NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable and contrary to the public interest. The final details for this event were not known to the Coast Guard until there was insufficient time remaining before the event to publish an NPRM. Thus, delaying the effective date of this rule to wait for a comment period to run would be both impracticable and contrary to the public interest because it would inhibit the Coast Guard's ability to protect vessels from the hazards associated with the demolition project on the Cline Avenue Bridge, which are discussed further below.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. For the same reasons discussed in the preceding paragraph, waiting for a 30 day notice period to run would be impracticable and contrary to the public interest.

B. Basis and Purpose

The legal basis for the rule is the Coast Guard's authority to establish regulated navigation areas and limited access areas: 33 U.S.C. 1231; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6, 160.5; Public Law 107-295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

During the month of January, 2013 Walsh Construction Company will be conducting demolition on the West span of the Cline Avenue Bridge in East Chicago, IN. The Captain of the Port, Sector Lake Michigan, has determined

that this demolition project will pose a significant risk to public safety and property. Such hazards include loss of life and property in the proximity of explosives, and collisions among vessels and contractors involved in the demolition project.

The Coast Guard established the same safety zone for October 27 and November 10, for November 3 and 10, for December 2 and 8, and once again for December 23, 2012. In November of 2012, the discovery of steel beams within the area of the bridge to be demolished caused a change of schedule in the demolition. On December 2, 2012 the Construction Company conducted demolition on the East span of the bridge as scheduled. However, during this demolition, the East span fell into an unexpected position which required unscheduled clean up and presented a potential danger to passing vessel traffic. On December 23, 2012, high winds halted demolition of the West Span. The U.S. Coast Guard considered the history of unexpected delays associated with this demolition project and the delicate nature of explosive work on a transportation structure.

C. Discussion of Rule

With the aforementioned hazards in mind, the Captain of the Port, Sector Lake Michigan, has determined that this temporary safety zone is necessary to ensure the safety of persons and vessels during the demolition project on the Cline Avenue Bridge. This rule is effective from 12:00 p.m. on January 1, 2013 until 12:00 a.m. on February 1, 2013. The Captain of the Port, Sector Lake Michigan, will establish enforcement dates that will be announced with a Notice of Enforcement and marine information broadcasts. The safety zone will encompass all waters of the Indiana Harbor Canal in the vicinity of the Cline Avenue Bridge at approximate position 41°39'4.3" N and 87°27'54.3" W (NAD 83).

Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port, Sector Lake Michigan, or his designated on-scene representative. The Captain of the Port or his designated on-scene representative may be contacted via VHF Channel 16.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.
