

Additional Public Notification

FSIS will announce this notice online through the FSIS Web page located at http://www.fsis.usda.gov/regulations_&_policies/Federal_Register_Notices/index.asp.

FSIS will also make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to constituents and stakeholders. The Constituent Update is communicated via Listserv, a free electronic mail subscription service for industry, trade groups, consumer interest groups, health professionals, and other individuals who have asked to be included. The Update is also available on the FSIS Web page. In addition, FSIS offers an electronic mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/News_&_Events/Email_Subscription/. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

USDA Nondiscrimination Statement

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.)

Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's Target Center at 202-720-2600 (voice and TTY).

To file a written complaint of discrimination, write USDA, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW., Washington, DC 20250-9410 or call 202-720-5964 (voice and TTY). USDA is an equal opportunity provider and employer.

Done at Washington, DC, on: December 26, 2012.

Alfred V. Almanza,
Administrator.

DEPARTMENT OF AGRICULTURE

Rural Utilities Service

Supplemental Final Environmental Impact Statement for Healy Power Generation Unit #2, Healy, AK

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of Intent to Prepare a Supplemental Final Environmental Impact Statement.

SUMMARY: The Rural Utilities Service (RUS), an agency within the U.S. Department of Agriculture (USDA), intends to prepare a supplemental final environmental impact statement (SFEIS) to update information in the Department of Energy's (DOE's) "Final Environmental Impact Statement for the Proposed Healy Clean Coal Project" (FEIS), completed in 1993. The FEIS evaluated potential impacts to the human environment from DOE's proposal to partially fund the Healy Clean Coal Project (HCCP) in cooperation with the Alaska Industrial Development and Export Authority (AIDEA). The DOE published a Record of Decision for HCCP in 1994, and in 1997 Healy Unit #2 was constructed as a major modification to the existing Healy power plant, now known as Healy Unit #1. Healy Unit #1 is a 25 megawatt (MW) coal-fired boiler that has been owned and operated by Golden Valley Electric Association (GVEA) since 1967. Healy Unit #2 is a 50 MW coal-fired steam generator owned by AIDEA, which underwent test operation for two years as part of DOE's Clean Coal Technology Program. Unit #2 has been in warm layup since late 1999.

DATES: The Draft SFEIS is scheduled for publication in February 2013. A notice of availability will be published in the **Federal Register** announcing the review period of the SFEIS.

ADDRESSES: You may submit comments on the SFEIS by any of the following methods: Mail: Deirdre M. Remley, Environmental Protection Specialist, RUS, Water and Environmental Programs, Engineering and Environmental Staff, 1400 Independence Avenue SW., Stop 1571, Washington, DC 20250-1571; Telephone: (202) 720-9640; or email: deirdre.remley@wdc.usda.gov.

FOR FURTHER INFORMATION CONTACT:

Deirdre Remley: (202) 720-9640, deirdre.remley@wdc.usda.gov.

SUPPLEMENTARY INFORMATION: RUS makes loans and loan guarantees to finance new infrastructure and upgrades to existing facilities in the areas of electricity, telecommunications, and

water and wastewater in rural areas that qualify for federal assistance. During the 1994 USDA reorganization, the former Rural Electrification Administration (REA) utility programs were consolidated under RUS. The RUS Electric Program is authorized to make loans and loan guarantees that finance the construction of electric distribution, transmission, and generation facilities, including system improvements and replacements required to furnish and improve electric service in rural areas, as well as demand side management, energy conservation programs, and on-grid and off-grid renewable energy systems.

GVEA is a not-for-profit cooperative formed in 1946 with financing from REA to provide electric service to rural communities in interior Alaska. Because GVEA is an RUS borrower, RUS holds liens on GVEA assets and transfers of borrower assets in which RUS holds an interest require lien accommodations. AIDEA provides support for the Alaska Energy Authority whose mission is to reduce the cost of energy in Alaska. AIDEA partially funded HCCP in cooperation with DOE's Clean Coal Technology Program. AIDEA currently owns Healy Unit #2 and wishes to sell it to GVEA.

RUS's predecessor, REA, was a cooperating agency on DOE's FEIS for HCCP, because it had administrative actions related to its lien interests in GVEA holdings. Recently, AIDEA and GVEA reached an agreement for GVEA to purchase Unit #2. Subsequent to the transfer of ownership, GVEA's subsidiary, Tri-Valley Electrical Cooperative (Tri-VEC), would begin generating electrical power for commercial use in GVEA's service territory.

GVEA proposes to install additional emission controls to both Unit #1 and Unit #2 and to operate Unit #2 for the remainder of the plant's operational life. GVEA plans to request financial assistance from RUS to purchase and install additional emission control devices. Additionally, actions GVEA may request from RUS include any or all of the following:

- Approve a Power Sales Agreement from Tri-VEC to GVEA as required under Section 5(c) of RUS Loan Contract dated February 2, 2004 between GVEA and the United States of America.

