Title: Servicing of Water Programs Loans and Grants.

OMB Control Number: 0572-0137.

Type of Request: Extension of a currently approved information collection.

Abstract: The Rural Utilities Service (RUS) Water and Environmental Programs (WEP) provide financing and technical assistance for development and operation of safe and affordable water supply systems and sewage and other waste disposal facilities. WEP provides loans, guaranteed loans and grants for water, sewer, storm water, and solid waste disposal facilities in rural areas and towns of up to 10,000 people. The recipients of the assistance covered by 7 CFR part 1782 must be public entities. These public entities can include municipalities, counties, special purpose districts, federally designated Indian tribes, and corporations not operated for profit, including cooperatives. The information, for the most part financial in nature, is needed by the Agency to determine if borrowers, based on their individual

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Pilot Project Assessing Economic Benefits of Marine Debris Removal.

OMB Control Number: None.

Form Number(s): NA.

Type of Request: Regular submission (request for a new information collection).

Number of Respondents: 1,320.

Average Hours Per Response: Primary survey, 20 minutes; non-response survey, 5 minutes.

Burden Hours: 410.

Needs and Uses: This request is for a new information collection.

Under the authority of the Marine Debris Research, Prevention, and Reduction Act (Marine Debris Act of 2012, 33 U.S.C. 1951 et seq., as amended by Title VI of Pub. L. 112-213), NOAA's Marine Debris Division (MDD) is conducting a pilot project

designed to assess the economic benefits to beach visitors of marine debris removal. The project will use a revealed preference valuation approach (a random utility travel cost model) to assess benefits associated with marine debris removal at selected beaches in Southern California. The MDD intends to conduct a mail survey of Orange County, California households in order to gather beach trip data required to estimate the model. The pilot project will provide information for use in assessing and prioritizing future efforts to reduce or remove marine debris. The project will also lay the groundwork for additional research related to economic benefits, providing information about the types of marine debris that beach visitors are concerned about and about potential economic modeling challenges.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Quarterly Summary of State and Local Government Tax Revenue.

OMB Control Number: 0607-0112.

Form Number(s): F-71, F-72, F-73.

Type of Request: Revision of a currently approved collection.

Burden Hours: 8,011.

Number of Respondents: 7,384.

Average Hours per Response: 16 and a half minutes.

Needs and Uses: The U.S. Census Bureau requests a revision to the Quarterly Summary of State and Local Government Tax Revenues to ensure accurate collection of information about state and local government tax collections. The revision consists of a new survey universe and modifications to the collection instrument for the F-73 portion of the program. Previously, the F-73 Form collected information on 11 types of tax revenues. That number is being reduced to three (general sales, personal income, and corporate income). The universe for the F-73 Form will also be reduced. With the change in the survey universe and collection instrument, the F-73 component is being renamed to the Quarterly Survey of Selected Non-Property Taxes from the current Quarterly Survey of Non-Property Taxes.

State and local government tax collections, amounting to nearly \$1.4 trillion annually, constitute approximately 43 percent of all governmental revenues. Quarterly measurement of, and reporting on, these fund flows provides valuable insight into trends in the national economy and that of individual states. Information collected on the type and quantity of taxes collected gives comparative data on how the various levels of government fund their public sector obligations.

The Census Bureau uses the three forms covered by this statement to collect state and local government tax data for this data series established in 1962. Tax collection data are used to measure economic activity for the Nation as a whole, as well as for comparison among the states. These data are also used in comparing the mix of taxes employed by individual states and in determining the revenue raising capacity of different types of taxes in different state-areas.

Key users of these data include the Bureau of Economic Analysis, the Federal Reserve Board, and the Department of Housing and Urban Development who rely on these data to provide the most current information on the financial status of state and local governments. These data are included in the quarterly estimates of the National Income and Product Accounts developed by the Bureau of Economic Analysis and the Department of Housing and Urban Development has used the property tax data as one of nine cost
