

use through the application of heat, steam and/or chemicals.

Also excluded from the scope is activated carbon cloth. Activated carbon cloth is a woven textile fabric made of or containing activated carbon fibers. It is used in masks and filters and clothing of various types where a woven format is required.

Any activated carbon meeting the physical description of subject merchandise provided above that is not expressly excluded from the scope is included within this scope. The products subject to the order are currently classifiable under the Harmonized Tariff Schedule of the United States ("HTSUS") subheading 3802.10.00. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Rescission of Changed Circumstances Review

The Department initiated this changed circumstance review based on the same issue raised by Hagen in its scope ruling request. As the Department issued its final scope determination on December 9, 2009, that certain fish tank filter products imported by Hagen, that contain no more than 500 grams of activated carbon or a combination of activated carbon and zeolite, are outside the scope of the antidumping order on certain activated carbon from the PRC, the sole issue in this CCR is moot, as it has been resolved in the parallel scope proceeding. Accordingly, the Department is now rescinding this CCR. Hagen's request that its products are outside the scope of the *Order* and Petitioners' comments supporting that request are fully detailed in the Department's scope determination. See Final Scope Ruling.

This notice serves as a reminder to parties subject to administrative protective orders ("APOs") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which may be subject to sanction.

This notice is issued and published in accordance with sections 751(b)(1) and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.216.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Abstract: The Department of Education receives funding for the Grants to States for Workplace and Community Transition Training for Incarcerated Individuals Program (Title VIII, Part D of the Higher Education Amendments of 1998, as amended). The most recent amendment passed via Public Law 110-315 requires State Correctional Education Agencies to submit a proposal in order to be eligible. The law also requires that appropriated funds be allotted to each State in an amount that bears the same relationship to the total number of eligible students in each State. Therefore, States must submit data concerning the number of eligible students under the Program, so that the Department can run the State allocation formula. State Correctional Education Agencies (SCEA) are required to conduct an evaluation and to annually report to the Secretary and the Attorney General on the results of the evaluation.
