

characteristics; lifestyle (e.g., smoking); medicines and/or health conditions, and

foods. There are no costs to respondents other than their time.

ATSDR is requesting approval to conduct this information collection for

three years. The estimated annualized burden hours are 350.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Exposure Investigation Participants	Chemical Exposure Questions	700	1	30/60

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-7570 and send comments to Kimberly S. Lane, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Science to Practice: Developing and Testing a Marketing Strategy for Preventing Alcohol-related Problems in College Communities—NEW—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Each year, 1,700 college students die and more than 1.4 million are injured as a result of alcohol-related incidents. Additionally, about 25% of students report negative academic consequences due to alcohol (Engs *et al.*, 1996; Presley *et al.*, 1996a, 1996b; Wechsler *et al.*, 2002). Despite the enormous public health burden of college-age alcohol misuse, there have been few rigorous evaluations of environmental strategies to address alcohol misuse in college settings. Environmental strategies typically involve implementing and enforcing policies that change the environments that influence alcohol-related behavior and subsequent harm. Further, studies show that the typical lag time between identifying effective interventions and obtaining widespread adoption can stretch to well over a decade. Given the number of students harmed, there is an urgent need to develop more efficient and timely strategies for moving effective science to widespread practice. This project will address this exact issue by

systematically developing a marketing strategy for The Safer University Intervention, a comprehensive, community-based environmental prevention program with proven efficacy in reducing intoxication and alcohol-impaired driving among college students.

The CDC proposes an on-line information collection, that will take place during the spring semester of the 2012-2013 academic year, and will constitute a follow-up to a marketing effort targeting a national sample of 4-year colleges and universities. The follow-up comprises a survey of key informants from the sampled institutions and key leaders of the surrounding community.

The CDC will use the information gathered from the on-line survey to: (1) Develop and revise customized marketing and program materials targeting potential campus and community stakeholders; and (2) inform strategies for the marketing plan.

The respondents targeted for the on-line survey include: College Administrators and staff, campus and municipal police; as well as selected community leaders. A total of up to 160 Institutions of Higher Education (IHE) will be contacted with a maximum of 12 participants per IHE. A maximum of 1,800 respondents will be contacted by email and asked to forward the email and participate in the on-line survey. Questions of a sensitive nature will not be asked. The amount of time required for a respondent to take part in the survey is estimated to be less than 1 hour. We estimate a total maximum of 1,800 burden hours.

There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form	Number of respondents	Number of responses per respondent	Average burden per respondent (in hours)	Total burden hours
College Administrators and staff	On-line survey	600	1	1	600
Campus and Municipal Police officers	On-line survey	600	1	1	600

ESTIMATED ANNUALIZED BURDEN HOURS—Continued

Type of respondent	Form	Number of respondents	Number of responses per respondent	Average burden per respondent (in hours)	Total burden hours
Community Leaders	On-line survey	600	1	1	600
Total Burden Hours	1,800

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10389, CMS-855S and CMS-855(A,B,I,R)]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the Agency's function; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* New collection (request for a new OMB control number). *Title of Information Collection:* The Home and Community-Based Service (HCBS) Experience Survey. *Use:* This study is a one-time pilot field test involving individuals who receive HCBS from Medicaid programs. The field test will be conducted for the following purposes: (a) To assess survey

methodology—to determine how well a face-to-face survey and telephone survey performs with individuals who receive HCBS services; (b) Psychometric Analysis—to provide information for the revision and shortening of the survey based on the assessment of the reliability and construct validity of survey items and composites; and (c) Case mix adjustment analysis—to assess the variables that may be considered as case mix adjusters. These preliminary research activities are not required by regulation, and will not be used by CMS to regulate or sanction its customers. They will be entirely voluntary and the confidentiality of respondents and their responses will be preserved.

The information collected will be used to revise and test the survey instrument described in the Background section of the PRA package's Supporting Statement. Within the PRA package, Attachment B includes two versions of the survey (one modified for accessibility) and Attachment C has the introductory information. The end result will be an improvement in information collection instruments and in the quality of data collected, a reduction or minimization of respondent burden, increased agency efficiency, and improved responsiveness to the public. Following the field test, CMS will seek approval from the CAHPS consortium for the HCBS Experience Survey to be a new addition to the CAHPS® family of surveys. *Form Number:* CMS-10389 (OCN 0938-New). *Frequency:* Once. *Affected Public:* Individuals and Households. *Number of Respondents:* 18,000. *Total Annual Responses:* 18,000. *Total Annual Hours:* 9,000. (For policy questions regarding this collection contact Anita Yuskas at 410-786-0268. For all other issues call 410-786-1326.)

2. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Medicare Enrollment Application—Durable Medical Equipment, Prosthetics, Orthotics and Supplies (DMEPOS) Suppliers *Use:* The primary function of the CMS 855S Durable Medical

Equipment, Prosthetics, Orthotics and Supplies (DMEPOS) supplier enrollment application is to gather information from a supplier that tells us who it is, whether it meets certain qualifications to be a health care supplier, where it renders its services or supplies, the identity of the owners of the enrolling entity, and information necessary to establish the correct claims payment. The goal of evaluating and revising the CMS 855S DMEPOS supplier enrollment application is to simplify and clarify the information collection without jeopardizing our need to collect specific information. The majority of the revisions contained in this submission are non-substantive in nature such as spelling and formatting corrections; however, we also removed duplicate fields and obsolete questions and provided clarification and simplified the instructions for the completing the application. *Form Number:* CMS-855(S) (OCN: 0938-1056); *Frequency:* Yearly; *Affected Public:* Private Sector; Business or other for-profit and not-for-profit institutions; *Number of Respondents:* 43,350; *Total Annual Responses:* 43,350; *Total Annual Hours:* 113,550 (For policy questions regarding this contact Kim McPhillips at 410-786-5374. For all other issues call 410-786-1326.)

3. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Medicare Enrollment Application *Use:* The primary function of the CMS-855 Medicare enrollment application is to gather information from a provider or supplier that tells us who it is, whether it meets certain qualifications to be a health care provider or supplier, where it practices or renders its services, the identity of the owners of the enrolling entity, and other information necessary to establish correct claims payments. *Form Number:* CMS-855(A, B, I, R) (OCN: 0938-0685); *Frequency:* Yearly; *Affected Public:* Private Sector; Business or other for-profit and not-for-profit institutions; *Number of Respondents:* 440,450; *Total Annual Responses:* 440,450; *Total Annual Hours:* 856,395 (For policy questions regarding this
