

DEPARTMENT OF COMMERCE**Submission for OMB Review;
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration (ITA).

Title: Information for Self-Certification under FAQ 6 of the United States—European Union Safe Harbor Privacy Framework.

OMB Control Number: 0625–0239.

Form Number(s): ITA–4149.

Type of Request: Regular submission (extension of a currently approved information collection).

Burden Hours: 350.

Number of Respondents: 500.

Average Hours per Response: 20–40 minutes.

Needs and Uses: In response to the European-Union Directive on Data Protection that restricts transfers of personal information from Europe to countries whose privacy practices are not deemed “adequate,” the U.S. Department of Commerce has developed a “Safe Harbor” framework that will allow U.S. organizations to satisfy the European Directive’s requirements and ensure that personal data flows to the United States are not interrupted. The Safe Harbor framework bridges the differences between the European Union (EU) and U.S. approaches to privacy protection. The complete set of Safe Harbor documents and additional guidance materials may be found at <http://export.gov/safeharbor>. As of December 10, 2010, 2,415 U.S. organizations have been placed on the Safe Harbor List. Organizations that have signed up to this list are deemed “adequate” under the Directive and do not have to provide further documentation to European officials. This list will be used by EU organizations to determine whether further information and contracts will be needed for a U.S. organization to receive personally identifiable information. This list is necessary to make the Safe Harbor accord operational, and was a key demand of the Europeans in agreeing that the Principles were providing “adequate” privacy protection.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent’s Obligation: Voluntary.

OMB Desk Officer: Wendy Liberante, (202) 395–3647.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482–0266, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

SUPPLEMENTARY INFORMATION:**I. Abstract**

The Census Bureau plans to request a three-year extension of a currently approved collection of the Form C–411, Survey of Building and Zoning Permit Systems. The Census Bureau produces statistics used to monitor activity in the large and dynamic construction industry. These statistics help state and local governments and the Federal Government, as well as private industry, to analyze this important sector of the economy. The accuracy of the Census Bureau statistics regarding the amount of construction authorized depends on data supplied by building and zoning officials throughout the country.

The Census Bureau uses the Survey of Building and Zoning Permit Systems to obtain information from state and local building permit officials needed for updating the universe of permit-issuing places. The questions pertain to the legal requirements for issuing building or zoning permits in the local jurisdictions. Information is obtained on such items as geographic coverage and types of construction for which permits are issued.

The universe of permit-issuing places is the sampling frame for the Building Permits Survey (BPS) and the Survey of Construction (SOC). These two sample surveys provide widely used measures of construction activity, including the economic indicators Housing Units Authorized by Building Permits and Housing Starts.

II. Method of Collection

The form is sent to a jurisdiction when the Census Bureau has reason to believe that a new permit system has been established or an existing one has changed, based on information from a variety of sources including survey respondents, regional councils and the Census Bureau’s Geography Division which keeps abreast of changes in corporate status. Responses typically approach 85 percent.
