Title: Study of MHA Program Performance.

OMB Control Number: 1505–0249

Abstract: Pursuant to its authority under the Emergency Economic Stabilization Act (EESA) of 2008 (Pub.L. 110–343), the Department of the Treasury established the Making Home Affordable Program (MHA), a voluntary foreclosure prevention program, to help stabilize the housing market. Under MHA, the Department provides financial incentives to servicers, investors and homeowners to facilitate loan modifications and other foreclosure alternatives. MHA includes, among other things, the Home Affordable

Modification Program (HAMP). HAMP is designed to reduce each qualifying homeowner's first lien mortgage payments to a more affordable level. The Department, through its financial agent, plans to conduct a survey of homeowners who have received mortgage modifications under HAMP, in order to study the performance of HAMP modifications. The survey will collect information about reasons for loss of good standing and the homeowner's experience during the HAMP modification process.
