

FOR FURTHER INFORMATION CONTACT: Mr. Russell Galipeau, Superintendent, Channel Islands National Park, 1901 Spinnaker Dr., Ventura, CA 93001; *russell_galipeau@nps.gov*; (805) 658-5702.

Mr. Greg Jarvis, Project Manager, NPS Denver Service Center, 12795 W. Alameda Parkway, Lakewood, CO 80228, (303) 969-2263.

SUPPLEMENTARY INFORMATION: The park includes five remote islands spanning 2,228 square miles of land and sea. Updating the park's 1995 general management plan (GMP) is needed to provide clear direction for resource preservation and visitor experience over the next 20 to 40 years. The updated GMP will provide a framework for proactive decision making, which will allow managers to effectively address future opportunities and problems, such as resource, operational, administrative, and visitor use issues facing the park. The updated GMP will serve as the basis for future detailed management documents, such as five-year strategic plans and implementation plans. In addition, the wilderness study component will determine if eligible portions of the park should be proposed for wilderness designation.

The following issues are the key topics addressed by the GMP/ Wilderness Study:

- *Access to the islands.* Access across the sea to the islands is expensive and difficult. The islands are only accessible by park concessioner boats and planes or private boats. The issue this plan needs to answer is whether more opportunities for public access should be provided to the islands.

- *Access on Santa Rosa Island.* This issue addresses the question of the level and type of access that should be provided to visitors. Santa Rosa is a relatively large island. When most visitors are dropped off at Bechers Bay they are now faced with walking long distances to see the 53,000-acre island.

- *Type and level of recreation development that is appropriate on the islands.* This issue addresses the question of the appropriate balance of developments that should be provided for visitors (i.e., general types and intensities of development needed to provide for public enjoyment of the park, while minimizing impacts on park resources). The updated GMP will also address \$14.5 million of deferred maintenance needs and will consider additional opportunities to provide commercial services to improve the visitor experience on the islands.

- *Providing sustainable park operations.* This issue focuses on

whether existing administrative and operational facilities are functioning effectively and efficiently, and meeting the needs of both park staff and visitors. Managing aging, temporary employee housing on the islands is one key issue to resolve.

- *Designation of wilderness.* To fulfill the requirements of the park's enabling legislation and the Wilderness Act of 1964, the NPS must determine whether any lands in the park should be proposed for inclusion in the National Wilderness Preservation System.

Decision Process: Following due consideration of all comments received, a Final EIS will be prepared. As a delegated EIS, the official responsible for approval of the final GMP is the Regional Director, Pacific West Region. Subsequently the official responsible for implementing the approved GMP and for monitoring results is the Superintendent, Channel Islands National Park. In addition, the results of the wilderness study will be forwarded to the NPS Director for consideration, who then may forward to Secretary of the Interior, who may concur or revise the wilderness proposal, and in turn may forward the recommendation to Congress.

Dated: September 13, 2013.

Patricia L. Neubacher,

Acting Regional Director, Pacific West Region.
