

discretionary authority described in section 303(b)(2)(B) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), where fishing may be restricted in order to protect deep-sea corals from physical damage caused by fishing gear. Such zones would be located within the geographical range of the MSB fishery, as described in the FMP. However, management measures may apply to any MSA-regulated fishing activity within this range. Therefore, any measures pursued under this authority would likely apply to all federally managed fisheries within the geographic range of the MSB fisheries. The geographical range of this fishery includes the coastal and EEZ waters of the U.S. East Coast, with a core fishery management area from North Carolina to Maine.

- Designation of deep-sea corals as a component of EFH or as Habitat Areas of Particular Concern (HAPCs).
- Measures to minimize bycatch of deep-sea coral species.
- Special access programs to provide for continued fishing in or near deep-sea coral areas for specific fisheries or gear types.
- Exploratory fishing programs to allow for future development of new fisheries in a way that protects deep-sea corals.

The Mid-Atlantic Council is seeking comments on the scope of alternatives to be considered in this amendment, as well as general comments or concerns relating to deep-sea coral protections in the mid-Atlantic.

### Scoping Meetings

Amy Hapeman or Carrie Hubbard, (301)427–8401.

**SUPPLEMENTARY INFORMATION:** On May 11, 2012, notice was published in the **Federal Register** (77 FR 27717) that a request for a permit to conduct research on humpback whales had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

The Permit Holder has been issued a five-year scientific research permit to continue a long-term census of humpback whales in Prince William Sound and adjacent waters of Alaska. Researchers are authorized 200 takes annually to closely approach whales by vessel for counts, photo-identification and behavioral observation. The purpose of the work is to better define whale abundance, distribution, reoccurrence of old individuals vs. new individuals, feeding habits, vital rates, associations between animals, and sex of individual whales.

An environmental assessment (EA) was prepared analyzing the effects of the permitted activities on the human environment in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*). Based on the analyses in the EA, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on October 9, 2012.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: January 10, 2013.

Chief, Permits and Conservation Division,  
Office of Protected Resources, National  
Marine Fisheries Service.

### SUPPLEMENTARY INFORMATION:

*Abstract:* In accordance with 7 U.S.C. 26, the CFTC is posing survey questions to the public. Questions included in the survey will inquire as to how often the respondents would like to receive content from CFTC, the format in which the respondents would like to receive information, and the topics the information should cover.

The Office of Consumer Outreach develops campaigns to change consumer behaviors, so that consumers can better avoid fraud as defined under the Commodities Exchange Act. The first campaign from the Office of Consumer Outreach involves utilizing government and non-profit agency distribution methods to provide anti-fraud information to consumers. This survey will assist the Office of Consumer Outreach in determining how the government and non-profit agencies would like to receive the anti-fraud information from the CFTC.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on October 30, 2012.

*Burden statement:* The Commission estimates the burden of this collection of information as follows:

Regulations (17 CFR)	Estimated number of respondents	Total annual responses	Estimated number of hours per response	Annual burden
Survey .....	500	500	.25	125

There are no capital costs or operating and maintenance costs associated with

this collection. The proposed survey will consist of the following questions:
