

I. National Technology Transfer and Advancement Act

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 ("NTTAA"), Public Law 104-113, 12(d) (15 U.S.C. 272), directs the EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus bodies. The NTTAA directs the EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards. This proposed action includes environmental monitoring and measurement as described in EPA's proposed SMMP. The EPA will not require the use of specific, prescribed analytic methods for monitoring and managing the designated Sites. The Agency plans to allow the use of any method, whether it constitutes a voluntary consensus standard or not, that meets the monitoring and measurement criteria discussed in the proposed SMMP. The EPA welcomes comments on this aspect of the proposed rulemaking and, specifically, invites the public to identify potentially-applicable voluntary consensus standards and to explain why such standards should be used in this proposed action.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low Income Populations

Executive Order 12898 (59 FR 7629) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States. The EPA determined that this proposed rule will not have disproportionately high and adverse human health or environmental effects on minority or low-income populations because it does not affect the level of protection provided to human health or the environment. The EPA has assessed the overall protectiveness of designating the

disposal Sites against the criteria established pursuant to the MPRSA to ensure that any adverse impact to the environment will be mitigated to the greatest extent practicable. We welcome comments on this proposed action related to this Executive Order.

SUPPLEMENTARY INFORMATION:

I. Background

DoD is proposing to revise the DFARS to support the use of automated contract writing systems. The clause at DFARS 252.212–7001, Contract Terms and Conditions Required to Implement Statutes or Executive Orders Applicable to Defense Acquisitions of Commercial Items, requires the contracting officer to “check a box” to identify the clauses that are applicable to each commercial item acquisition. This requirement is not compatible with most automated contract writing systems. Section 8002 of the Federal Acquisition Streamlining Act of 1994 (Pub. L. 103–355) requires that the regulations shall contain a list of contract clauses to be included in contracts for the acquisition of commercial end items. Each time a clause or clause alternate is added, DoD must consider whether the clause or clause alternate will be applicable to commercial items. The law does not require that this list be in the form of a clause, requiring clause dates for each applicable clause that must be revised every time a clause on the list is modified.

Furthermore, clause flowdown to commercial subcontracts is controlled by paragraph (c) of the clause 252.212–

7001 for commercial contracts under FAR part 12 and clause 252.244–7000, Subcontracts for Commercial Items and Commercial Components (DoD Contracts). These lists of clauses that require flowdown to commercial subcontracts likewise require update every time a clause on the list is modified.

II. Discussion and Analysis

DoD proposes the following changes to facilitate the use of automated contract writing systems and reduce the need for constant update of clause dates on multiple lists.

