SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. This current (sixth) request is to extend, with no modifications, use of the existing State Annual Long-Term Care Ombudsman Report (and Instructions) for use from FY 2012–2014. The current form and instructions are posted on the AoA Web site at: http://www.aoa.gov/AoARoot/AoA_Programs/Elder_Rights/Ombudsman/index.aspx. AoA estimates the burden of this collection of information as follows: Approximately one and one-half hour per respondent, with 52 State Agencies on Aging responding annually for a total of 78 hours.

Proposed Information Collection Activity; Comment Request

Title: Head Start Health Managers Descriptive Study.

OMB No.: New Collection.

Description

The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing a data collection activity that will provide descriptive data about the Head Start Health Component. The goals of the Head Start Health Manager Descriptive Study are (1) to describe the characteristics of Health Managers and related staff in Head Start (HS) and Early Head Start (EHS) programs; (2) to identify the current landscape of health programs and services being offered to children and families; (3) to determine how health initiatives are prioritized, implemented, and sustained; and (4) to identify the programmatic features and policy levers that exist to support health services including staffing, environment, and community collaboration. These objectives will be accomplished through an online survey of all HS/EHS Health Managers, including American Indian/Alaskan Native and Migrant and Seasonal Head Start grantees. The survey responses will be further informed by semi-structured interviews conducted with a subsample of Head Start Health Managers, teachers, and family service workers.

Respondents

The target respondents for this data collection are Head Start Health Managers at the grantee and delegate level; however data will also be collected from Head Start Directors, Teachers, and Family Service Workers.
