Quality Standards for Particulate Matter* (October 2007) the first document in this review of the PM NAAQS. On April 1–2, 2009, CASAC reviewed the *Integrated Science Assessment for Particulate Matter—First External Review Draft* (December 2008), and provided consultative advice on *Particulate Matter National Ambient Air Quality Standards: Scope and Methods Plan for Health Risk and Exposure Assessment* (February 2009) and *Particulate Matter National Ambient Air Quality Standards: Scope and Methods Plan for Urban Visibility Impact Assessment* (February 2009). The April 1–2, 2009 meeting was announced February 19, 2009 in 74 FR 7688–7689. As announced in 74 FR 46586–46587, on October 5–6, 2009, CASAC reviewed the *Integrated Science Assessment for Particulate Matter—Second External Review Draft* (July 2009) and *Particulate Matter Urban Focused Visibility Assessment-External Review Draft* (September 2009) and *Risk Assessment to Support the Review of the PM Primary National Ambient Air Quality Standards-External Review Draft* (September 2009).

Stakeholder Meeting Regarding Revisions to the Unregulated Contaminant Monitoring Regulation

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Safe Drinking Water Act (SDWA) requires the Environmental Protection Agency (EPA) to promulgate regulations establishing criteria for a monitoring program for unregulated contaminants. Monitoring varies based on system size, source water, and contaminants likely to be found. SDWA also specifies that for systems serving 10,000 persons or fewer, only a representative sample of systems must monitor. Per SDWA, EPA is required to issue, every five years, a list of not more than 30 unregulated contaminants to be monitored by public water systems. The first list of unregulated contaminants was published on September 17, 1999, and the second list on January 4, 2007. The third list is scheduled to be proposed by November 2010.

The purpose of this notice is to announce a public stakeholder meeting to present information to stakeholders concerning the status of the Agency's efforts in the areas of analyte selection, analytical methods, sampling design, determination of minimum reporting levels, and other possible revisions to the current Unregulated Contaminant Monitoring Regulation.

DATES: The meeting will be held on April 7, 2010, from 9 a.m. to 5 p.m., Eastern Daylight Saving Time.

ADDRESSES: The public meeting will be held at the Crystal City Marriott at Reagan National Airport, in the Salon D

Room, at 1999 Jefferson Davis Highway, Arlington, VA 22202. The hotel is located near the Ronald Reagan Washington National Airport, and has access to the Crystal City Station on the Blue and Yellow Lines of the Washington Metrorail System (Metro). The Marriott's telephone number is (703) 413–5500.
