SUPPLEMENTARY INFORMATION: The ICR seeks to maintain PRA authority for the information collection requirements specified in regulations 29 CFR 1910.7, Definition and Requirements for a Nationally Recognized Testing Laboratory (NRTL), and to revise the collection by adding optional-use standardized forms to facilitate and to simplify the information collection process. A number of OSHA standards contain requirements for equipment, products, or materials. These standards often specify that a covered employer use only equipment, products, or materials tested or approved by a NRTL. This requirement helps to ensure an employer uses safe equipment, products, or materials in complying with the standards. Accordingly, the OSHA promulgated a regulation to specify procedures that an organization must follow to apply for and to maintain OSHA recognition to test and to certify equipment, products, or material for this purpose. The optional forms correspond to the application, expansion, and renewal processes defined in the NRTL Program. The Occupational Safety and Health Act authorizes the information collection provisions. *See* 29 U.S.C. 651 and 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control

Number 1218–0147. The current approval is scheduled to expire on December 31, 2013; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 2, 2013 (78 FR 60898).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section by January 30, 2014.
