The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E airspace extending upward from 700 feet above the surface for the Portsmouth, OH area.

Decommissioning of the Portsmouth NDB and cancellation of the NDB approach at Greater Portsmouth Regional Airport has made reconfiguration of the airspace necessary for the safety and management of IFR operations at the airport. Geographic coordinates are also updated to coincide with the FAA's aeronautical database.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when

promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, section 106, describes the authority of the FAA Administrator. New Mexico Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior. **ACTION:** Final rule; approval of amendment.

SUMMARY: We are approving an amendment to the New Mexico regulatory program (the "New Mexico program") under the Surface Mining Control and Reclamation Act of 1977 ("SMCRA" or "the Act"). New Mexico proposed non-substantive editorial revisions to its rules; substantive revisions and additions to rules concerning ownership and control; and substantive revisions to one rule about retention of sedimentation ponds. New Mexico revised its program to be consistent with the corresponding Federal regulations and to clarify ambiguities.

DATES: Effective Date: January 30, 2012. FOR FURTHER INFORMATION CONTACT: Kenneth Walker, Chief, Denver Field Division, Office of Surface Mining Reclamation and Enforcement, 1999 Broadway, Suite 3320, Denver, CO 80202, Telephone: (303) 293–5012. Internet: kwalker@osmre.gov.

SUPPLEMENTARY INFORMATION:

I. Background on the New Mexico Program
II. Submission of the Proposed Amendment
III. Office of Surface Mining Reclamation and
Enforcement's (OSM's) Findings

IV. Summary and Disposition of Comments V. OSM's Decision

VI. Procedural Determinations

I. Background on the New Mexico Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, "a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act." See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the New Mexico program on December 31, 1980. You can find background information on the New Mexico program, including the Secretary's findings, the disposition of comments, and conditions of approval in the December 31, 1980, Federal Register (45 FR 86459). You can also find later actions concerning New Mexico's program and program amendments at 30 CFR 931.10, 931.11, 931.13, 931.15, 931.16, and 931.30.

II. Submission of the Proposed Amendment

By letter dated September 1, 2010, New Mexico submitted an amendment to its program (SATS No. NM–048–FOR, Docket ID OSM–2010–0014–0007) under SMCRA (30 U.S.C. 1201 et seq.). New Mexico sent the amendment (1) in response to a September 3, 2009, OSM letter (Docket ID OSM–2010–0014–0003), concerning our ownership and control regulations, consistent with 30 CFR 732.17(c); and (2) to include proposed program changes made at its own initiative.

We announced receipt of the proposed amendment in the January 25, 2011, **Federal Register** (76 FR 4266). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the amendment's adequacy (Docket ID OSM–2010–0014–0001). We did not hold a public hearing or meeting because no one requested one. The public comment period ended on February 24, 2011. We received two Federal agency comment letters.

III. OSM's Findings

Following are the findings we made concerning the amendment under SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17. We are approving the amendment.

A. Minor Revisions to New Mexico's Rules

New Mexico proposed minor wording, editorial, punctuation, and grammatical changes to the following previously-approved rules.

19.8.11.1105.E NMAC (30 CFR 774.11(a)(1)), Review of Permit Applications;

19.8.11.1114 NMAC (30 CFR Part 773.17), Conformance of Permit;
