NUCLEAR REGULATORY COMMISSION

10 CFR Part 170

[NRC–2012–0211]

RIN 3150–AJ19

Revision of Fee Schedules; Fee Recovery for Fiscal Year 2013; Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Correcting amendment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) published a final rule in the *Federal Register* on July 1, 2013 (78 FR 39461), amending the licensing, inspection, and annual fees charged to its applicants and licensees. The final rule inadvertently removed from a fee category description the word “one,” which is necessary to indicate the number of government-to-government consents included in this fee category. This document corrects the error.

DATES: *Effective Date:* This correction is effective on September 9, 2013.

FOR FURTHER INFORMATION CONTACT:

Arlette Howard, Office of the Chief Financial Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–1481, email: Arlette.Howard@nrc.gov.

SUPPLEMENTARY INFORMATION: The 2013 final fee rule was published in the *Federal Register* on July 1, 2013 (78 FR 39461), with an effective date of August 30, 2013. The final rule inadvertently removed the word “one” from the description for fee category 15.G. in § 170.31 of Title 10 of the *Code of Federal Regulations*. The word “one” is necessary to indicate the number of government-to-government consents included in this fee category. This document corrects the error.

Rulemaking Procedure

Because this amendment corrects an error to the NRC’s regulations, the Commission finds that the notice and comment provisions of the Administrative Procedure Act are unnecessary and is exercising its authority under 5 U.S.C. 553(b)(3)(B) to publish this amendment as a final rule. This amendment does not require action by any person or entity regulated by the NRC. Also, the final rule does not change the substantive responsibilities of any person or entity regulated by the NRC.

In addition to the fee shown, an applicant may be assessed an additional fee for sealed source and device evaluations as shown in fee categories 9.A. through 9.D.

- I. Background and Purpose
- II. Final Action
- III. Statutory and Executive Order Reviews

I. Background and Purpose

On February 14, 2013 (78 FR 10583), EPA published a Notice of Proposed Rulemaking (NPR) for the State of Massachusetts. The NPR proposed approval of Massachusetts' January 31, 2008 SIP submittal that demonstrates that the state has adopted air pollution control strategies that represent RACT for purposes of compliance with the 1997 8-hour ozone standard. In addition, the NPR proposed approval of two revised regulations (and associated definitions) submitted by Massachusetts as a SIP revision on June 1, 2010: 310 CMR 7.18(8), “Solvent Metal Degreasing;” and 310 CMR 7.24(6), “Dispensing of Motor Vehicle Fuel.”

The specific details of the January 31, 2008 RACT demonstration and the two revised regulations and the rationale for EPA's proposed action are explained in the NPR and will not be restated here. No public comments were received on the NPR.

II. Final Action

EPA is approving the RACT certification in Massachusetts' January 31, 2008 SIP submittal that demonstrates that the state has adopted air pollution control strategies that represent RACT for purposes of compliance with the 1997 8-hour ozone standard. EPA previously approved other portions of Massachusetts' January 31, 2008 SIP submittal on August 22, 2012 (77 FR 50595), and Massachusetts withdrew certain other portions of the
