Abstract: This survey is being conducted as a part of an evaluation of OJJDPs JJRRI Demonstration Program. In 2012, OJJDP commissioned a 36-month evaluation of the Juvenile Justice Reform and Reinvestment Initiative (JJRRI) Demonstration Program. The JJRRI Demonstration Program provides funds to three states and/or local administering agencies for juvenile justice to develop and implement an integrated set of evidence-based and cost-measurement tools that will enable them to make informed decisions about resources and services for juvenile-justice involved youth.

The Urban Institute (UI) is conducting a comprehensive evaluation of JJRRI to determine whether the initiative has had the intended effect of improving program- and cost-effectiveness. As part of this evaluation, UI will conduct two web-based surveys with key stakeholders at each site to measure changes in attitudes towards evidence-based practices as a result of the JJRRI Demonstration Program.

The main objective of this web-based survey is to measure juvenile justice stakeholder—agency leadership and staff—support for use and knowledge of Evidence-Based Practice's in the three sites selected to be JJRRI Demonstration Programs. Two surveys will be conducted by UI to measure stakeholder support and knowledge of evidence-based practices. The first survey will assess baseline attitudes of EBPs. The second survey will measure the extent to which context and attitudes change through the initiative.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that 480 respondents will complete a 20 minute questionnaire.

(6) *An estimate of the total public burden (in hours) associated with the collection:* Approximately 160 hours.
