Department of the Navy

Notice of Intent To Prepare an Environmental Impact Statement for Land-Water Interface and Service Pier Extension, Naval Base Kitsap Bangor, Silverdale, WA and To Announce Public Scoping Meetings

AGENCY: Department of the Navy, DoD. **ACTION:** Notice.

SUMMARY: Pursuant to section (102)(2)(c) of the National Environmental Policy Act (NEPA) of 1969 and the regulations implemented by the Council on Environmental Quality (CEQ) (40 CFR parts 1500–1508), the Department of the Navy (DoN) announces its intent to prepare an Environmental Impact Statement (EIS) to evaluate the potential environmental impacts associated with two actions: (1) The proposed construction and operation of Land-

Water Interface (LWI) structures and (2) the proposed construction and operation of a Service Pier Extension (SPE) on Naval Base (NAVBASE) Kitsap Bangor.

The DoN proposes two projects on NAVBASE Kitsap Bangor waterfront to: (1) Comply with Department of Defense (DoD) directives to protect Navy OHIO Class ballistic missile submarines (TRIDENT submarines) from increased and evolving threats and to prevent the seizure, damage, or destruction of military assets and (2) eliminate deployment constraints and improve maintenance of SEAWOLF Class submarines.

The first proposed action includes constructing two LWI structures and modifying the existing floating Port Security Barrier (PSB) system for improved protection of TRIDENT submarines. Construction of the LWI structures would enclose the Navy Waterfront Restricted Area (WRA) on NAVBASE Kitsap Bangor by constructing security barriers in the intertidal zone at the Bangor waterfront. Construction is anticipated to take two years. Construction activities occurring in the water during the first year may involve pile driving and would be conducted July 2015 through February 2016. Once the pile driving is complete, activities other than pile driving may occur in the water up until February 2017.

The second proposed action would relocate SEAWOLF Class submarines SSN-21 (SEAWOLF) and SSN-22 (CONNECTICUT) from NAVBASE Kitsap Bremerton to join SSN-23 (JIMMY CARTER) at NAVBASE Kitsap Bangor. The existing Service Pier would be extended and land based associated support facilities would be constructed including a Maintenance Support Facility, and utility upgrades including an emergency power generator, and a parking lot. Shore based facilities constructed on the pier would include a Pier Services and Compressor Building and a pier crane. Construction would occur from April 2015 to March 2017. Construction in the water is planned for July through February of each year, beginning in July 2015 and concluding in February 2017. The relocation would result in the consolidation of berthing and support for the SEAWOLF Class submarines at NAVBASE Kitsap Bangor.

NAVBASE Kitsap is the action proponent. The LWI construction and PSB modifications are for the DoN's Strategic Systems Programs (SSP), which directs research, development, manufacturing, test, evaluation, and operational support of the TRIDENT
