SUPPLEMENTARY INFORMATION: Pursuant to section 719(d)(1)(A) of the Dodd-Frank Act, the Commissions jointly must conduct a study to determine whether SVCs fall within the definition

of a swap.² Section 719(d)(1)(A) of the Dodd-Frank Act also requires the Commissions, in making such determination, jointly to consult with the Department of Labor, the Department of the Treasury, and the State entities that regulate the issuers of SVCs.

If the Commissions determine that SVCs fall within the definition of a swap, they jointly must determine if an exemption for SVCs from the definition of a swap is appropriate and in the public interest and issue regulations implementing such determination.³ Until the effective date of any such regulations, and notwithstanding any other provision of Title VII of the Dodd-Frank Act, the Title VII requirements will not apply to SVCs.⁴

On August 18, 2011, the Commissions requested comment regarding the study of SVCs required by Section 719(d) of the Dodd-Frank Act.⁵ Specifically, the request for comment included 29 questions and encouraged commenters to provide additional relevant information beyond that specified in the questions. The Commissions originally requested that comments be received by September 26, 2011.⁶

Given the regulatory developments since the initial request for comment was issued, specifically the adoption of final rules further defining the terms "swap" and "security-based swap,"⁷ the Commissions believe that it would be appropriate to solicit additional public comments on the study of SVCs required by Section 719(d) of the Dodd-Frank Act. Accordingly, the Commissions are reopening the public comment period for 30 days. The Commissions are reopening the comment period for the limited purpose of soliciting additional or updated comments regarding the impact of the final rules further defining the terms

² The term "swap" is defined in Commodity Exchange Act ("CEA") section 1a(47), 7 U.S.C. 1a(47). The term "security-based swap" is defined as an agreement, contract, or transaction that is a "swap" (without regard to the exclusion from that definition for security-based swaps) and that also has certain characteristics specified in the Dodd-Frank Act. See section 3(a)(68) of the Securities Exchange Act of 1934, 15 U.S.C. 78c(a)(68). Thus, a determination regarding whether SVCs fall within the definition of a swap also is relevant to a determination of whether SVCs fall within the definition of the term "security-based swap."

⁷ The Commission and the CFTC have approved the final rules further defining the terms "swap" and "security-based swap" but did not address therein whether SVCs are swaps or SBSs. See 77 FR 48208 (Aug. 13, 2012).

DATES: Comments must be submitted on or before December 3, 2012.

⁸ Question 4 in the request for comment related to the applicability and usefulness of the proposed rules further defining the terms "swap" and "security-based swap" ("Proposed Definitions"):

Are the proposed rules and the interpretive guidance set forth in the [Proposed Definitions] useful, appropriate, and sufficient for persons to consider when evaluating whether SVCs fall within the definition of a swap? If not, why not? Would SVCs satisfy the test for insurance provided in the [Proposed Definitions]? Why or why not? Is additional guidance necessary with regard to SVCs in this context? If so, what further guidance would be appropriate? Please explain.

SUPPLEMENTARY INFORMATION: *Title:* Disclosure and Retention of Certain Information Related to Cleared Swaps, Customer Collateral (OMB Control No. 3038-0091). This is a request for extension of a currently approved information collection. *Abstract:* Under the PRA, Federal agencies must obtain approval from the Office of Management

and Budget (OMB) for each collection of information they conduct or sponsor, "Collection of Information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 350(c)(2)(A) of the PRA, 44 Section 3506(c)(2)(A), requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB to approve. To comply with this requirement, the CFTC is publishing notice of the proposed collection of the information below.

With respect to the following collection of information, the CFTC invites comments on:

Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;

The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

Disclosure and Retention of Certain Information Related to Cleared Swaps, Customer Collateral. OMB Control No. 3038-0091—Extension

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on December 29, 2012 (73 FR 81916).