- Approve a release of RUS's existing lien on the HCCP site at the time of its sale to Tri-VEC from GVEA, as provided to RUS under the Restated Mortgage and Security Agreement dated February 2, 2004, between GVEA and the United States of America.

• Providing financial assistance to GVEA or Tri-VEC for purchase and installation of emission control equipment.

As applicable, the SFEIS will document changes in the affected environment and environmental consequences that may have occurred since the FEIS was published in 1993. The FEIS is available on GVEA's Web site at <http://www.gvea.com/energy/hccp>, and the SFEIS will incorporate this document by reference and include only those topics that have changed since the FEIS was finalized.

Dated: December 4, 2012.

Mark S. Plank,

Director, Engineering and Environmental Staff, USDA/Rural Utilities Service.

Circular Welded Carbon Steel Pipes and Tubes From Turkey; Amended Final Results of Antidumping Duty Administrative Review; 2010 to 2011

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On December 6, 2012, the Department of Commerce (the Department) published its final results of the administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Turkey for the period of review (POR) May 1, 2010, through April 30, 2011.¹ We are amending our final results to correct a ministerial error made in the calculation of the weighted-average dumping margin for the Borusan Group (Borusan),² pursuant to section 751(h) of the Tariff Act of 1930, as amended (the Act).

DATES: *Effective Date:* January 3, 2013.

FOR FURTHER INFORMATION CONTACT:

Christopher Hargett, AD/CVD Operations, Office 3, Import

Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4161.

SUPPLEMENTARY INFORMATION:

Background

On December 5, 2012, pursuant to 19 CFR 351.224(c), Borusan alleged that the Department committed a ministerial error and requested that the Department correct this error.³ Specifically, Borusan alleged that the margin program contains a programming error in identifying the month of sale for U.S. sales with the result that U.S. sales are matched first to home market sales in a month outside of the 90-60 day window.⁴

On December 10, 2012, U.S. Steel Corporation (U.S. Steel) submitted comments on Borusan's ministerial error allegation.⁵ In its submission, U.S. Steel contends that, if the Department accepts Borusan's proposed changes to the margin calculations, the Department also should make an additional modification to the margin program to ensure that the targeted dumping analysis is performed correctly.⁶

Scope of the Order

The products covered by the order include circular welded non-alloy steel pipes and tubes, of circular cross-section, not more than 406.4 millimeters (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, galvanized, or painted), or end finish (plain end, beveled end, threaded and coupled). Those pipes and tubes are generally known as standard pipe, though they may also be called structural or mechanical tubing in certain applications. All carbon steel pipes and tubes within the physical description outlined above are included in the scope of this order, except for line pipe, oil country tubular goods, boiler tubing, cold-drawn or cold-rolled mechanical tubing, pipe and tube hollows for redraws, finished scaffolding, and finished rigid conduit.

Imports of these products are currently classifiable under the

following Harmonized Tariff Schedule of the United States ("HTSUS") subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90. Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.⁷

Amended Final Results of Review

After analyzing Borusan's comments, we have determined, in accordance with section 751(h) of Act and 19 CFR 351.224, that the Department made a ministerial error in the calculation for Borusan regarding the assignment of the sales month for U.S. and home market sales.⁸ In particular, the Department correctly stated in the final results that, consistent with our practice, we implemented certain changes to include home market sales starting on November 1, 2009; however, in so doing, we did not implement these changes to the U.S. sales data such that sales made in contemporaneous months in the home market and U.S. market would be matched for calculation of the weighted average dumping margin.⁹ Therefore, the Department finds that it made a clerical error when it inadvertently failed to subtract home market sales prices from U.S. sales prices made in contemporaneous months to calculate the weighted-average dumping margin. The Department also finds that U.S. Steel is correct that the margin program must be updated to ensure that the targeted dumping analysis is performed correctly.¹⁰ The Department has now corrected these errors and, consequently, Borusan's final weighted-average dumping margin.

In accordance with section 751(h) of the Act, we are amending the final results of the antidumping duty administrative review of circular welded carbon steel pipes and tubes from Turkey for the period May 1, 2010, through April 30, 2011. As a result of correcting the ministerial error discussed above, the following weighted-average dumping margin applies:

¹ See *Circular Welded Carbon Steel Pipes and Tubes from Turkey; Final Results of Antidumping Duty Administrative Review; 2010 to 2011*, 77 FR 72818 (December 6, 2012) (*Final Results*).

² The Borusan Group includes the following entities: Borusan Mannesmann Boru Sanayi ve Ticaret A.S., Borusan Birlisik Boru Fabrikalari San ve Tic., Borusan Istikbal Ticaret T.A.S., Borusan Gemlik Boru Tesisleri A.S., Borusan Ihracat Ithalat ve Dagitim A.S., Borusan Ithicat ve Dagitim A.S., and Tubeco Pipe and Steel Corporation. See *Final Results*, 77 FR at 72818.
