

lumber by quantity, as classified under Harmonized Tariff Schedule code 4407.1001 (which accounts for the vast majority of imports), during the period July 1 through December 31, 2012. Official U.S. import data published by the United States International Trade Commission Tariff and Trade DataWeb indicate that only one country, Canada, exported softwood lumber to the United States during that time period in amounts sufficient to account for at least one percent of U.S. imports of softwood lumber products. We intend to rely on similar previous six-month periods to identify the countries subject to future reports on softwood lumber subsidies. For example, we will rely on U.S. imports of softwood lumber and softwood lumber products during the period January 1 through June 30, 2013, to select the countries subject to the next report.

Under U.S. trade law, a subsidy exists where a government authority: (i) Provides a financial contribution; (ii) provides any form of income or price support within the meaning of Article XVI of the GATT 1994; or (iii) makes a payment to a funding mechanism to provide a financial contribution to a person, or entrusts or directs a private entity to make a financial contribution, if providing the contribution would normally be vested in the government and the practice does not differ in substance from practices normally followed by governments, and a benefit is thereby conferred. *See* section 771(5)(B) of the Tariff Act of 1930, as amended.

Parties should include in their comments: (1) The country which provided the subsidy; (2) the name of the subsidy program; (3) a brief description (at least 3–4 sentences) of the subsidy program; and (4) the government body or authority that provided the subsidy.

#### Submission of Comments

Persons wishing to comment should file comments by the date specified above. Comments should only include publicly available information. The Department will not accept comments accompanied by a request that a part or all of the material be treated confidentially due to business proprietary concerns or for any other reason. The Department will return such comments or materials to the persons submitting the comments and will not include them in its report on softwood lumber subsidies. The Department requests submission of comments filed in electronic Portable Document Format (PDF) submitted on CD-ROM or by

email to the email address of the IA Webmaster, below.

The comments received will be made available to the public in PDF on the Import Administration Web site at the following address: <http://ia.ita.doc.gov/public-comments.html>. Any questions concerning file formatting, access on the Internet, or other electronic filing issues should be addressed to Laura Merchant, Import Administration Webmaster, at (202) 482–0367, email address: [mailto:webmaster\\_support@trade.gov](mailto:webmaster_support@trade.gov).

All comments and submissions in response to this Request for Comment should be received by the Department no later than 5 p.m., on the above-referenced deadline date.

Dated: April 18, 2013.

**Christian Marsh,**

*Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.*

## DEPARTMENT OF COMMERCE

### National Institute of Standards and Technology

#### National Fire Codes: Request for Public Input for Revision of Codes and Standards

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice.

**SUMMARY:** This notice contains the list of National Fire Protection Association (NFPA) documents opening for Public Input, and it also contains information on the NFPA Revision Process. The National Institute of Standards and Technology (NIST) is publishing this notice on behalf of the National Fire Protection Association (NFPA) to announce the NFPA's proposal to revise some of its fire safety codes and standards and requests Public Input to amend existing or begin the process of developing new NFPA fire safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards.

**DATES:** Interested persons may submit Public Input by 5:00 p.m. EST/EDST on or before the date listed with the code or standard.

**ADDRESSES:** Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169–7471.

**FOR FURTHER INFORMATION CONTACT:** Amy Beasley Cronin, NFPA, Secretary,

Standards Council, at above address, (617) 770–3000. David F. Alderman, NIST, 100 Bureau Drive, MS 2100, Gaithersburg, MD 20899, email: [david.alderman@nist.gov](mailto:david.alderman@nist.gov) or by phone at 301–975–4019.

#### SUPPLEMENTARY INFORMATION:

The National Fire Protection Association (NFPA) proposes to revise some of its fire safety codes and standards and requests Public Input to amend existing or begin the process of developing new NFPA fire safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards. The publication of this notice of request for Public Input by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The Revision Process contains four basic steps that are followed for developing new documents as well as revising existing documents. Step 1: Public Input Stage, which results in the First Draft Report (formerly ROP); Step 2: Comment Stage, which results in the Second Draft Report (formerly ROC); Step 3: the Association Technical Meeting at the NFPA Conference & Expo; and Step 4: Standards Council consideration and issuance of documents.