- Revise DFARS 212.301(f) to—
- Provide a single list of all fifty-eight provisions and clauses that currently apply to DoD solicitations and contracts for the acquisition of commercial items. Where any provision or clause is included to implement statutes or executive orders that are applicable to defense acquisitions of commercial items, the particular statute or Executive order is identified following the location of the prescription for each provision or clause. All provisions and clauses currently listed in DFARS 212.301(f) that are applicable to DoD solicitations and contracts for the acquisition of commercial items are retained in the revised list.
- Add DFARS provision 252.203–7005, Representation Relating to Compensation of Former DoD Officials. This provision’s application to the acquisition of commercial items was inadvertently omitted from case 2010–D020 when the final rule was published on November 18, 2011 (76 FR 71826).
- Add the two provisions currently contained in DFARS provision 252.212–7000, Offeror Representations and Certifications—Commercial Items.
- Add one FAR clause and thirty-one DFARS clauses (inclusive of alternates) currently contained in DFARS clause 252.212–7001, Contract Terms and Conditions Required to Implement Statutes or Executive Orders Applicable to Defense Acquisitions of Commercial Items.
- Add two DFARS provisions and two DFARS clauses in support of operations in Iraq or Afghanistan: provision 252.225–7022, Trade Agreements Certificate—Inclusion of Iraqi End Products; provision 252.225–7023, Preference for Products or Services from Iraq or Afghanistan; clause 252.225–7024, Requirement for Products or Services from Iraq or Afghanistan; and clause 252.225–7026, Acquisition Restricted to Products or Services from Iraq or Afghanistan. These provisions’ and clauses’ application to the acquisition of commercial items in support of operations in Iraq or Afghanistan was inadvertently omitted from case 2008–D002 when the final rule was published on April 8, 2010 (75 FR 18035).
- Add DFARS provision 252.225–7037, Evaluation of Offers for Air Circuit Breakers. This provision’s application to the acquisition of commercial items was inadvertently omitted from case 2002–D009 when the final rule was published in the **Federal Register** on March 31, 2003 (68 FR 15616), with an effective date of April 30, 2003. This provision is the companion to DFARS clause 252.225–7038, Restriction on Acquisition of Air Circuit Breakers, which is currently listed at paragraph (b)(17) of DFARS clause 252.212–7001.
- Revise clause 252.244–7000, Subcontracts for Commercial Items, to address the requirements regarding flow down of clauses to subcontracts of commercial items currently contained in paragraph (c) of clause 252.212–7001.
- Add DFARS clause 252.247–7025, Reflagging or Repair Work. This clause’s application to the acquisition of commercial items was inadvertently omitted from case 95–D712 for the commercial item implementation of the Federal Acquisition Streamlining Act of 1994 (FASA) when the final rule was published in the **Federal Register** on November 1, 2001 (66 FR 55151). All other clauses contained in DFARS 247.574 for ocean transportation by U.S.-flag vessels are listed as applicable to the defense acquisition of commercial items. Time charter acquisitions of vessels are commercial by their very nature. Further, 10 U.S.C. 2631 is not listed in DFARS 212.503(a) as a law not applicable to commercial contracts.
- Add provision and clause alternates that are applicable to commercial items that were previously inadvertently omitted from either DFARS 212.301(f) or DFARS clause 252.212–7001. Alternates were added as applicable to: Clause 252.219–7003, Small Business Subcontracting Plan; provision 252.225–7000, Buy American Act—Balance of Payments Program Certificate; provision 252.225–7020, Trade Agreements Certificate; provision 252.225–7035, Buy American Act—Free Trade Agreements—Balance of Payments Program Certificate; clause 252.227–7013, Rights in Technical Data—

Noncommercial Items; and clause 252.227–7015, Technical Data—Commercial Items.

—Delete DFARS provision 252.212–7000, Offeror Representations and Certifications—Commercial Items, and DFARS clause 252.212–7001, Contract Terms and Conditions Required to Implement Statutes or Executive Orders Applicable to Defense Acquisitions of Commercial Items. These deletions support the use of automated contract writing systems. Rather than requiring the contracting officers to “check the applicable clauses,” the automated contract writing systems can be used to automatically select the applicable clauses, saving the DoD time and scarce resources.

- Revise the prescriptions for each of the fifty-eight provisions and clauses, including alternates, in the revised list at DFARS 212.301(f) to indicate that they are specifically used in solicitations or contracts using FAR part 12 procedures for the acquisition of commercial items. The phrase “including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items” was used in lieu of a simpler phrase such as “including commercial item solicitations and contracts” as FAR 12.102(f) and (g) allow for the use of part 12 procedures for items that do not meet the definition of a commercial item defined at FAR 2.101.

- Make technical corrections to—

—The prescription at 232.908.

—Provide the location of prescriptions for provisions and clauses for the following: 252.203–7000, 252.211–7003, and 252.227–7037.

—Provide the locations of definitions missing in 247.571 and to provide the statutory citations missing in 247.572.

- Revise DFARS clause 252.244–7000, Subcontracts for Commercial Items and Commercial Components (DoD Contracts), to indicate that the contractor is not required to flow down the terms of any DFARS clause in subcontracts for commercial items unless so specified in the particular clause.

