SUPPLEMENTARY INFORMATION:

Background

On December 6, 2011, the Department of Commerce (the Department) published in the **Federal Register** the *Preliminary Results* of the first administrative review covering the antidumping duty order on diamond sawblades and parts thereof from the People's Republic of China for the period January 23, 2009, through October 31, 2010.¹ Subsequent to the

publication of the *Preliminary Results*, the Department extended the deadlines for submission of post-preliminary surrogate values, rebuttal comments and case briefs.² The final results of the review are currently due no later than April 4, 2012.

Extension of Time Limit for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to complete the final results of an administrative review within 120 days after the date on which the preliminary results are published. If it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to a maximum of 180 days after the date on which the preliminary results are published.

We determine that it is not practicable to complete the final results of this review within the original time limit because of the complexity of issues involving the analysis of surrogate value data on the record and because of the additional extensions we have granted, at the request of various parties, to review and submit post-preliminary surrogate value data, case briefs and rebuttal comments. Therefore, we are extending the time period for issuing the final results of this review by 40 days until May 14, 2012.

This notice is published in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: March 7, 2012.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Purified Carboxymethylcellulose From Finland and the Netherlands: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* March 13, 2012.

² See Letters from Minoo Hatten, Program Manager, Office 1, to All Interested Parties dated December 22, 2011, January 24, 2012, and February 2, 2012.

FOR FURTHER INFORMATION CONTACT:

Robert James or Angelica Mendoza, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-0649 or (202) 482-3019, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 26, 2011, the Department of Commerce (the Department) published in the **Federal Register** the initiation of administrative review of the antidumping duty orders on, *inter alia*, purified carboxymethylcellulose from Finland and the Netherlands covering the period July 1, 2010, through June 30, 2011. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 76 FR 53404 (August 26, 2011). The current deadline for the preliminary results of these reviews is April 1, 2012.

Extension of Time Limits for Preliminary Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires that the Department complete the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of 365 days after the last day of the anniversary month of an order for which a review is requested.

The Department finds it is not practicable to complete the preliminary results of these reviews within the original time frame because the Department requires additional time to gather and analyze the information submitted on the record. Thus, the Department finds it is not practicable to complete these reviews within the original time limit (*i.e.*, April 1, 2012). Accordingly, the Department is extending the time limit for completion of the preliminary results of these administrative reviews by 120 days (*i.e.*, until July 30, 2012), in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2). We intend to issue the final results no later than 120 days after publication of the preliminary results notice.

This extension is issued and published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: March 5, 2012.

Christian Marsh,

*Deputy Assistant Secretary for Antidumping
and Countervailing Duty Operations.*

Background

Section 9 of the Federal ESA prohibits
the take of fish or wildlife species listed
as endangered or threatened by either
the FWS or NMFS (16 U.S.C. 1538). The
ESA defines the term “take” as: “harass,
harm, pursue, hunt, shoot, wound, kill,
trap, capture, or collect, or to attempt to
engage in any such conduct” (16 U.S.C.
1532(19)). NMFS has defined “harm” as
an act which actually kills or injures
fish or wildlife, and such acts may
include “significant habitat
modification or degradation which
actually kills or injures fish or wildlife
by significantly impairing essential
behavioral patterns, including breeding,
spawning, rearing, migrating, feeding, or
sheltering” (50 CFR 222.102). Pursuant
to section 10(a)(1)(B) of the ESA (16
U.S.C. 1539(a)(1)(B)), NMFS may issue
ITPs authorizing the take of listed
species if, among other things, such
taking is incidental to, and not the
purpose of, otherwise lawful activities.

To receive an ITP under the ESA, an
applicant must prepare an HCP that
specifies the following: (1) the impact
which will likely result from the taking;
(2) steps the applicant will take to
minimize and mitigate the impacts; (3)
funding available to implement the
steps; (4) what alternative actions to the
taking the applicant considered and the
reasons why these alternatives were not
used; and (5) any other measures NMFS
may require as being necessary or
appropriate for purposes of the HCP (16
