Certain New Pneumatic Off-the-Road Tires From the People's Republic of China: Notice of Extension of Time Limit for the Final Results of the 2009–2010 Administrative Review of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* February 8, 2012.

FOR FURTHER INFORMATION CONTACT: Raquel Silva, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, telephone: (202) 482–6475.

SUPPLEMENTARY INFORMATION:

Background

On October 28, 2010, the Department of Commerce (“Department”) initiated the administrative review of the antidumping duty order on certain new pneumatic off-the-road tires (“off-the-road tires”) from the People's Republic of China (“PRC”) for the period, September 1, 2009, through August 31, 2010. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 75 FR 66349 (October 28, 2010). On October 7, 2011, the Department published its preliminary results of the administrative review of the antidumping order on off-the-road tires from the PRC. *See Certain New Pneumatic Off-the-Road Tires from the People's Republic of China: Preliminary Results of the 2009–2010 Antidumping Duty Administrative Review and Intent to Rescind, in Part*, 76 FR 62356 (October 7, 2011). The final results are currently due no later than, February 4, 2012.

Extension of Time Limit for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“the Act”),

requires the Department to issue the final results in an administrative review within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time period to a maximum of 180 days.

We determine that it is not practicable to complete the final results of this review within the current deadline because the Department continues to require additional time to analyze issues raised in recent surrogate value submissions, case briefs, and rebuttals. Therefore, in accordance with section 751(a)(3)(A) of the Act, we are extending the time limit for completion of the final results of this administrative review by 14 days, until February 18, 2012. However, because February 18, 2012, falls on a Saturday and the first weekday thereafter is a federal holiday, the final results are now due no later than February 21, 2012. *See Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

This notice is published pursuant to sections 751(a) and 777(i) of the Act.

Dated: February 2, 2012.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Preliminary Negative Determination and Extension of Time Limit for Final Determination of Circumvention of the Antidumping Duty Order on Ferrovanadium and Nitrided Vanadium From the Russian Federation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On May 2, 2011, pursuant to an allegation by AMG Vanadium, Inc. (AMG Vanadium), the Department of Commerce (the Department) initiated an anticircumvention inquiry to determine whether imports of vanadium pentoxide from the Russian Federation (Russia) that are converted into ferrovanadium in the United States are circumventing the antidumping duty order on ferrovanadium and nitrided vanadium

(ferrovanadium) from Russia.¹ We preliminarily determine that the importation of vanadium pentoxide by the Evraz Group,² which is toll-converted into ferrovanadium in the United States by the Bear Metallurgical Corporation (BMC), prior to sale to unaffiliated customers in the United States, does not constitute circumvention of the aforementioned order, within the meaning of section 781(a) of the Tariff Act of 1930, as amended (the Act).

DATES: *Effective Date:* February 8, 2012.

FOR FURTHER INFORMATION CONTACT:

David Goldberger or Rebecca Trainor, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4136 or (202) 482-4007, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 10, 1995, the Department published an antidumping duty order on ferrovanadium from Russia.³ On February 25, 2011, AMG Vanadium requested that the Department initiate an anticircumvention inquiry pursuant to section 781(a) of the Act, and 19 CFR 351.225(c) and (g), to determine whether imports of vanadium pentoxide from Russia, produced by Evraz Group member OAO Vanady-Tula, that are processed into ferrovanadium in the United States under a tolling agreement with the unaffiliated processor, BMC, and sold by Evraz Group member EMNA to unaffiliated U.S. customers, are circumventing the antidumping duty order on ferrovanadium from Russia. AMG Vanadium submitted additional information in support of its request on March 16, 2011.

On May 2, 2011, the Department initiated the anticircumvention inquiry with respect to the Evraz Group's imports of vanadium pentoxide which are toll-converted into ferrovanadium by BMC in the United States. *See* Initiation Notice. In June 2011, the Department issued questionnaires to the Evraz Group and BMC. The Evraz Group and BMC responded to their respective questionnaires in July 2011. The Department issued supplemental questionnaires to each company in

August 2011. The Evraz Group and BMC responded to these supplemental questionnaires in August and September 2011, respectively.

In September 2011, the Department conducted verifications at EMNA and BMC. In October 2011, the Department issued verification reports.⁴

AMG Vanadium submitted comments for consideration in the preliminary determination of this inquiry on December 19, 2011. On January 6, 2012, the Evraz Group and BMC submitted comments in response to AMG Vanadium's submission.

Scope of the Order

The products subject to this order are ferrovanadium and nitrided vanadium, regardless of grade, chemistry, form or size, unless expressly excluded from the scope of this order. Ferrovanadium includes alloys containing ferrovanadium as the predominant element by weight (*i.e.*, more weight than any other element, except iron in some instances) and at least 4 percent by weight of iron. Nitrided vanadium includes compounds containing vanadium as the predominant element, by weight, and at least 5 percent, by weight, of nitrogen. Excluded from the scope of the order are vanadium additives other than ferrovanadium and nitrided vanadium, such as vanadium-aluminum master alloys, vanadium chemicals, vanadium waste and scrap, vanadium-bearing raw materials, such as slag, boiler residues, fly ash, and vanadium oxides.

The products subject to this order are currently classifiable under subheadings 2850.00.20, 7202.92.00, 7202.99.50.40, 8112.40.30.00, and 8112.40.60.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope is dispositive.

Scope of the Anticircumvention Inquiry

The product subject to this anticircumvention inquiry is vanadium pentoxide (V₂O₅) from Russia, which is usually in a granular form and may contain other substances, including silica (SiO₂), manganese, and sulfur, and which is converted into ferrovanadium in the United States. Such merchandise is classifiable under subheading 2825.30.0010 of the HTSUS. This
