**SUPPLEMENTARY INFORMATION:**

Underground injection of fluids through wells is subject to the requirements of the Safe Drinking Water Act (SDWA) except where specifically excluded by the statute. In the 2005 Energy Policy Act (EP Act), Congress revised the SDWA definition of "underground injection" to specifically exclude from UIC regulation the "underground injection of fluids or propping agents (other than diesel fuels) pursuant to hydraulic fracturing operations related to oil, gas, or geothermal production activities" (SDWA Section 1421(d)(1)(B)). UIC regulations further provide that "[a]ny underground injection, except into a well authorized by rule or except as authorized by permit issued under the UIC program, is prohibited" (40 CFR 144.11). Thus, owners or operators who inject diesel fuels during hydraulic fracturing related to oil, gas, or geothermal operations must obtain a UIC permit before injection begins. While the EP Act references hydraulic fracturing related to geothermal activities, the draft guidance only covers hydraulic fracturing using diesel fuels related to oil and gas activities. Permits for oil and gas hydraulic fracturing using diesel fuels are available through the UIC Class II Program, the well class for oil and gas activities. Geothermal activities are not considered Class II.

The draft guidance provides information on SDWA UIC Class II

requirements and recommendations for permitting hydraulic fracturing injection wells where diesel fuels are used in fluids or propping agents. The draft guidance is intended for EPA permit writers and, as a result, is relevant where EPA directly implements the UIC Class II program. Others may find the information in this document useful also. Recommendations in the draft guidance may change based on the comments we receive on the draft publication and this will be reflected in the final guidance. The deadline for submitting comments is August 23, 2012.

Dated: July 3, 2012.

**ACTION:** Notice of workshop and request for comments.

**SUMMARY:** The Federal Trade Commission seeks public comments in connection with a workshop to examine competition and consumer protection issues in the pet medications industry.
