Use of the www.regulations.gov Web site to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (email) system is not an "anonymous access" system. If you send an email comment directly to the Docket without going through www.regulations.gov, your email address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration (GSA) has various mission responsibilities related to the acquisition and provision of real property management, and disposal of real and personal property. These mission responsibilities generate requirements that are realized through the solicitation and award of leasing contracts. Individual solicitations and resulting contracts may impose unique information collection/reporting

requirements on contractors, not required by regulation, but necessary to (1) evaluate whether the physical attributes of offered properties meet the Government's requirements and (2) compare the owner/offeree's price proposal against competing offers.

These Form 1364 versions are products of a GSA Lease Reform Initiative to improve the lease acquisition process for GSA, client agencies, and the private sector. Process reform over the past 2 years has brought reform to GSA leasing by implementing a variety of enhancements and improvements to the methods by which GSA procures space. As a direct result of the reform, five new lease contract models have been developed that are targeted to meet the needs of the national leased portfolio. Four of the lease models require offerors to complete a GSA Form 1364. The new versions of GSA Form 1364 require the submission of information specifically aligned with the leasing models and avoid mandating submission of information that is not required for use in evaluation and award under each model.

The Simplified Lease Model uses GSA Forms 1364A and 1364A-1. This model obtains a firm, fixed price for rent, which includes the cost of tenant improvement construction. Therefore, leases using the Simplified model do not include post-award tenant improvement cost information on the form. The 1364A includes rental rate components and cost data that becomes part of the lease contract and that is necessary to satisfy GSA pricing policy requirements.

The 1364A-1 is a checklist that addresses technical requirements as referenced in the Request for Lease Proposals. The 1364A-1 is separate from the proposal itself and maintained in the lease file; it does not become an exhibit to the lease. The 1364A-1 may contain proprietary offeror information that cannot be released under the Freedom of Information Act.

The Streamlined Lease Model uses GSA Form 1364B. The Streamlined Lease model is a unique model that was designed to support small to mid-size leases up to \$500,000 average net annual rent and occupancies that fall under Interagency Security Committee Security Levels I, II, and III. The Streamlined Lease model is not used for projects requiring lease construction or leases employing the best value trade-off evaluation process.

The Standard Lease Model, which relies on an allowance instead of firm fixed pricing for initial tenant improvements, uses GSA Form 1364C.

The 1364C captures an offeror's proposed interest rate and amortization period for the tenant improvements, in addition to the lessor's overhead fees.

The Succeeding and Superseding Lease Model uses GSA Form 1364D. These leases are negotiated with the existing lessor after advertisements and cost benefit analyses result in a determination that such a lease is in the best interests of the government. The form has less data input required than for a Standard lease; it also includes current rental rate information, supplied by the Government.

The 1364A-1, 1364B, and 1364C summarize an offeror's technical compliance with some important statutory and regulatory requirements to make the overall offer process easier for offerors to understand (e.g., accessibility and seismic standards, flood plain compliance, asbestos). The 1364C also limits the collection of tenant improvement overhead fees to the architect/engineering fees and lessor's project management fees. A notice was published in the **Federal Register** at 78 FR 303, on January 3, 2013. No comments were received.

Maximum Per Diem Rates for the States of Oklahoma and Texas

AGENCY: Office of Governmentwide Policy (OGP), General Services Administration (GSA).

ACTION: Notice of Per Diem Bulletin 13-04, revised continental United States (CONUS) per diem rates.

SUMMARY: The General Services Administration (GSA) has conducted its mid-year review and has determined that the per diem rates for certain locations in the States of Oklahoma and Texas are inadequate.

DATES: *Effective date:* This notice is effective April 1, 2013 and applies to travel performed on or after April 1, 2013.

FOR FURTHER INFORMATION CONTACT: For clarification of content, please contact Ms. Jill Denning, Office of Governmentwide Policy, Office of Asset and Transportation Management, at 202-208-7642, or by email at travelpolicy@gsa.gov. Please cite Notice of FTR Bulletin 13-04.

SUPPLEMENTARY INFORMATION:

A. Background

After an analysis of the per diem rates established for FY 2013 (see the **Federal Register** notice at 77 FR 54578, September 5, 2012, and FTR Bulletin 13-01), non-standard area per diem rates are being established for the following locations:

State of Oklahoma

- Garfield County

State of Texas

- Midland County

CONUS per diem rates are published as FTR per diem bulletins available on the Internet at www.gsa.gov/perdiem and www.gsa.gov/bulletins. This process ensures timely notice of increases or decreases in per diem rates established by GSA for Federal employees on official travel within CONUS. Notices published periodically in the **Federal Register**, such as this one, now constitute the only notification of revisions in CONUS per diem rates to agencies.

Dated: March 22, 2013.

Craig J. Flynn,

Acting Deputy Director, Office of Asset and Transportation Management, Office of Governmentwide Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

[Document Identifier HHS-OS-19158-60D]

Agency Information Collection Activities; Proposed Collection; Public Comment Request

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, announces plans to submit a new Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting that ICR to OMB, OS seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on the ICR must be received on or before May 28, 2013.

ADDRESSES: Submit your comments to Information.CollectionClearance@hhs.gov or by calling (202) 690-6162.

FOR FURTHER INFORMATION CONTACT: Information Collection Clearance staff, Information.CollectionClearance@hhs.gov or (202) 690-6162.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the document identifier HHS-OS-19158-60D for reference.

Information Collection Request Title: Doing It For Ourselves (DIFO) Program.

Abstract: The Office of Women's Health (OWH) and the Department of Health and Human Services (HHS) Coordinating Committee on Lesbian, Gay, Bi-sexual and Transgender (LGBT) Issues have prioritized the collection of health data on LGBT populations. In response, OWH funded an initiative to identify and test effective and innovative ways of reducing obesity in lesbian and bisexual women. The DIFO intervention has been developed in San Francisco to address what is known about local LB women's community norms, common barriers to health, patterns of physical and mental health access, and preferences for health services and health outcomes. The evaluation of the DIFO program will address the following research question: Does an intervention based on an ecological model of LB women's health result in improved health, as defined by: quality of life, decreased weight, improved nutrition, and increased physical activity? The project is scheduled for one year.
