

Notices

Federal Register

Vol. 78, No. 78

Tuesday, April 23, 2013

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Doc. No. AMS-FV-12-0072; FV13-902-1]

Marketing Orders for Fruit Crops; Notice of Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), this notice announces the Agricultural Marketing Service's (AMS) intention to request an extension and revision to the approved forms and generic information collection for marketing orders covering fruit crops.

DATES: Comments on this notice are due by June 24, 2013 to be assured of consideration.

Additional Information: Contact Andrew Hatch, Chief, Program Services Branch, Marketing Order and Agreement Division, Fruit and Vegetable Program, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Room 1406-S, Washington, DC, 20250-0237; Telephone: (202) 720-6862 or Email: andrew.hatch@ams.usda.gov.

Small businesses may request information on this notice by contacting Jeffrey Smutny, Marketing Order and Agreement Division, Fruit and Vegetable Program, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Room 1406-S, Washington, DC, 20250-0237; Telephone (202) 720-9922 or Email: jeffrey.smutny@ams.usda.gov.

Comments: Comments should reference the document number and the date and page number of this issue of the **Federal Register**, and be mailed to the Docket Clerk, Fruit and Vegetable Program, AMS, USDA, 1400 Independence Avenue SW., Room

1406-S, Washington, DC 20250-0237; Fax: (202) 720-8938; or submitted through the Internet at <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

Title: Marketing Orders for Fruit Crops.

OMB Number: 0581-0189.

Expiration Date of Approval: November 30, 2013.

Type of Request: Extension and Revision of a currently approved information collection.

Abstract: Marketing orders provide an opportunity for producers of fresh fruits, vegetables and specialty crops, in specified production areas, to work together to solve marketing problems that cannot be solved individually. This notice covers the following marketing order program citations 7 CFR parts 905 (Florida citrus), 906 (Texas citrus), 915 (Florida avocados), 917 (California pears), 920 (California kiwifruit), 922 (Washington apricots), 923 (Washington cherries), 924 (Oregon/Washington prunes), 925 (California table grapes), 927 (Oregon/Washington pears), and 929 (Cranberries grown in 10 States). Order regulations help ensure adequate supplies of high quality product and adequate returns to producers. Marketing order programs are authorized under the Agricultural Marketing Agreement Act of 1937 (Act), as amended (7 U.S.C. 601-674). The Secretary of Agriculture is authorized to oversee the order operations and issue regulations recommended by a committee of representatives from each commodity industry.

The information collection requirements in this request are essential to carry out the intent of the Act, to provide the respondents the type of service they request, and to administer the marketing orders. Under the Act, orders may authorize: Production and marketing research, including paid advertising; volume regulations; reserves, including pools and producer allotments; container regulations; and quality control. Assessments are levied on handlers regulated under the marketing orders.

USDA requires several forms to be filed to enable the administration of each marketing order program. These include forms covering the selection process for industry members to serve on a marketing order's committee or board and ballots used in referenda to

amend or continue marketing order programs.

Under Federal marketing orders, producers and handlers are nominated by their peers to serve as representatives on a committee or board which administers each program. Nominees must provide information on their qualifications to serve on the committee or board. Nominees are appointed by the Secretary. Formal rulemaking amendments must be approved in referenda conducted by USDA and the Secretary. For the purposes of this action, ballots are considered information collections and are subject to the Paperwork Reduction Act. If an order is amended, handlers are asked to sign an agreement indicating their willingness to abide by the provisions of the amended order.

Some forms are required to be filed with the committee or board. The orders and their rules and regulations authorize the respective commodities' committees and boards, the agencies responsible for local administration of the orders, to require handlers and producers to submit certain information. Much of the information is compiled in aggregate and provided to the respective industries to assist in marketing decisions. The committees and boards have developed forms as a means for persons to file required information relating to supplies, shipments, and dispositions of their respective commodities, and other information needed to effectively carry out the purpose of the Act and their respective orders, and these forms are utilized accordingly.

The forms covered under this information collection require the minimum information necessary to effectively carry out the requirements of the orders, and their use is necessary to fulfill the intent of the Act as expressed in the orders rules and regulations.

