OFFICE OF MANAGEMENT AND BUDGET

Technical Support Document: Technical Update of the Social Cost of Carbon for Regulatory Impact Analysis Under Executive Order No. 12866

AGENCY: Office of Management and Budget, Executive Office of the President.

ACTION: Notice of availability and request for comments.

SUMMARY: The Office of Management and Budget (OMB) requests comments on the Technical Support Document entitled *Technical Update of the Social Cost of Carbon for Regulatory Impact Analysis Under Executive Order 12866*, available at: <http://www.whitehouse.gov/sites/default/files/omb/assets/inforeg/technical-update-social-cost-of-carbon-for-regulator-impact-analysis.pdf>. The Social Cost of Carbon (SCC) is used to estimate the value to society of marginal reductions in carbon emissions. This Technical Support Document explains the derivation of the SCC estimates using three peer reviewed integrated assessment models and provides updated values of the SCC that reflect minor technical corrections to the estimates released in May of this year.

OMB requests that comments be submitted electronically to OMB by January 27, 2014 through www.regulations.gov.

DATES: To ensure consideration, comments must be in writing and received by January 27, 2014.

ADDRESSES: Submit comments by one of the following methods:

- www.regulations.gov: Direct comments to Docket ID OMB-OMB-2013-0007.
- Email: SCC@omb.gov.

- Fax: (202) 395-7285.

• Mail: Office of Information and Regulatory Affairs, Office of Management and Budget, Attn: Mabel Echols, NEOB, Room 10202, 725 17th Street NW., Washington, DC 20503. To ensure that your comments are received, we recommend that comments be electronically submitted.

All comments and recommendations submitted in response to this notice will be made available to the public. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. The www.regulations.gov Web site is an "anonymous access" system, which means OMB will not know your identity or contact information unless you provide it in the body of your comment.

For further information, contact: Mabel Echols, Office of Information and Regulatory Affairs, Office of Management and Budget, NEOB, Room 10202, 725 17th Street NW., Washington, DC 20503. Telephone: (202) 395-3741.

SUPPLEMENTARY INFORMATION: Rigorous evaluation of costs and benefits is a core tenet of the rulemaking process. It is particularly important in the area of climate change. The current estimate of the social cost of CO₂ emissions (SCC) has been developed over many years, using the best science available, and with input from the public.

In February 2010, after considering public comments on interim values that agencies used in a number of rules, an interagency group of technical experts, coordinated by OMB and the Council of Economic Advisers (CEA), released improved SCC estimates. The interagency group estimated the improved SCC values using the most widely cited climate economic impact models. Those climate impact models, known as integrated assessment models, were developed by outside experts and published in the peer-reviewed literature. Recognizing that the models underlying the SCC estimates would evolve and improve over time as scientific and economic understanding increased, the Administration committed in 2010 to regular updates of these estimates.

In May of this year, after all three of the underlying models were updated and used in peer-reviewed literature, and agencies received public comments urging them to update their estimates, the interagency group released revised SCC values. The May 2013 estimates reflect values that are similar to those used by other governments, international institutions, and major

corporations. Those estimates have been available for public comment in several proposed rulemakings since May, and agencies have already received comments that are under review.

The revised Technical Support Document that was issued in November, 2013 is based on the best available scientific information on the impacts of climate change. We will continue to refine the SCC estimates to ensure that agencies are appropriately measuring the social cost of carbon emissions as they evaluate the costs and benefits of rules.

Request for Comment: OMB requests comments on all aspects of the TSD (<http://www.whitehouse.gov/sites/default/files/omb/inforeg/for-agencies/Social-Cost-of-Carbon-for-RIA.pdf>) and its use of integrated assessment models (IAMs) to estimate SCC values to support agency regulatory impact analyses. We are particularly interested in comments on the following topics:

- The selection of the three IAMs for use in the analysis and the synthesis of the resulting SCC estimates, as outlined in the 2010 TSD the model inputs used to develop the SCC estimates, including economic growth, emissions trajectories, climate sensitivity and intergenerational discounting;
- how the distribution of SCC estimates should be represented in regulatory impact analyses; and
- the strengths and limitations of the overall approach (see also the February, 2010 TSD available at <http://www.whitehouse.gov/sites/default/files/omb/inforeg/for-agencies/Social-Cost-of-Carbon-for-RIA.pdf>).

