

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-70060; File No. SR-C2-2013-027]

Self-Regulatory Organizations; C2 Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating To Amending Exchange Rules To Clarify Rules 6.1 and 6.32

July 30, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 17, 2013, C2 Options Exchange, Incorporated (the “Exchange” or “C2”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is proposing to change its rules to clarify when it will be open for trading along with when trading halts on underlying securities will inhibit trading on the Exchange. The text of the proposed rule change is available on the Exchange’s Web site (<http://www.c2exchange.com/Legal/>), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to change its rules to clarify when it will be open for trading along with when trading halts on underlying securities will inhibit trading on the Exchange. The Exchange is proposing to amend its rules to clarify that it will not be solely dependent upon the “primary market” when determining when to open and/or halt securities. Instead, the Exchange is proposing to clarify in its rules that it will be open if there is ample liquidity in the underlying market for that security. Generally, the national equity exchanges have similar core business hours.³ With this proposal, the Exchange is attempting to clarify in its rules that it can remain open to trade options during such business hours even if the “primary market” of the underlying securities is not open for business. The Exchange believes that the proposed changes will allow the markets [sic] to continue to function in an instance where all exchanges may not be open. In addition, the Exchange believes the proposed changes will bring greater clarity to its Trading Permit Holders (“TPHs”) regarding when the Exchange will be open for trading.

First, the Exchange is proposing to add language to Rule 6.1.01 to specify that the Exchange will not solely rely on the “primary market” of an underlying security to determine whether the Exchange may trade the option for such security. The Exchange believes that the proposed rule change will specify that if there is an ample market in the underlying security, the Exchange has the authority to trade the option even if the primary market is not open. The Exchange believes that allowing such discretion will create a lesser market disruption if the primary exchange is unable to open for trading.

Next, Exchange Rule 6.32 specifies when the Exchange may halt trading.⁴ Specifically, Rule 6.32(a) lists factors that may be considered by the Exchange when making that determination. Currently, Rule 6.32(a)(1) lists, as a factor in the decision with respect to options, “trading in the underlying security has been halted or suspended in the primary market.” The Exchange is proposing to add language to state,

instead of the “primary market,” that the Exchange may factor in if “trading in the underlying security has been halted or suspended in one or more of the markets trading the underlying security.”

The Exchange believes the proposed changes will allow the Exchange to trade options for underlying stocks even if that underlying listing market shall be unable to trade due to an emergency or other circumstance unique to that stock exchange. Making these proposed changes will allow the Exchange to trade options when an underlying security is trading on any national securities exchange regardless of where that security is formally listed. The proposed discretion attempts to create a lesser market disruption if a listing or primary market is unable to trade due to some circumstance. Because of the connectivity of the national securities exchanges today, the Exchange believes limiting its ability to trade options to when the primary market of the underlying security is open might hurt investors if some circumstance should render the primary exchange inoperable. In addition, the Exchange believes that the reference to “primary market” is ambiguous and has the potential to cause confusion. Thus, the Exchange believes by further clarifying the language, it is clearer when the Exchange will be open for trading.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁵ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁶ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁷ requirement that the rules of an exchange not be designed

³ See, e.g., New York Stock Exchange Rule 51(a) and Bats Exchange Rule 1.5(w) which describes regular trading hours as 9:30 a.m. through 4:00 p.m. Eastern.

to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes the proposed rule change protects investors by allowing trading in options as long as the underlying security is trading on another exchange. Instead of relying on the “primary market,” the proposed rule change attempts to clarify when options will trade on the Exchange to allow greater continuity in the marketplace. By allowing the Exchange to trade options whenever the underlying securities are trading, the proposed changes seek to create less of a disconnect if the “primary” market should be experiencing technical difficulties, an emergency, or situation that may inhibit it to be connected to the marketplace.

B. Self-Regulatory Organization's Statement on Burden on Competition

C2 does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe the proposed rule change imposes any burden on intramarket competition because it is applied to all TPHs. In addition, the Exchange does not believe the proposed rule change will impose any burden on intermarket competition as it will merely give the Exchange discretion to trade options when there is an ample market for the underlying security of those options. Thus, the Exchange believes the proposed rule change will promote competition by giving the Exchange the ability to trade options when the underlying security is trading anywhere, and, thus, helping the Exchange to better participate in the marketplace.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not:

- A. Significantly affect the protection of investors or the public interest;
- B. Impose any significant burden on competition; and

C. become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the

Act⁸ and Rule 19b-4(f)(6)⁹ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.
