

Filing fees associated with submitting requests for approval of simple applications (applications to temporarily reroute production (for a duration not to exceed 6 months); production tests prior to pipeline construction; departures related to meter proving, well testing, or sampling frequency (\$1,271 per application)) or, (2) submitting a request for approval of a complex application (creation of new facility measurement points (FMPs); association of leases or units with existing FMPs; inclusion of production from additional structures; meter updates which add buyback gas meters or pigging meters; other applications which request deviations from the approved allocation procedures (\$3,760 per application)).

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”. Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

Agencies must also estimate the non-hour paperwork cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have other than hour burden costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. For further information on this burden, refer to 5 CFR 1320.3(b)(1) and (2), or contact the Bureau representative listed previously in this notice.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: Before including your address, phone number, email address, or other personal

identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Acting BSEE Information Collection Clearance Officer: Cheryl Blundon (703) 787-1607.

Dated: November 6, 2012.

Robert W. Middleton,

Deputy Chief, Office of Offshore Regulatory Programs.

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-SERO-SAJU-11286; 5331-0901-630]

Notice of Intent To Prepare an Environmental Impact Statement for the Paseo del Morro National Recreational Trail Extension, San Juan National Historic Site, San Juan, Puerto Rico

AGENCY: National Park Service, Interior.

ACTION: Notice of Intent.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4332) (2) (C), the National Park Service (NPS) will prepare an Environmental Impact Statement for the Paseo del Morro National Recreational Trail Extension (EIS). The EIS will include the involvement of multiple entities, including the Municipality of San Juan and the Commonwealth of Puerto Rico and neighborhoods along the trail corridor. Segments of the extension within and outside of the NPS boundary might include several amenities such as: Pedestrian trails, bicycle trail, Plaza, access to the Santa Maria Magdalena Cemetery, viewpoints, pocket seating areas, and drinking fountains. The project would be constructed in four phases according to the segments within the project extension. The first segment would run parallel to the Santa Maria Magdalena Cemetery, the second segment parallel to the community of La Perla, the third segment along the coastal area of Castillo San Cristobal, and the fourth segment through the “Lomita de Los Vientos”. The characteristics of the trail, such as width of the primary and secondary trails, amenities, complementary programs, activities and methods of construction, would vary in the different segments of the projects.

The objectives of the project are: To create public access to the North Coast of the Old San Juan Islet and create recreational public space along coastal area in front of Old San Juan, protect the historic walls of El Morro, encourage educational tourism within the area. The DEIS will assess potential environmental impacts associated with a range of reasonable alternatives for extension of the Paseo del Morro on

park resources such as existing flora and fauna, soils, cultural resources, and public safety. Socioeconomic impacts and effects on visitor experience will also be analyzed.

DATES: Interested individuals, organizations, and agencies are encouraged to provide written comments or suggestions to assist the NPS in determining the scope of issues to be addressed in the EIS, identifying significant issues, and identifying reasonable alternatives. The NPS will accept comments from the public for January 14, 2013. The NPS will conduct a public scoping meeting in San Juan, Puerto Rico. When the public scoping meeting has been scheduled, its location, date, and time will be published in local media and on the NPS's Planning, Environment and Public Comment Web site: <http://parkplanning.nps.gov/saju>. Written comments must be received prior to the close of the scoping period or 15 days after the last public meeting, whichever is later. The NPS will provide additional opportunities for public participation upon publication of the draft EIS.

ADDRESSES: If you wish to provide scoping comments or suggestions, you may submit your comments by any one of several methods. The preferred method for submitting comments is via the internet at <http://parkplanning.nps.gov/saju>. Select "Paseo del Morro National Recreational Trail Extension" to reach the comment site. Written comments may also be sent to: Walter Chavez, Superintendent, San Juan National Historic Site, 501 Calle Norzagaray, San Juan, Puerto Rico 00901.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives of or officials of organizations or businesses, available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: Information about the proposed action, the EIS, and the scoping process may be obtained from Mr. Walter Chavez at San Juan National Historic Site by phone at (787) 729-6777; or email walter_chavez@nps.gov. Additional

information can be found on the NPS Planning, Environment, and Public Comment (PEPC) Web site, <http://parkplanning.nps.gov/saju>. Select "Paseo del Morro National Recreational Trail Extension."