**Note:** NFPA rules state that, anyone wishing to make Amending Motions on the Public Comments, Second Revisions, or Committee Comments must signal his or her intention by submitting a Notice of Intent to Make a Motion by 5:00 p.m. EST/EDST of the Deadline stated in the Second Draft Report. Certified motions will then be posted on the NFPA Web site. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the Association Technical Meeting at the NFPA Conference & Expo. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these rules and for up-to-date information on schedules and deadlines for processing NFPA Codes and Standards, check the

NFPA Web site at [www.nfpa.org](http://www.nfpa.org), or contact NFPA Codes and Standards Administration.

### Background

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning fire safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR part 51.

When a Technical Committee begins the development of a new or revised NFPA code or standard, it enters one of two Revision Cycles available each year. The Revision Cycle begins with the Call for Public Input, that is, a public notice asking for any interested persons to submit specific input for developing or revising a code or standard. The Call for Public Input is published in a variety of publications.

Following the Call for Public Input period, the Technical Committee holds a meeting to consider all the submitted Public Input and make Revisions accordingly. A document known as the First Draft Report (formerly ROP), is prepared containing all the Public Input, the Technical Committee's response to each Input, as well as all Committee-generated First Revisions. The First Draft is then submitted for the approval of the Technical Committee by a formal written ballot. Any Revisions that do not receive approval by a two-thirds vote calculated in accordance with NFPA rules will not appear in the First Draft. If the necessary approval is

received, the Revisions are published in the First Draft Report that is posted on the NFPA Web site at [www.nfpa.org](http://www.nfpa.org) for public review and comment, and the process continues to the next step.

Once the First Draft Report becomes available, there is a 10 week comment period during which anyone may submit a Comment on the proposed changes in the First Draft Report. The Committee then reconvenes at the end of the Comment period and acts on all Comments.

As before, a two-thirds approval vote by written ballot of the eligible members of the Committee is required for approval of the Second Revisions. All of this information is compiled into a second report, called the Second Draft Report (formerly ROC), which, like the First Draft Report, is published, and is made available for public review for a five-week period.

The process of public input and review does not end with the publication of the First Draft Report and Second Draft Report. Following the completion of the Public Input and Comment periods, there is further opportunity for debate and discussion through the Association Technical Meeting that takes place at the NFPA Conference & Expo.

The Association Technical Meeting provides an opportunity for the Technical Committee Report (i.e., the First Draft Report and Second Draft Report) on each proposed new or revised code or standard to be presented to the NFPA membership for the debate and consideration of motions to amend the Report. Before making an allowable motion at an Association Technical Meeting, the intended maker of the

motion must file, in advance of the session, and within the published deadline, a Notice of Intent to Make a Motion (NITMAM). A Motions Committee appointed by the Standards Council then reviews all notices and certifies all amending motions that are proper. Only these Certified Amending Motions, together with certain allowable Follow-Up Motions (that is, motions that have become necessary as a result of previous successful amending motions) will be allowed at the Association Technical Meeting.

For more information on dates/locations of NFPA Technical Committee meetings go to the NFPA Web site at [www.nfpa.org/tcmeetings](http://www.nfpa.org/tcmeetings); and for NFPA Conference & Expo, go to the NFPA Web site at [www.nfpa.org/conference](http://www.nfpa.org/conference).

The specific rules for the types of motions that can be made and who can make them are set forth in NFPA's Regulations Governing the Development of NFPA Standards which should always be consulted by those wishing to bring an issue before the membership at an Association Technical Meeting.