OMB is not requesting comments on the three peer reviewed IAMs themselves; rather we are requesting comments on their use in developing the SCC estimates.

Howard Shelanski,

Administrator, Office of Information and Regulatory Affairs.

BILLING CODE P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-2014-004]

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before December 26, 2013. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memoranda that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting Records Management Services (ACNR) using one of the following means:

Mail: NARA (ACNR), 8601 Adelphi Road, College Park, MD 20740-6001.
Email: request.schedule@nara.gov.
FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency that submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Margaret Hawkins, Director, Records Management Services (ACNR), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-1799. Email: request.schedule@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval. These schedules provide for the timely transfer

into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously-approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless specified otherwise. An item in a schedule is media neutral when the disposition instructions may be applied to records regardless of the medium in which the records are created and maintained. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is limited to a specific medium. (See 36 CFR 1225.12(e).)

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the government and of private people directly affected by the government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Schedules Pending

1. Department of the Army, Agency-wide (N1-AU-10-99, 1 item, 1 temporary item). Master files of an electronic information system used to order internal forms and publications.
2. Department of the Army, Agency-wide (N1-AU-11-25, 1 item, 1

temporary item). Master files of an electronic information system used to control inventories of supplies.

3. Department of Energy, Agency-wide (DAA-0434-2013-0001, 4 items, 4 temporary items). Records relating to the compensation of individuals for illnesses caused by exposure to radiation, including personnel claim records, working files, control files, and administrative files.

4. Department of Health and Human Services, Centers for Medicare & Medicaid Services (DAA-0440-2013-0011, 2 items, 2 temporary items). Self-attestations and decision letters for provider-based healthcare entities.

5. Department of Justice, Community Relations Service (DAA-0379-2013-0001, 11 items, 5 temporary items). Records include files of the Deputy Director, Associate Director, and Regional Director; media affairs files; conference files; work plans; and non-significant regional case files. Proposed for permanent retention are agency policy files, history files including photographs and video recordings, significant regional case files, and records of the Director's special initiatives.

6. Department of Justice, Drug Enforcement Administration (N1-170-12-3, 1 item, 1 temporary item). Accountable personal property files.

7. Department of the Navy, United States Marine Corps (DAA-0127-2013-0007, 1 item, 1 temporary item). Master files of an electronic information system used to control access to Marine Corps installations.

8. Department of the Navy, United States Marine Corps (DAA-0127-2013-0020, 1 item, 1 temporary item). Master files of an electronic information system used to manage the food and hospitality services of the Marine Corps.

9. Department of State, Bureau of Near Eastern Affairs (DAA-0059-2012-0010, 8 items, 7 temporary items). Records of the Middle East Partnership Initiative including correspondence, grant application and awarding records, and planning records. Proposed for permanent retention are published fact sheets.

10. Commission on Long Term Care, Agency-wide (N1-220-14-1, 6 items, 3 temporary items). Management and operation records including working files, financial records, and Web site design records. Proposed for permanent retention are mission-related records including the final report, Web site, and video recordings of hearings.

11. Consumer Financial Protection Bureau, Office of Enforcement (N1-587-12-8, 9 items, 8 temporary items). Investigation, action, and referral

records. Proposed for permanent retention are significant enforcement actions.

Dated: November 20, 2013.

Laurence Brewer,

Director, National Records Management Program.

BILLING CODE 7515-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-498, and 50-499; NRC-2010-0375]

STP Nuclear Operating Company; South Texas Project

AGENCY: Nuclear Regulatory Commission.

