49 CFR Part 385

[Docket No. FMCSA–2012–0262]

RIN 2126–AB55

Rescission of 10-Day Agency Discretionary Period in Assigning Unsatisfactory Safety Ratings

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Final rule.

SUMMARY: The FMCSA amends the Federal Motor Carrier Safety Regulations to remove the provision indicating that the Agency will consider a 10-day extension of the 45-day period after which passenger and hazardous materials carriers must cease operation after receiving a proposed unsatisfactory safety rating. The Agency previously discontinued this practice as a matter of policy and now amends the regulation to be consistent with the policy and the statutory language concerning this matter. Although FMCSA will continue to review requests for upgrades of proposed unsatisfactory safety rating for such carriers, the Agency will no longer grant extensions to the 45-day period.

SUPPLEMENTARY INFORMATION:

Background Information and Discussion of This Final Rule

Background Information

Statutory History

The Motor Carrier Safety Act of 1990 (1990 Act) (section 15 of the Sanitary Food Transportation Act of 1990, Pub. L. 101–500, 104 Stat. 1218) amended the Hazardous Materials Transportation Act to prohibit motor carriers that receive unsatisfactory safety ratings from operating CMVs, as defined in section 204(1) of the Motor Carrier Safety Act of 1984, to transport (1) quantities of hazardous materials for which vehicle placarding is required. Because of subsequent amendments to section 204(1)—codified at 49 U.S.C. 31132(1)—the prohibition also applies to CMVs transporting (2) 9–15 passengers, including the driver, for direct compensation, and (3) more than 15 passengers, including the driver, but not for direct compensation. The 1990 Act established a period of 45 days during which these motor carriers could take necessary corrective action to improve their safety rating to conditional or satisfactory. The statute required the FHWA (FMCSA's predecessor agency) to review a motor carrier's corrective actions within 30 days after the date of a safety rating upgrade request.

Section 4009 of the Transportation Equity Act for the 21st Century (Pub. L. 105–178, 112 Stat. 107, June 9, 1998), revised 49 U.S.C. 31144 to apply to all owners and operators of CMVs, not just those transporting passengers or hazardous materials in quantities requiring placarding. It expressly authorized the Agency to allow owners and operators not transporting passengers or hazardous materials in quantities requiring placarding up to an additional 60 days to continue to operate if they were making a good faith effort to become fit.

Current Regulations

The Agency's regulations in 49 CFR 385.17 outline the procedures that FMCSA and affected motor carriers¹ must follow to upgrade a safety rating based on corrective action. A motor carrier transporting passengers or

¹ Although 49 U.S.C. 31144 uses the term “owner or operator,” Agency regulations implementing the statute use the term “motor carrier.”
