

Radwaste System Consistency Changes” (LAR 13–32).

For the reasons set forth in Section 3.1 of the NRC staff Safety Evaluation, which can be found at ADAMS Accession Number ML13354B798, the Commission finds that:

A. The exemption is authorized by law;

B. the exemption presents no undue risk to public health and safety;

C. the exemption is consistent with the common defense and security;

D. special circumstances are present in that the application of the rule in this circumstance is not necessary to serve the underlying purpose of the rule;

E. the special circumstances outweigh any decrease in safety that may result from the reduction in standardization caused by the exemption; and

F. the exemption will not result in a significant decrease in the level of safety otherwise provided by the design.

2. Accordingly, the licensee is granted an exemption to the provisions of 10 CFR Part 52, Appendix D, Section III.B, to allow deviations from the certified Design Control Document Tier 1 Figure 2.3.10–1, as described in the licensee’s request dated August 30, 2013, and revised by the letter dated October 15, 2013. This exemption is related to, and necessary for the granting of License Amendment No. 10, which is being issued concurrently with this exemption.

3. As explained in Section 5.0 of the NRC staff Safety Evaluation, this exemption meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment needs to be prepared in connection with the issuance of the exemption.

4. This exemption is effective as of January 8, 2013.

III. License Amendment Request

By letter dated August 30, 2013, the licensee requested that the NRC amend the COLs for VCSNS Units 2 and 3, COLs NPF–93 and NPF–94. The licensee revised this application on October 15, 2013. The proposed amendment would depart from Tier 2 Material previously incorporated into the UFSAR. Additionally, these Tier 2 changes involve changes to Tier 1 Information in the UFSAR, and the proposed amendment would also revise the associated material that has been included in Appendix C of each of the VCSNS, Units 2 and 3 COLs. The requested amendment would amend Combined License Nos. NPF–93 and NPF–94 for the VCSNS Units 2 and 3 by

departing from the Combined License Appendix C information and the plant-specific DCD Tier 2 material by revising the safety function and classification of WLS drain hubs in the CVS and PXS compartments. In addition, the proposed changes would modify the PXS compartment drain piping connection; WLS valve types, and depiction of components in the WLS figures.

The Commission has determined for these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission’s rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to facility operating license or combined license, as applicable, proposed no significant hazards consideration determination, and opportunity for a hearing in connection with these actions, was published in the **Federal Register** on September 17, 2013 (78 FR 57180). No comments were received during the 60-day comment period.

The Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments.

IV. Conclusion

Using the reasons set forth in the combined safety evaluation, the staff granted the exemption and issued the amendment that the licensee requested on August 30, 2013, and revised by letter dated October 15, 2013. The exemption and amendment were issued on January 8, 2014 as part of a combined package to the licensee (ADAMS Accession No. ML13354B699).

Dated at Rockville, Maryland, this 25th day of February 2014.