- Revise the last paragraph of the following clauses to state that the terms should flow down to subcontracts for commercial items: 252.211–7003; 252.225–7009; 252.225–7039; 252.227–7013; 252.227–7015; 252.227–7037; 252.236–7013; 252.237–7010; 252.237–7019; 252.246–7003; 252.247–7003; and 252.247–7023. The list of clauses requiring flow down of clause terms to subcontracts for commercial items was obtained from paragraph (c) of DFARS

clause 252.212–7001 and the list contained in the current DFARS clause 252.244–7000, with the addition of clause 252.211–7003, which was previously inadvertently omitted from both lists in case 2003–D081 when the final rule was published in the **Federal Register** on April 22, 2005 (70 FR 20831). However, clause 252.247–7024 did not require revision as it already contained language specifically requiring flow down to subcontracts for commercial items.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule aims to only change the appearance of how commercial provisions and clauses are presented within commercial acquisitions and there are no substantive changes. However, an initial regulatory flexibility analysis has been performed and is summarized as follows.

The purpose of this case is to support the use of automated contract writing systems. The clause at DFARS 252.212–7001 requires the contracting officer to “check a box” to identify the clauses that are applicable to each commercial item acquisition. Rather than requiring the contracting officers to “check the applicable clauses,” this proposed rule will allow automated contract writing systems to automatically select the applicable clauses, saving DoD time and scarce resources.

Potential offerors, including small businesses, may be affected by this rule only to the extent of seeing an unfamiliar format for clauses in commercial item acquisitions issued by

any DoD contracting activities that do not already currently deviate from the current DFARS requirement to “check a box.” There were 273,042 new contracts, agreements, and purchase orders awarded in Fiscal Year 2011 using FAR part 12 procedures for the acquisition of commercial items, and 71,950 of these actions (26.35%) were awarded to small businesses. It is unknown how many of these actions were awarded using a deviation from DFARS clause 252.212–7001. Nothing substantive will change in commercial acquisitions for potential offerors, and only the appearance of how applicable clauses are presented will be changed. This rule may result in potential offerors, including small businesses, expending more time to become familiar with and to understand the new clause format issued by any DoD contracting activities not presently operating under the existing deviation. The burden caused by this rule is expected to be minimal and will not be any greater on small businesses than it is on large businesses.

This rule does not add any new information collection requirements. The information collection burden required by DFARS provisions 252.225–7022, Trade Agreements Certificate—Inclusion of Iraqi End Products, and 252.225–7023, Preference for Products or Services from Iraq or Afghanistan, is already covered and approved under OMB Control Number 0704–0229 entitled Foreign Acquisitions. These provisions are variants of the other existing foreign acquisition reporting burdens already used and covered for commercial acquisitions (excluding commercial information technology).

The rule does not duplicate, overlap, or conflict with any other Federal rules.

No alternatives were identified that will accomplish the objectives of the rule.

DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2011–D056), in correspondence.

V. Paperwork Reduction Act

This rule does not contain any new information collection requirements that require the approval of the Office of Management and Budget (OMB) under the Paperwork Reduction Act (44 U.S.C chapter 35). The commercial clauses

currently approved for use in commercial contracts, which may impose any information collection burden on contractors or any subcontractors, are already covered by an existing approved OMB clearance. The burdens for all existing commercial clauses are not changed in any way by this proposed rule. Two DFARS provisions, with an associated information collection burden, are newly identified by this rule as being applicable to acquisitions of commercial items: 252.225–7022, Trade Agreements Certificate—Inclusion of Iraqi End Products; and 252.225–7023, Preference for Products or Services from Iraq of Afghanistan. The information collection burdens associated with these two DFARS provisions are already fully covered and cleared under OMB Control Number 0704–0229 entitled Foreign Acquisitions. These two provisions are variants of the other existing foreign acquisition provisions with reporting burdens already in use and covered for commercial acquisitions (excluding commercial information technology).
