

they review bluefish management measures established for the 2014 fishing year.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to M. Jan Saunders at the Mid-Atlantic Council Office, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: August 2, 2013.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Scientific and Statistical Committee (SSC) on August 20-21, 2013 to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This meeting will be held on Tuesday, August 20, 2013 at 8 a.m. and on Wednesday, August 21, 2013 at 8 a.m.

ADDRESSES:

Meeting Address: The meeting will be held at the Westin Waterfront Hotel, 425 Summer Street, Boston, MA 02210;

telephone: (617) 532-4600; fax: (617) 532-4650.

Council Address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT:

Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Tuesday, August 20, 2013—Wednesday, August 21, 2013

On Tuesday, the Scientific and Statistical Committee (SSC) will meet to consider information from the Council's Monkfish Plan Development Team (PDT) and develop acceptable biological catch (ABC) recommendations for monkfish (goosefish) for fishing years 2014-16; review stock assessment information, consider information provided by the Groundfish PDT and develop ABC recommendations for white hake for fishing years 2014-15; and review information provided by the Groundfish PDT and develop ABC recommendations for Gulf of Maine cod and American plaice for fishing years 2014-15, if needed, for rebuilding programs for these stocks. The committee may not develop all the ABC recommendations for these stocks at this meeting.

On Wednesday, the SSC will review stock assessment information and develop ABC recommendations for Georges Bank yellowtail flounder for fishing year 2014; review information from the Red Crab PDT and develop ABC recommendations for red crab for fishing years 2014-16; review information provided by the Groundfish PDT and provide guidance to the Council on whether the Gulf of Maine haddock ABC may be adjusted in response to possible movement of Georges Bank haddock into the Gulf of Maine. Other business may be discussed.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Publication of North American Datum of 1983 (2011) Epoch 2010.00, North American Datum of 1983 (PA2011) Epoch 2010.00 and North American Datum of 1983 (MA2011) Epoch 2010.00

AGENCY: National Geodetic Survey (NGS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Informational Notice

SUMMARY: The National Geodetic Survey (NGS) has finalized the publication of new realizations of three geodetic reference frames that have all carried the name of "the North American Datum of 1983" (or "NAD 83"). The new realizations are NAD 83 (2011) epoch 2010.00 [for the North America

and Caribbean tectonic plates], NAD 83 (MA11) epoch 2010.00 [for the Mariana tectonic plate] and NAD 83 (PA11) epoch 2010.00 [for the Pacific tectonic plate]. These three realizations supersede all previous NAD 83 realizations, including CORS96, NSRS2007, PACP00 and MARP00, for all epochs prior to 2010.00 (January 1, 2010).

This notice complements, but does not replace, the affirmation of NAD 83 as the official civilian horizontal datum for the United States surveying and mapping activities performed or financed by the Federal Government (**Federal Register** Notice, 54 FR 25318, June 14, 1989).

DATES: Individuals or organizations wishing to submit comments on the Publication of the North American Datum of 1983 (2011, MA11, PA11), epoch 2010.00, should do so by August 30, 2013.

ADDRESSES: Written comments should be sent to the attention of Neil D. Weston, Chief—Spatial Reference System Division, Office of the National Geodetic Survey, National Ocean Service, 1315 East West Highway, Silver Spring, Maryland 20910, fax 301-713-4324 or via email neil.d.weston@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Neil D. Weston, Chief—Spatial Reference System Division, Office of the National Geodetic Survey, National Ocean Service, 1315 East West Highway, Silver Spring, Maryland 20910, Phone: (301) 713-3191.

SUPPLEMENTARY INFORMATION:

Abstract

The National Geodetic Survey (NGS), the federal agency responsible for defining, maintaining and providing access to the National Spatial Reference System (NSRS), has adopted a new realization for each of the three geodetic reference frames which carry the name "NAD 83". The new NAD 83 realizations (2011, MA11, and PA11, all at epoch 2010.00) were derived from a simultaneous reprocessing of Global Navigation Satellite System (GNSS) data from the NGS-managed Continuously Operating Reference Station (CORS) network and a selected number of International GNSS Service (IGS) global tracking stations in August 2011. To ensure spatial consistency of the NSRS, coordinates for all current GNSS-derived control stations (passive marks) were optimally aligned with the CORS coordinates in a nationwide adjustment completed in June 2012.
