

able to take advantage of U.S. Embassy rates for hotel rooms.

Conditions For Participation

Targeted mission participants are U.S. companies providing smart grid equipment, technology and services that have an interest in learning more about the UK and European markets. Target sectors holding high potential for U.S. exporters include: Smart meters and advanced metering infrastructure; communication and data management software and services; grid optimization technologies; demand response and control systems; cyber security software and services; transmission and distribution equipment; automation technologies; and consumer engagement platforms and services.

Selection Criteria for Participation

The following criteria will be evaluated in selecting participants:

- Relevance of the company's business to the mission goals;
- Market potential for business in the UK and European markets;
- Provision of adequate information on the company's products and/or services, and communication of the company's primary objectives; and
- Timeliness of the company's completed application and participation agreement signed by a company officer.

Diversity of company size and location may also be considered during the review process. Referrals from political organizations and any documents containing references to partisan political activities (including political contributions) will be removed from an applicant's submission and not considered during the selection process.

Selection Timeline

Mission recruitment will be conducted in an open and public manner, including publication in the **Federal Register**, posting on the Commerce Department trade mission calendar (<http://export.gov/trademissions>) and other Internet Web sites, press releases to general and trade media, direct mail, notices by industry trade associations and other multiplier groups, and publicity at industry meetings, symposia, conferences, and trade shows. Recruitment for the mission will begin immediately and conclude no later than August 17, 2012. The U.S. Department of Commerce will review applications and make selection decisions on a rolling basis beginning in February, 2012. Applications received after August 17, 2012 will be considered only if space and scheduling constraints permit.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Pacific Islands Region Coral Reef Ecosystems Permit Form

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before April 30, 2012.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Walter Ikehara, (808) 944-2275 or Walter.Ikehara@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection.

National Marine Fisheries Service (NMFS) requires, as codified under 50 CFR part 665, any person, (1) fishing for, taking, retaining, or using a vessel to fish for Western Pacific coral reef ecosystem management unit species in the designated low-use Marine Protected Areas; (2) fishing for any of these species using gear not specifically allowed in the regulations; or (3) fishing

for, taking, or retaining any Potentially Harvested Coral Reef Taxa in the coral reef ecosystem regulatory area, to obtain and carry a permit. A receiving vessel must also have a transshipment permit for at-sea transshipment of coral reef ecosystem management unit species. The permit application form provides basic information about the permit applicant, vessel, fishing gear and method, target species, projected fishing effort, etc., for use by NMFS and the Western Pacific Fishery Management Council in determining eligibility for permit issuance. The information is important for understanding the nature of the fishery and provides a link to participants. It also aids in the enforcement of Fishery Ecosystem Plan measures.

II. Method of Collection

Information is submitted to NMFS, in the form of paper permit application forms.

III. Data

OMB Control Number: 0648-0463.

Form Number: None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit organizations and individuals or households.

Estimated Number of Respondents: 12.

Estimated Time Per Response: 2 hours.

Estimated Total Annual Burden Hours: 30.

Estimated Total Annual Cost to Public: \$100 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: February 24, 2012.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection.

Native Americans may conduct certain aboriginal subsistence whaling in accordance with the provisions of the International Whaling Commission (IWC). In order to respond to obligations under the International Convention for the Regulation of Whaling, and the IWC, captains participating in these operations must submit certain information to the relevant Native American whaling organization about strikes on and catch of whales. Anyone retrieving a dead whale is also required to report. Captains must place a distinctive permanent identification mark on any harpoon, lance, or explosive dart used, and must also provide information on the mark and

self-identification information. The relevant Native American whaling organization receives the reports, compiles them, and submits the information to NOAA.

The information is used to monitor the hunt and to ensure that quotas are not exceeded. The information is also provided to the IWC, which uses it to monitor compliance with its requirements.

II. Method of Collection

Reports may be made by phone or fax. Information on equipment marks must be made in writing. No form is used.

III. Data

OMB Control Number: 0648-0311.

Form Number: None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households; State, Local, or Tribal Governments.

Estimated Number of Respondents: 51.

Estimated Time Per Response: 30 minutes for reports on whales struck or on recovery of dead whales; 5 minutes for providing the relevant Native American whaling organization with information on the mark and self-identification information; 5 minutes for marking gear; and 5 hours for the relevant Native American whaling organization to consolidate and submit reports.

Estimated Total Annual Burden Hours: 45.

Estimated Total Annual Cost to Public: \$100 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