### Request for Public Input

Interested persons may submit Public Input supported by data, views, and substantiation. Public Input should be submitted online for each specific document (i.e., [www.nfpa.org/publicinput](http://www.nfpa.org/publicinput)). Public Input received by 5:00 p.m. EST/EDST on or before the closing date indicated with each code or standard would be acted on by the Committee, and then considered by the NFPA Membership at the Association Technical Meeting.

Document—Edition	Document title	Public input closing date
NFPA 10—2013 .....	Standard for Portable Fire Extinguishers .....	1/3/2014

### National Institute of Standards and Technology

#### National Fire Codes: Request for Comments on NFPA's Codes and Standards

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice.

**SUMMARY:** The National Institute of Standards and Technology (NIST) is publishing this notice on behalf of the National Fire Protection Association (NFPA) to announce the availability of and request comments on the First Draft Reports that will be reporting in NFPA's 2014 Annual Revision Cycle.

**DATES:** Thirty First Draft Reports are published on the NFPA Web site at <http://www.nfpa.org/FDRSDR>. Comments received by 5:00 p.m. EST/EDST on or before May 3, 2013 will be considered by the respective NFPA Committees before final action is taken on the comments.

**ADDRESSES:** The 2014 Annual Revision Cycle First Draft Reports are available and downloadable from NFPA's Web site at: <http://www.nfpa.org/FDRSDR>. Comments on the First Draft Reports can be submitted online by going to the link above.

#### FOR FURTHER INFORMATION CONTACT:

Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts, 02169-7471, (617) 770-3000. David F. Alderman, NIST, 100 Bureau Drive, MS 2100, Gaithersburg, MD 20899, email: [david.alderman@nist.gov](mailto:david.alderman@nist.gov) or by phone at 301-975-4019.

**SUPPLEMENTARY INFORMATION:** Since 1896, the National Fire Protection

Association (NFPA) has accomplished its mission by advocating consensus codes and standards, research, training and education for safety related issues. NFPA's *National Fire Codes*®, which holds over 295 documents, are administered by more than 240 Technical Committees comprised of approximately 7600 volunteers and are adopted and used throughout the world. NFPA is a nonprofit membership organization with approximately 70,000 members from over 100 nations, all working together to fulfill the Association's mission.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and that take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The Code Revision Process contains four basic steps that are followed for developing new documents as well as revising existing documents: Step 1: Public Input Stage, which results in the First Draft Report (formerly ROP); Step 2: Comment Stage, which results in the Second Draft Report (formerly ROC); Step 3: the Association Technical Meeting at the NFPA Conference & Expo; and Step 4: Standards Council consideration and issuance of documents.

**Note:** Anyone wishing to make Amending Motions on the Second Draft Reports (formerly ROP and ROC) must signal his or her intention by submitting a Notice of Intent to Make a Motion by the Deadline of 5:00 p.m. EST/EDST on or before February 7, 2014. Certified motions will be posted by April 4, 2014. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the Annual June 2014 Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these new rules and for up-to-date information on schedules and deadlines for processing

NFPA Documents, check the NFPA Web site at [www.nfpa.org](http://www.nfpa.org), or contact NFPA Codes and Standards Administration.

The purpose of this notice is to request comments on the First Draft Reports for the NFPA's 2014 Annual Revision Cycle. The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

#### Background

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning fire safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR part 51.

#### Request for Comments

Interested persons may participate in these revisions by submitting written data, views, or arguments, to Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169-7471. Commenters may go to the NFPA Web site at <http://www.nfpa.org/FDRSDR>. Each person submitting a comment should include his or her name and address, identify the notice, and give reasons for any recommendations. Comments received by 5:00 p.m. EST/EDST on or before May 3, 2013 for the 2014 Annual Revision Cycle First Draft Reports will be considered by the NFPA before final action is taken on the First Draft Reports.

Copies of all written comments received and the disposition of those comments by the NFPA committees will be published as the 2014 Annual Revision Cycle Second Draft Reports and will be available on the NFPA Web site at <http://www.nfpa.org/FDRSDR>.
