7 CFR Part 20

Export Sales Reporting Requirements

AGENCY: Office of the Secretary, USDA.

ACTION: Proposed rule; reopening of comment period.

SUPPLEMENTARY INFORMATION:

Background

USDA published a proposed rule in the **Federal Register** on June 25, 2012 (77 FR 37823), which proposed mandating weekly export sales reporting for pork (fresh, chilled, or frozen muscle cuts/whether or not boxed) and DDG to the ESR. Under this proposed rule, all exporters of U.S. pork and DDG would have been required to report, on a weekly basis, information on the export sales of pork and DDG to the Foreign Agricultural Service, USDA. The 60-day public comment period ended on August 24, 2012. USDA issued a final rule that amended the regulation to add pork to the ESR, but determined that further comments should be solicited regarding DDG.

Five comments mentioned DDG, of which three were favorable and two were unfavorable. One trade association stated: "We believe [adding DDG] would facilitate market transparency and allow our industry and our corn marketing partners with the ability to conduct accurate and timely analysis of U.S. market conditions." Another commenter stated: "[Adding DDG] would help avoid future price inflation such as we had in 1973/74 when the 'Great Russian Grain Robbery' occurred." Another commenter stated "Having these [DDG] sales brings market transparency which

will allow all market participants to digest the data."

Another trade association expressed concerns about the impacts of adding DDG, stating: "DDGs are traded with highly variable and specific quality terms that differ greatly based on end use. For example, exported DDGs often require a specific color or nutritional profile that's not necessarily the same as the product that's traded domestically. Providing export sales reporting may skew the markets viewpoint on domestic sales." Another commenter stated, "I would question why DDGs are listed to be reported, and other corn milling co-products like Corn Gluten Feed, etc., are not. I would also like to know the compelling reason for the need to have DDGs reported at all?"

Determination To Extend the Public Comment Period on Proposed Rule

Both supporters and opponents' views appear to have merit. The concerns raised with respect to the potential negative impact that mandatory export sales reporting for DDG would have on the domestic DDG market, especially the view expressed by one of the trade associations that the reporting information may confuse markets and skew domestic prices, justify an additional comment period.

All comments previously submitted to USDA during the initial comment period will be given full consideration, so there is no need to resubmit these comments. Please provide any available specific information in support of your comments. If after evaluating all the comments received with respect to DDG, USDA determines to add DDG to the exporting reporting requirements, USDA would amend Appendix 1 to Part 20, adding DDG to the list of commodities to be reported, as set forth below.

Executive Order 12866

The proposed rule has been determined to be not significant under Executive Order 12866.

Regulatory Flexibility Act

The Regulatory Flexibility Act ensures that regulatory and information requirements are tailored to the size and nature of small businesses, small organizations, and small governmental jurisdictions. This proposed rule will not have a significant economic impact on small businesses.

Executive Order 12372

Executive Order 12372, "Intergovernmental Review of Federal Programs," requires consultation with state and local officials. The objectives of the Executive Order are to foster an intergovernmental partnership and a strengthened federalism, by relying on state and local processes for state and local government coordination and review of proposed federal financial assistance and direct federal development. This proposed rule neither provides federal financial assistance nor direct federal development; it does not provide either grants or cooperative agreements. Therefore this program is not subject to Executive Order 12372.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988. The provisions of this rule would not have a preemptive effect with respect to any state or local laws, regulations, or policies which conflict with such provision or which otherwise impede their full implementation. The rule would not have a retroactive effect. Before any judicial action may be brought forward regarding this rule, all administrative remedies must be exhausted.

Executive Order 13132

The policies contained in this proposed rule would not have any substantial direct effect on states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Nor would this rule impose substantial direct compliance costs on state and local governments. Therefore, consultation with the states is not required.

Executive Order 13175

This proposed rule has been reviewed for compliance with Executive Order

13175, "Consultation and Coordination with Indian Tribal Governments." This Executive Order imposes requirements on the development of regulatory policies that have Tribal implications or preempt tribal laws. The policies contained in this rule do not preempt Tribal law.

National Environmental Policy Act

The Administrator has determined that this action will not have a significant effect on the quality of the human environment. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is necessary for this rule.

Unfunded Mandates Reform Act (Pub. L. 104-4)

Public Law 104-4 requires consultation with state and local officials and Indian tribal governments. This proposed rule does not impose an unfunded mandate or any other requirement on state, local, or tribal governments. Accordingly, these requirements are not subject to the provisions of the Unfunded Mandates Reform Act.

Executive Order 12630

This Order requires careful evaluation of governmental actions that interfere with constitutionally protected property rights. This proposed rule would not interfere with any property rights and, therefore, does not need to be evaluated on the basis of the criteria outlined in Executive Order 12630.

Paperwork Reduction Act of 1995

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Secretary of Agriculture is requesting comments from all interested individuals and organizations on a proposed revision to the currently approved information collection for this program. This revision includes the proposed change in information

collection activities related to the regulatory changes in this rule.
