

for a live-fire training range complex due to the significant number of public comments during the EIS process regarding the DoN's preferred alternative located on areas southeast of Andersen South referred to in the Guam and CNMI Military Relocation Final EIS as the Route 15 area. Two primary concerns were raised over this location: (1) The use of non-DoD property, and (2) the impact on the community's ability to access the cultural sites of Pagat Village and Pagat Cave. In response to comments and concerns raised by the Government of Guam, Guam Legislature, and other interested parties about locating Surface Danger Zones for the ranges over Pagat Village and Pagat Cave, in January 2011, the Under Secretary of the Navy committed that the DoN would conduct training activities in such a manner that would not impact access to Pagat Village and Cave via the existing trail. The DoN further committed to 24/7 access to Pagat Village and Cave during National Historic Preservation Act consultation with the Guam State Historic Preservation Office and other consulting parties as documented in a Programmatic Agreement signed in March 2011.

Since that time, the DoN has been evaluating options to satisfy this commitment while also meeting the training requirements of the relocating Marines. This analysis resulted in the application of a probabilistic methodology which takes into account site-specific conditions and reduced the boundaries of the training range complex while providing the same margin of safety. The DoN then reviewed previously discarded sites to determine if any of those sites might be a reasonable alternative with application of the probabilistic methodology (*i.e.*, the site-specific methodology). As a result of this review, the DoN has preliminarily identified five alternatives for the range complex: Two are adjacent to Route 15 in northeastern Guam, and three are located at or immediately adjacent to the NAVMAG, also known as the Naval Munitions Site. The SEIS will also consider the No Action Alternative.

Under the No Action Alternative, Marine Corps units would not be provided live-fire training ranges. The No Action Alternative is not a reasonable alternative as it would not satisfy the need for training requirements for the relocated Marines as mandated in section 5063 of Title 10 of the United States Code, or satisfy individual live-fire training requirements as described in the Guam and CNMI Military Relocation Final EIS

and ROD. NEPA requires the lead agency to consider the alternative of no action as a baseline for comparison of environmental impacts regardless of whether or not it would meet the purpose and need of the proposed action. The SEIS will evaluate environmental effects associated with: Geology and soils; water resources, which may include water, floodplains, wetlands, wild and scenic rivers; terrestrial biology; threatened and endangered species and their designated critical habitat (if applicable); air quality; noise; airspace; cultural resources; socioeconomic; environmental justice (minority and low income populations and children); land use and coastal zone management federal consistency; transportation; hazardous materials/hazardous waste/installation restoration; public health and safety; and other environmental concerns as identified through scoping. The analysis will include an evaluation of direct and indirect impacts, and will account for cumulative impacts from other relevant activities in the area of Guam. Additionally, the DoN will undertake any consultations required by all applicable laws or regulations.

No decision will be made to implement any alternative until the SEIS process is completed and a ROD is signed by the Assistant Secretary of the Navy (Energy, Installations and Environment) or designee.

By publishing this Notice, the DoN is initiating a scoping process to identify community concerns and issues that should be addressed in the SEIS. Federal, Territory, and local agencies, and interested parties and persons are encouraged to provide comments on the proposed action that clearly describe specific issues or topics of environmental concern that the commenter believes the DoN should consider. In addition to this Notice, an information report is available for review on the project Web site (see link below). This information report provides additional background information on the environmental planning efforts which have occurred since the Final EIS ROD was signed in September 2010. Additional information will be made available on the project Web site as it becomes available.

Comments may be submitted in writing at one of the public scoping meetings, through the project Web site at: http://bit.ly/Guam_LFTRC_SEIS or may be mailed to: Joint Guam Program Office Forward, P.O. 153246, Santa Rita, GU 96915.

To ensure consideration, all written comments on the scope of the SEIS must

be submitted or postmarked by April 6, 2012 ChST.
