Needs and Uses: The information collection requirement is necessary to maintain information for operations to control and track access to secure networks, computer systems, and databases. Records are maintained on electronic storage media. The SSNs are used to allow Non-DoD individuals to create a user account within AMPS, and for AMPS to track those users. Additionally, the SSN is used for systems that limit system rights based on that number. For example, in the Defense Civilian Pay System (DCPS), a user is not allowed to access their pay

records, and that is managed through the SSN.

Affected Public: Individuals or Households

Annual Burden Hours: 209 hours

Number of Respondents: 2500

Responses per Respondent: 1

Average Burden per Response: 5 minutes

Frequency: On occasion

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

AMPS does not extract or interface with any other system to obtain PII information for users. All users are required to set-up a user account to use AMPS. AMPS is Common Access Card (CAC) enabled and DoD employees will access AMPS via their CAC. AMPS can extract user data from the Electronic Data Interchange-Personnel Identifier (EDI/PI) to help set-up the user account. Any user that is not issued a CAC will enter their information into AMPS to create a user account, and will be given a user ID and password to access the system.

The following are examples of information collected from users: User names; SSN (for individuals not in possession of a CAC such as newly hired Federal employees); U.S. citizenship status (i.e., U.S. Citizen, Foreign National, other); physical and electronic address; work telephone numbers; organization; office symbol; contractor/employee status; computer logon addresses, passwords, and user identification codes; type of access/permissions required; verification of need to know; dates of mandatory information assurance awareness training; and security clearance data. The system also captures details about programs, databases, functions, and sites accessed and/or used; dates and times of use; and information products created, received, or altered during use. The records may also contain details about access or functionality problems telephoned in for technical support along with resolution. For individuals who telecommute from home or a telework center, the records may contain the electronic address and telephone number at that location. For contractors, the system also contains the company name, contract number, and contract expiration date.

Notice of Availability for Sharpe Permit Relinquishment Project Environmental Assessment Finding of No Significant Impact

AGENCY: Defense Logistics Agency, DoD.

ACTION: Notice of Availability (NOA) for Sharpe Permit Relinquishment Project Environmental Assessment (EA) Finding of No Significant Impact (FONSI).

SUMMARY: On April 30, 2013, Defense Logistics Agency (DLA) published a NOA in the **Federal Register** (78 FR 25258-25259) announcing the publication of the Sharpe Permit Relinquishment Project EA. The EA was available for a 30-day public comment period which ended May 30, 2013. The EA was prepared as required under the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4331 et seq.). No comments were received during the comment period. This FONSI documents the decision of DLA to relinquish the permit for use and occupancy of the Sharpe Army Depot, currently known as Defense Distribution Depot San Joaquin, California—Sharpe (Sharpe Site) with a determination that no significant impacts on the human environment are associated with this decision.

FOR FURTHER INFORMATION CONTACT: Defense Distribution Depot San Joaquin, California—Sharpe Public Affairs Office, P.O. Box 960001, Stockton, CA 95296-0001, ATTN: Sharpe Permit Relinquishment Project. (209) 839-4226. DDJCPublicAffairsOffice@dla.mil.

SUPPLEMENTARY INFORMATION: DLA has occupied the Sharpe Site since 1990 under a Memorandum of Agreement with the U.S. Department of the Army (Army). DLA is proposing to move its operations from the Sharpe Site to its Defense Distribution Depot San Joaquin, California—Tracy (Tracy Site). Currently, DLA has co-existing operations at both facilities. Consolidation of operations at one facility would increase efficiency of DLA operations by reducing redundancies, thereby reducing operational costs.

Purpose and Need for Action: The purpose of the Sharpe Permit Relinquishment Project is to return the land and improvements at the Sharpe Site to the Army as DLA has proposed consolidation of its operations from the Sharpe Site to its nearby Tracy Site.
