

on AFVs and ATFs (in particular, the number of AFVs distributed by State, as well as the amount and location of the ATFs being consumed).

EIA publishes summary information from the Form EIA-886 database in an annual report on EIA's Web site (www.eia.gov). This report covers historical and projected supplies of AFVs, AFV usage by selected user groups, and estimates of total U.S. AFV counts and U.S. consumption of ATFs. These data provide baseline inputs for DOE's transportation sector energy models. They also provide the energy consumption measures for alternative transportation fuels in EIA's State Energy Data System. For example, EIA's National Energy Modeling System (NEMS) has a component model that forecasts transportation sector energy consumption and provides a framework for AFV policy and technology analysis. The data obtained from Form EIA-886 are used to improve the explanatory power of the NEMS Transportation Demand Model by allowing for greater detail in representing AFV types and characteristics;

(4b) *Proposed Changes to Information Collection*: EIA is proposing the addition of a Fuel Type/Engine Configuration Code to collect data on plug-in hybrid electric vehicles (PHEV). PHEVs are considered alternative fueled vehicles under the Energy Policy Act of 1992 definition of an alternative fueled vehicle because their primary fuel source is electricity; however, they differ from straight battery-powered electric vehicles because they use an electric battery as the primary energy source for propulsion for a limited range (15–40 miles) before switching to internal combustion propulsion. Currently, EIA collects data on electric battery-powered vehicles with the code “EVC BP”. EIA would like to add the code “EVC PH” to differentiate between PHEVs and AFVs that are powered exclusively by battery. EIA would continue to use the code “EVC BP” to identify vehicles that are powered exclusively by an electric battery.

Sections 2 and 3 of the Form EIA-886 collect data on the inventory and supply of alternative fueled vehicles. In Section 2, respondents are required to report the vehicle type, fuel type, engine configuration, application, quantity, miles traveled, and alternative fuel consumption for all AFVs in use. In Section 3, respondents are required to report the vehicle type, model, fuel type, engine configuration, and quantities made available and planned to be made available for all AFVs and advanced technology vehicles supplied. Both sections of the online reporting

system utilize drop-down menus to capture these data. The proposed code “EVC PH” would be added under the Electric Fuel Type Category. EIA does not expect this proposed addition of a vehicle classification code to Form EIA-886 to cause any increase in reporting burden.

(4c) *Change in Burden Hours*: Due to the decrease in the number of original equipment manufacturers and aftermarket vehicle converters in the marketplace, EIA estimates the survey frame of suppliers for the Form EIA-886 to decrease from 75 to 50 respondents, thus creating a decrease in overall respondent burden hours from 10,812 hours to 10,740 hours;

(5) *Annual Estimated Number of Total Responses*: 2,050;

(6) *Annual Estimated Number of Burden Hours*: 10,740;

AFV Suppliers (30 Original Equipment Manufacturers): 3 hours;

AFV Suppliers (20 Aftermarket Vehicle Converters): 2.5 hours;

AFV Users (100 complex fleets): 30 hours;

AFV Users (1,900 simple fleets): 4 hours;

(7) *Annual Estimated Reporting and Recordkeeping Cost Burden*: No additional costs beyond burden hours are anticipated from the proposed collection instrument revision.

Statutory Authority: The legal authority for this data collection effort is provided by the following provisions:

Section 13(b) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, (FEA Act), and codified at 15 U.S.C. § 772 (b), and

Section 503(b)(2) of the Energy Policy Act of 1992, Pub. L. 102-486 (EPACT92) codified at 42 U.S.C. 13253.

Issued in Washington, DC on June 21, 2012.

Renee Miller,

Acting Director, Office of Survey Development and Statistical Integration, U.S. Energy Information Administration.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER12–2071–000]

Verde Energy USA New York, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Verde Energy USA New York, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of

future issuances of securities and assumptions of liability, is July 11, 2012.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s).
