This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Title of Collection: Special Education-Individual Reporting on Regulatory Compliance Related to the Personnel Development Program's Service Obligation and the Government Performance and Results Act (GPRA)

OMB Control Number: 1820-0686

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Private sector, Individuals or households

Total Estimated Number of Annual Responses: 29,600

Total Estimated Number of Annual Burden Hours: 12,269

Abstract: The data collection under this revision and renewal request is governed by the "Additional Requirements" section of the Personnel Preparation to Improve Services and Results for Children with Disabilities—Combined Priority for Personnel Preparation and Preparation of Leadership Personnel notice, published in the **Federal Register** on March 25, 2005 and by Sections 304.23–304.30 of the June 5, 2006, regulations that implement Section 662 (h) of the IDEA Amendments of 2004, which require that individuals who receive a scholarship through the Personnel Development Program funded under the Act subsequently provide special education and related services to children with disabilities for a period of two years for every year for which assistance was received. Scholarship recipients who do not satisfy the requirements of the regulations must repay all or part of the cost of assistance, in accordance with regulations issued by the Secretary. These regulations implement requirements governing, among other things, the service obligation for scholars, reporting requirements by grantees, and repayment of scholarships by scholars. In order for the federal government to ensure that the goals of the program are achieved, certain data collection, recordkeeping, and documentation are necessary. In addition this data collection is governed by the Government Performance Results Act (GPRA). GPRA requires Federal agencies to establish performance measures for all programs, and the Office of Special Education Programs' (OSEP) has established performance measures for the Personnel Development Program. Data collection from scholars who have received scholarships under the Personnel Development Program is necessary to evaluate these measures.
