- (6) Consider the provisions of the American Indian Trust Fund Management Reform Act of 1994 providing for the termination of the Office of the Special Trustee for American Indians, and make recommendations to the Secretary regarding any such termination.

Comprehensive Evaluation

The Commission's purpose is to provide a thorough evaluation of the existing Indian trust management and trust administration system to support a reasoned and factually based set of options for potential management improvements. Grant Thornton LLP in partnership with Cherokee Services Group has been awarded a contract to perform a comprehensive evaluation of the Department's management of the trust administration system in support of the Commission's efforts.

This evaluation will depend on a nationwide information-gathering effort to produce meaningful recommendations. Over the next few months the management consultant will be contacting individuals, tribes, and Interior bureaus and offices to discuss current approaches to trust management and recommendations for improvement. The management consultant will also be assessing past trust reform efforts and capturing current initiatives already underway which contribute to a more effective trust management effort.

The management consultant will be attending the upcoming Indian Trust Commission's meeting in Oklahoma

City and will be available to speak with if you wish to provide input and recommendations. The Commission encourages individuals to take the opportunity to provide Grant Thornton with your perspective on how the trust administration system currently operates. To contact Grant Thornton directly, you may send an email to Trust.Commission@us.gt.com.
