Certain Oil Country Tubular Goods From the Republic of Turkey: Preliminary Negative Countervailing Duty Determination and Alignment of Final Determination With Final Antidumping Determination

AGENCY: Enforcement and Compliance, formerly Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) preliminarily determines that countervailable subsidies are not being provided to producers and exporters of certain oil tubular goods (OCTG) from the Republic of Turkey (Turkey). The period of investigation is January 1, 2012, through December 31, 2012. Interested parties are invited to comment on this preliminary determination.

DATES: Effective December 23, 2013.

FOR FURTHER INFORMATION CONTACT: Jennifer Meek, Joseph Shuler, or Shane Subler, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-2778, (202) 482-1293 and (202) 482-0189, respectively.

SUPPLEMENTARY INFORMATION:

Alignment of Final Countervailing Duty (CVD) Determination With Final Antidumping Duty (AD) Determination

On the same day the Department initiated this CVD investigation, the Department also initiated AD investigations of OCTG from Turkey and several other countries.¹ The CVD investigation and the AD investigations cover the same merchandise. On December 16, 2013, in accordance with section 705(a)(1) of the Tariff Act of 1930, as amended (Act), alignment of the final CVD determination with the final AD determination of OCTG from Turkey was requested by the petitioner.² Therefore, in accordance with section 705(a)(1) of the Act and 19 CFR

351.210(b)(4), we are aligning the final CVD determination with the final AD determination. Consequently, the final CVD determination will be issued on the same date as the final AD determination, which is currently scheduled to be issued no later than April 29, 2014, unless postponed.

Scope of the Investigation

The merchandise covered by the investigation is certain oil country tubular goods (OCTG), which are hollow steel products of circular cross-section, including oil well casing and tubing, of iron (other than cast iron) or steel (both carbon and alloy), whether seamless or welded, regardless of end finish (*e.g.*, whether or not plain end, threaded, or threaded and coupled) whether or not conforming to American Petroleum Institute (API) or non-API specifications, whether finished (including limited service OCTG products) or unfinished (including green tubes and limited service OCTG products), whether or not thread protectors are attached. The scope of the investigation also covers OCTG coupling stock. For a complete description of the scope of the investigation, *see* Appendix 1 to this notice.

Methodology

The Department is conducting this CVD investigation in accordance with section 701 of the Act. For a full description of the methodology underlying our preliminary conclusions, *see* the Preliminary Decision Memorandum.³ The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at <http://iaaccess.trade.gov>, and is available to all parties in the Central Records Unit, Room 7046 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic

versions of the Preliminary Decision Memorandum are identical in content.

We have calculated *de minimis* CVD rates for each individually investigated producer/exporter of subject merchandise. Consistent with section 703(b)(4)(A) of the Act, we have disregarded these rates and preliminarily determine that no countervailable subsidies are being provided to the production or exportation of the subject merchandise in Turkey. The "all others" rate is also *de minimis*. Consequently, consistent with section 703(b)(4)(A) of the Act, we similarly have disregarded this rate.

Preliminary Determination and Suspension of Liquidation

We preliminarily determine the countervailable subsidy rates to be:

Company	Subsidy rate
Borusan Istikbal Ticaret and Borusan Mannesmann Boru Sanayi.	0.37 percent (<i>de minimis</i>).
Tosyali Dis Ticaret A.S., Tosçelik Profil ve Sac Endustrisi A.S., Tosyali Elektrik Enerjisi Toptan Satış İhr. A.Ş., nd Tosyali Holding A.Ş.	0.88 percent (<i>de minimis</i>).
All Others	0.63 percent (<i>de minimis</i>).

Because we have preliminarily determined that the CVD rates in this investigation are *de minimis*, we will not direct U.S. Customs and Border Protection to suspend liquidation of entries of OCTG from Turkey.

Disclosure and Public Comment

The Department intends to disclose to interested parties the calculations performed in connection with this preliminary determination within five days of its public announcement.⁴ Interested parties may submit case and rebuttal briefs. For a schedule of the deadlines for filing case briefs, rebuttal briefs, and hearing requests, *see* the Preliminary Decision Memorandum.

This determination is issued and published pursuant to sections 703(f) and 777(i) of the Act.

Dated: December 16, 2013.

Ronald K. Lorentzen,
Acting Assistant Secretary for Enforcement and Compliance.

On the same day the Department initiated this CVD investigation, the Department also initiated AD investigations of OCTG from India and several other countries.¹ The CVD investigation and the AD investigations cover the same merchandise. On December 16, 2013, in accordance with section 705(a)(1) of the Tariff Act of 1930, as amended (Act), alignment of the final CVD determination with the final AD determination of OCTG from India was requested by the petitioner.² Therefore, in accordance with section 705(a)(1) of the Act and 19 CFR 351.210(b)(4), we are aligning the final CVD determination with the final AD determination. Scope of the Investigation