ACTION: Final supplement 48 to generic environmental impact statement for license renewal of nuclear plants; issuance.

SUMMARY: Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) has published the final, plant-specific, Supplement 48 to the "Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS)," NUREG-1437 (ML13322A890), regarding the renewal of operating license NPF-76 and NPF-80 for an additional 20 years of operation for the South Texas Project (STP). The STP site is located in Bay City, Texas. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

ADDRESSES: Please refer to Docket ID NRC-2010-0375 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this action by the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2010-0375. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may access publicly-available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS,

please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4837, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this notice (if that document is available in ADAMS) is provided the first time that a document is referenced. Additional information regarding accessing materials related to this action is under Section II, Document Availability heading in the **SUPPLEMENTARY INFORMATION** section of this document.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Tam Tran, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-3617; email: Tam.Tran@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC received an application, dated October 25, 2010 (ML103360179), from STP Nuclear Operating Company (STPNOC), filed pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, and Part 54 of Title 10 of the *Code of Federal Regulations* (10 CFR), to renew the operating license for STPNOC. Renewal of the license would authorize the applicant to operate the facility for an additional 20-year period beyond the period specified in the current operating license. The current operating licenses for STPNOC, Units 1 and 2 (NPF-76 and NPF-80), expires on August 20, 2027, and December 15, 2028.

The final Supplemental Environmental Impact Statement (SEIS) is being issued as part of the NRC's process to decide whether to issue renewed licenses to STPNOC, pursuant to 10 CFR Part 54. The final SEIS was prepared in compliance with the *National Environmental Policy Act of 1969*, as amended (NEPA), and the NRC's regulations for implementing NEPA in 10 CFR Part 51. In the final SEIS, the NRC staff assessed the potential environmental impacts from the operation, refurbishment, and decommissioning of the proposed STP license renewal. The NRC staff assessed the impacts of the proposed action on land use, historic and cultural resources, air quality, geology and soils, water resources, ecological resources, transportation, public and occupational health, waste management, socioeconomics, and environmental

justice. In preparing this final SEIS, the NRC staff also reviewed, considered, evaluated, and addressed the public comments received during the scoping process and on the draft SEIS.

In addition to the proposed action, the NRC staff considered a reasonable range of alternatives, including the no-action alternative. Under the no-action alternative, the NRC would deny STPNOC's request for renewed operating licenses for the STP units. Other alternatives the NRC staff considered include: (1) natural gas-fired combined cycle (NGCC); (2) new nuclear; (3) supercritical coal; (4) combination alternative (NGCC, wind, and energy conservation and efficiency); (5) purchased power; (6) offsite new nuclear-, gas-, or coal-generation; (7) energy conservation and energy efficiency; (8) wind power; (9) solar power; (10) hydroelectric power; (11) ocean wave and current energy; (12) geothermal power; (13) municipal solid waste; (14) biomass; (15) biofuels; (16) oil-fired power; (17) fuel cells; and (18) delayed retirement. These alternatives, except for the NGCC, new nuclear, supercritical coal, combination alternative, and purchased power were eliminated from further analysis because of technical, resource availability, or current commercial limitations that would not justify inclusion in the range of reasonable alternatives.

As discussed in Section 9.4 of the final supplement, the NRC staff determined that the adverse environmental impacts of renewed licenses for STPNOC are not great enough to deny this option for energy planning decision-makers. This recommendation is based on: (1) the analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by STPNOC; (3) consultation with Federal, State, local, and tribal government agencies; (4) the NRC staff's own independent environmental review; and (5) consideration of public comments received during the scoping process and on the draft SEIS.

II. Document Availability

Documents related to this notice are available on the NRC's Plant Application for Licenses Renewal Web site at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/south-texas-project.html>. The final SEIS for the proposed STP project may also be accessed on the internet at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/> and selecting "Supplement 48."
