

3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Evaluation and Accountability Report for Title II, Part D (Ed Tech) of ESEA.

OMB Control Number: 1810-0702.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 53.

Total Estimated Number of Annual Burden Hours: 1,590.

Abstract: Sections 2402(a)(7) and 2413(b)(4) of ESEA require States and local educational agencies (LEAs) that receive Title II, Part D grant funds to conduct rigorous evaluation of the effectiveness of Title II, Part D formula and competitive grant-funded projects, activities and strategies in integrating technology into curricula and instruction and improving student achievement. The purpose of this reporting requirement is to identify from the results of those evaluations innovative projects, activities and strategies that effectively infuse technology with curriculum and instruction, show evidence of positive impacts for student learning, and can be widely replicated by other State educational agencies and LEAs.

Title of Collection: Promoting Student Success in Algebra I Project.

OMB Control Number: 1810-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 201.

Total Estimated Number of Annual Burden Hours: 208.

Abstract: The Promoting Student Success in Algebra I (PSSA) study aims to provide policy-makers and practitioners with a deeper understanding of how instructional practices, professional development, instructional coaching, curriculum alignment, and expanded learning/double-dose algebra can serve as possible avenues for improving student success in mathematics and particularly Algebra I, a critical gateway course for which student success is a strong predictor of high-school graduation.

The PSSA study will incorporate research findings, school-based perspectives from education practitioners, and case studies of district and school sites that are implementing exemplary initiatives in the five topical areas that represent common leverage points for addressing student needs in mathematics. This work will make an important contribution by producing actionable information for educators and policymakers about how to promote success in Algebra I for all students while simultaneously increasing the demands on teacher effectiveness and student performance in preparation for the Common Core State Standards for Mathematics (CCSSM). The study centers around three major research questions as follows:

(1) What is the evidence to support practices or strategies in the areas of instructional practices, professional development, instructional coaching,

curricular alignment, and expanded learning/double-dose algebra for promoting student success in Algebra I?

(2) What do district- and school-based representatives think about evidence for practices or strategies in these areas?

(3) What does exemplary implementation of each practice or strategy look like in districts or schools with demonstrated improvement in student outcomes?

The subject of this OMB clearance request is PSSA's series of five topical area case studies (Research Question #3). The case studies are designed to address five focused sets of case study research questions that are grounded in the study's overall conceptual framework. These research questions explore factors associated with the successful implementation of programs or initiatives in each of the five topical areas, including (a) actions taken to implement the program/initiative; (b) processes used to develop and select the program/initiative; (c) contextual factors that enable and constrain successful implementation; and (d) indicators that are used to describe the effectiveness of the program/initiative.