SUPPLEMENTARY INFORMATION:

The park has involved the community in information gathering for developing a shared vision for the Paseo del Morro National Recreational Trail Extension as part of an effort led by the NPS Rivers, Trails, and Conservation Assistance (RTCA) Program. Meetings were held with the community in January 2010, August 2010, March 2011, and October 2011, to begin discussions on trail extension and connectivity. The development of the Draft EIS will use the information gathered in those meetings, along with future meetings in collaboration with the RTCA Program, to assist with alternative development.

The NPS will provide additional opportunities for the public to provide written comments upon publication of the Draft EIS. The NPS welcomes public participation by Federal, State, and local agencies as well as other concerned organizations and private citizens throughout the preparation process of the EIS.

The responsible official for this EIS is David Vela, Regional Director, Southeast Region, National Park Service, 100 Alabama Street SW., 1924 Building, Atlanta, Georgia 30303.

Dated: November 7, 2012.

Gordon Wissinger,

Acting Regional Director, Southeast Region.

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

Gulf of Mexico, Outer Continental Shelf (OCS), Western Planning Area (WPA), Oil and Gas Lease Sale 229

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of Availability (NOA) of a Record of Decision (ROD) for WPA Lease Sale 229 in the Gulf of Mexico OCS Oil and Gas Lease Sales: 2012–2017 Western Planning Area Lease Sales 229, 233, 238, 246, and 248, and Central Planning Area Lease Sales 227, 231, 235, 241, and 247 Final Environmental Impact Statement (Multisale FEIS).

Authority: This NOA is published pursuant to the regulations (40 CFR 1506) implementing the provisions of the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.* (1988)).

SUMMARY: BOEM has prepared a ROD for oil and gas WPA Lease Sale 229 scheduled for November 28, 2012. WPA Lease Sale 229 is the first WPA lease sale in the 2012–2017 OCS Oil and Gas Leasing Program. The proposed lease sale is in the Gulf of Mexico's WPA off the States of Texas and Louisiana. In making its decision, BOEM considered alternatives to the proposed action and the potential impacts as presented in the Multisale FEIS and all comments received throughout the NEPA process. The Multisale FEIS evaluated the environmental and socioeconomic impacts for WPA Lease Sale 229.

SUPPLEMENTARY INFORMATION: In the Multisale FEIS, BOEM evaluated three alternatives, which are summarized below:

Alternative A—The Proposed Action: This is BOEM's preferred alternative identified in the Multisale FEIS. This alternative would offer for lease all unleased blocks within the WPA for oil and gas operations, with the following exceptions:

(1) Whole and partial blocks within the boundary of the Flower Garden Banks National Marine Sanctuary (i.e., the boundary as of the publication date of the Multisale FEIS); and

(2) whole and partial blocks that lie within the 1.4 nautical mile buffer zone north of the maritime boundary between the United States and Mexico.

The proposed WPA lease sale area encompasses virtually all of the WPA's 28.58 million acres. As of August 2012, approximately 20.8 million acres of the WPA lease sale area are currently unleased. The estimated amount of resources projected to be developed as a result of proposed WPA Lease Sale 229 is 0.116–0.200 BBO and 0.538–0.938 Tcf of gas.

Alternative B—The Proposed Action Excluding the Unleased Blocks Near Biologically Sensitive Topographic Features: This alternative would offer for lease all unleased blocks in the WPA, as described for the proposed action (Alternative A), with the exception of any unleased blocks subject to the Topographic Features Stipulation.

Alternative C—No Action: This alternative would cancel the proposed WPA Lease Sale 229 and is identified as the environmentally preferred alternative.

After careful consideration, BOEM has selected the proposed action, identified as BOEM's preferred alternative (Alternative A) in the Multisale FEIS. BOEM's selection of the preferred alternative reflects an orderly resource development with protection
