(4) As specified in FAR 15.403-3(a)(4), an offeror who does not comply with a requirement to submit data that the U.S. Contracting Officer has deemed necessary to determine price reasonableness or cost realism is ineligible for award unless the head of the contracting activity determines that it is in the best interest of the Government to make the award to that offeror.

SUPPLEMENTARY INFORMATION:

I. Background

This interim rule revises DFARS 237.102-79 to implement section 938 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2012 regarding private sector notification of in-sourcing actions.

II. Discussion and Analysis

Section 938 of the NDAA requires the Secretary of Defense to establish procedures for the timely notification of any contractor who performs a function that the Secretary plans to convert (in-source) to performance by DoD civilian employees. A written notification will be provided to affected incumbent contractors within 20 business days of the contracting officer's receipt of a decision by the cognizant component in-sourcing program official to in-source services. The notification will summarize why the services are being insourced and must be coordinated with the component's in-sourcing program official. A copy of the notification will be provided to the congressional defense committees.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This

rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD does not expect this interim rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because it impacts only those incumbent contractors for which an in-sourcing determination has been made. The DFARS change relates solely to a notification requirement of a decision, made outside of acquisition regulatory channels, to convert a contracted function to performance by DoD civilian employees. The impact of this interim rule will be to heighten the awareness of impacted firms. An initial regulatory flexibility analysis has been performed and is summarized as follows:

This action implements section 938 of the National Defense Authorization Act (NDAA) for Fiscal Year 2012 regarding private sector notification of in-sourcing actions. Section 938 of the NDAA requires the Secretary of Defense to establish procedures for the timely notification of any contractor that performs a function that the Secretary plans to convert (in-source) to performance by DoD civilian employees and to also provide the congressional defense committees a copy of any such notification.

The interim rule will apply to all small business concerns that have contracts with DoD agencies that are being in-sourced. The most recent data from the DoD Office of Small Business Programs for fiscal years 2009 thru 2012 shows an average of 59,362 small business concerns have contracts with DoD. The degree of potential impact of this rule to those concerns, however, is unknown since there is no way to gauge in advance the extent of any future in-sourcing decisions.

There are no projected reporting, recordkeeping, and other compliance requirements associated with this rule. The rule does not duplicate, overlap, or conflict with any other Federal rules. DoD has not identified any alternatives that would fulfill the requirements of the statute and reduce impact on small businesses. Any impact of the rule is expected to be beneficial to small businesses, by giving them timely notification of planned in-sourcing actions.

DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities. DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in

accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C 610 (DFARS Case 2012–D036), in correspondence.

V. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

VI. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense, pursuant to 41 U.S.C. 1707(d), that urgent and compelling reasons exist to promulgate this rule on an interim basis without prior opportunity for public comment. This action is necessary to implement section 938 of the National Defense Authorization Act (NDAA) for Fiscal Year 2012, which requires DoD to provide notification to the private sector of in-sourcing action determinations. Section 938 requires the Secretary of Defense to establish procedures for the timely notification of any incumbent contractor who performs a function that the Secretary plans to convert (in-source) to performance by DoD civilian employees. The notification must also be provided to the congressional defense committees. In-sourcing decisions may have a significant economic effect on firms that have contracts with DoD. Firms that are not notified on a timely basis of an in-sourcing determination that impacts them have less time to prepare for lost revenue and to make staffing adjustments. The rule, in addition to ensuring that there will be timely notification to affected contractors, should help facilitate a more seamless transition in services when implementing in-sourcing requirements. Nonetheless, pursuant to 41 U.S.C. 1707 and FAR 1.501–3(b), DoD will consider public comments received in response to this interim rule in the formation of the final rule.