Burden statement: Section 22.2(g) requires each futures commission merchant (FCM) with Cleared Swaps Customer Accounts to compute daily the amount of Cleared Swaps Customer Collateral on deposit in Cleared Swaps Customer Accounts, the amount of such collateral required to be on deposit in such accounts and the amount of the FCM's residual financial interest in such

accounts. Section 22.5(a) requires an FCM or derivatives clearing organization (DCO) to obtain, from each depository with which it deposits cleared swaps customer funds, a letter acknowledging that such funds belong to the Cleared Swaps Customers of the FCM, and not the FCM itself or any other person. Section 22.11 requires each FCM that intermediates cleared swaps for customers on or subject to the rules of a DCO, whether directly as a clearing member or indirectly through a Collecting FCM, to provide the DCO or the Collecting FCM, as appropriate, with information sufficient to identify each customer of the FCM whose swaps are cleared by the FCM. Section 22.11 also requires the FCM, at least once daily, to provide the DCO or the Collecting FCM, as appropriate, with information sufficient to identify each customer's portfolio of rights and obligations arising out of cleared swaps intermediated by the FCM. Section 22.12 requires that each Collecting FCM and DCO, on a daily basis, calculate, based on information received pursuant to section 22.11 and on information generated and used in the ordinary course of business by the Collecting FCM or DCO, and record certain information about the amount of collateral required for each Cleared Swaps Customer and the sum of these amounts. Section 22.16 requires that each FCM who has Cleared Swaps Customers disclose to each of such customers the governing provisions, as established by DCO rules or customer agreements between collecting and depositing FCMs, relating to use of customer collateral, transfer, neutralization of the risks, or liquidation of cleared swaps in the event of a default by a Depositing FCM relating to a Cleared Swaps Customer Account.

The Commission estimates the average burden of this collection of information as follows:

The recordkeeping and disclosure requirements of sections 22.2(g) and 22.11 are expected to apply to approximately 100 entities on a daily basis. The recordkeeping requirement of section 22.5 is expected to apply to approximately 100 entities on an approximately annual basis. Based on experience with analogous recordkeeping and disclosure requirements for FCMs in futures transactions, the recordkeeping and disclosure required by section 22.2(g) is expected to require about 100 hours annually per entity, for a total burden of approximately 10,000 hours.

The disclosure required by section 22.11 involves information that FCMs that intermediate swaps generate and

use in the usual and customary ordinary course of their business. It is expected that the required disclosure will be performed using automated data systems that FCMs maintain and use in the usual and customary ordinary course of their business but that certain additional functionality will need to be added to these systems to perform the required disclosure. Because of the novel character of proposed section 22.11, it is not possible to make a precise estimate of the paperwork burden. The necessary modifications to, and maintenance of, systems may require a range of between 20 and 40 hours of work annually.

The recordkeeping required by section 22.12 involves information that Collecting FCMs and DCOs will receive pursuant to section 22.11 or that they generate and use in the usual and customary ordinary course of their business. It is expected that the required recordkeeping will be performed using automated data systems that Collecting FCMs and DCOs maintain and use in the usual and customary ordinary course of their business but that certain additional functionality will need to be added to these systems to perform the required disclosure. Because of the novel character of section 22.12, it is not possible to make a precise estimate of the paperwork burden. The necessary modifications to, and maintenance of, systems may require a range of between 20 and 40 hours of work annually. It is expected that the required recordkeeping will be performed by approximately 100 entities. The total annual burden for section 22.11 therefore is estimated at 2,000 to 4,000 hours.

Section 22.16 would apply to the same estimated 100 entities as sections 22.2(g), 22.5(a), and 22.11. The required disclosure would have to be made once each time a swaps customer begins to be cleared through a particular DCO or collecting FCM and each time a DCO or collecting FCM through which a customer's swaps are cleared changes it polices on the matters covered by the disclosure. It is expected that each disclosure would require about 0.2 hours of staff time by staff. It is uncertain what average number of swaps customers FCMs will have, and what average number of disclosures will be required for each customer annually. Assuming an average of 500 customers per FCM and two disclosures per customer per year, the estimated total annual burden would be 200 hours.

There are estimated to be no capital costs or operating and maintenance costs associated with this collection.

Dated September 26, 2012.

Sauntia S. Warfield,

Assistant Secretary of the Commission.