The information collected is used only by authorized employees of the committees and authorized representatives of the USDA, including AMS, Fruit and Vegetable Program's regional and headquarters' staff. Authorized committee or board employees are the primary users of the information and AMS is the secondary user.

Estimate of Burden: Public reporting burden for this collection of information

is estimated to average .30 hours per response.

Respondents: Producers, handlers, processors, cooperatives, and public members.

Estimated Number of Respondents: 15,950.

Estimated Number of Responses: 26,802.

Estimated Number of Responses per Respondent: 1.68.

Estimated Total Annual Burden on Respondents: 8,266 hours.

Comments are invited on: (1) Whether the proposed collection of the information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record. All comments received will be available for public inspection at the street address in the "Comment" section and can be viewed at: www.regulations.gov.

Dated: April 16, 2013.

David R. Shipman,

Administrator, Agricultural Marketing Service.

[Doc. No. AMS-LS-13-0007]

Seed Testing Service Program; Request for an Extension of and Revision to a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), this document announces the Agricultural Marketing Service's (AMS) intention to request approval from the Office of Management

and Budget (OMB), for an extension of and revision to the currently approved information collection for the Seed Service Testing Program.

DATES: Comments on this document must be received by June 24, 2013 to be assured of consideration.

ADDRESSES: Interested persons are invited to submit written comments concerning this information collection document. Comments should be submitted online at www.regulations.gov. Send written comments to Fawad S. Shah, Director, Seed Regulatory and Testing Division (SRTD), Livestock, Poultry, and Seed Program, AMS, USDA, 801 Summit Crossing Place, Suite C, Gastonia, North Carolina 28054-2193, or by facsimile to (704) 852-4109. All comments should reference the docket number (AMS-LS-13-0007), the date, and page number of this issue of the **Federal Register**. All comments received will be posted without change, including any personal information provided, online at <http://www.regulations.gov> and will be made available for public inspection at the above physical address during regular business hours.

SUPPLEMENTARY INFORMATION:

Title: Seed Service Testing Program.

OMB Number: 0581-0140.

Expiration Date of Approval: October 13, 2013.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: This information collection is necessary to conduct voluntary seed testing on a fee for service basis. The Agricultural Marketing Act of 1946, as amended, (7 U.S.C. 1621 *et seq.*) authorizes the Secretary to inspect and certify the quality of agricultural products and collect such fees as reasonable to cover the cost of service rendered. Regulations for inspection and certification of quality of agricultural and vegetable seeds are contained in 7 CFR Part 75.

The purpose of the voluntary program is to promote efficient, orderly marketing of seeds, and assist in the development of new and expanding markets. Under the program, samples of agricultural and vegetable seeds submitted to AMS are tested for factors such as purity and germination at the request of the applicant for the service. In addition, grain samples, submitted at the applicant's request, by the Grain Inspection, Packers, and Stockyards Administration are examined for the presence of certain weed and crop seed. A Federal Seed Analysis Certificate or an ISTA Orange International Seed Lot Certificate is issued giving the test

results. Most of the seed tested under this program is scheduled for export. Many importing countries require a Federal Seed Analysis Certificate on U.S. seed.

The only information collected is information needed to provide the service requested by the applicant. This includes information to identify the seed being tested, the seed treatment (if treated with a pesticide), the tests to be performed, and any other appropriate information required by the applicant to be on the Federal Seed Analysis Certificate or the ISTA Orange International Seed Lot Certificate.

The number of seed companies applying for the seed testing service has decreased from 81 to 76 during the past 3 years due to a decrease in the number of companies exporting seed. The total number of samples received for testing has decreased. Therefore, the average burden for information collection has decreased for seed companies applying for the service.

The information in this collection is used only by authorized AMS employees to track, test, and report results to the applicant.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.25 hours per response.

Respondents: Applicants for seed testing service.

Estimated Number of Respondents: 76.

Estimated Number of Responses per Respondent: 25.46.

Estimated Total Annual Burden on Respondents: 483.75 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this document will be summarized and included in the request for OMB approval. All comments will become a matter of public record.
