

Potential Commercial Applications

- Therapeutic potential for treating general and drug-resistant bacterial infections in clinical and veterinary populations.

- Antiseptics in hospital settings.

Competitive Advantages

- Effective for commonly occurring drug-resistant infections MRSA and VRE.

- Broad spectrum of efficacy because mechanism of action is against the bacterial protein FtsZ, which has similar structure in all bacteria.

- Potential for additive efficacy when combined with other antibiotics due to distinct mechanism of action.

- Other drugs with similar structure and antibacterial properties can be synthesized using the chemical structure template shown above.

Development Stage

- Early-stage.
- In vitro data available.

BILLING CODE 4140-01-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5603-C-11]

Notice of Submission of Proposed Information Collection to OMB; Local Appeals to Single-Family Mortgage Limits

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice; correction.

SUMMARY: On February 14, 2012, at 77 FR 8276, HUD published a information collection notice.

Correction

The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

Any interested party may submit a request for the mortgage limits to be increased in a particular area if they believe that the present limit does not accurately reflect the higher sales prices in that area. Any request for an increase must be accompanied by sufficient housing sales price data to justify higher limits. Typically, this data includes housing sales data extracted from multiple listing services (MLS) that includes all or nearly all one-family and condominium sales in the area for a specified period of time, deleting all non-arms length sales and sales involving two or more family units. These requests are usually submitted by housing industry groups, such as homebuilders, realtors, and mortgage lenders. Most often, the housing sales
